If new FAA regulations are adopted, the noise reduction equipment would be mandatory on all new aircraft after 2005. The FAA has no plans to order the equipment on current aircraft because it would be too costly and time consuming.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/5/03 (:40) said that the Transportation Department has issued its report detailing the reasons why flights get delayed. In October, about 19,000 flights were delayed due to problems like maintenance or tardy crews. The rest were caused by weather, air traffic and other factors. Security accounted for less than 1% of flight delays. The report also showed that Jet Blue had the best on-time performance. Continental Airlines had the lowest rate of delays within its control. Atlantic Coast Airlines had the highest rate.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/8/03 (:40) mentioned that the International Terminal at LAX soon will get a multi-million dollar face-lift. The interior of the Bradley International Terminal will undergo 225-million dollars in renovations. 40% of that money will be used to upgrade security. It's the most extensive renovation at the Bradley Terminal since it opened in 1984.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/10/03 (:40) talked about how travelers aboard America West Airlines will soon be getting something new with their in-flight meals, more advertising. The airline is the first to sell ad space on its tray tables. Big name advertisers including Visa, Mercedes Benz and Bank of America have already bought tray space. America West says the new Ad Revenue will help keep fares down on the low-cost carrier

CHANNEL 4 NEWS, 11:00-12:00PM, 12/12/03 (:40) mentioned that starting March 1st, Scenic Airlines plans to offer 14 round trip flights from Palmdale to Las Vegas. That is 14 roundtrips per week. Palmdale has not had an airline since February of 1998. Scenic Airlines is based in Las Vegas.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/17/03 (:40) reported that some Delta Airlines customers are helping soldiers serving in Iraq get home while on their two week breaks. The customers are donating frequent flyer miles. It is all part of a program called "Operation Hero Miles" started by a Maryland congressman. Nearly half the frequent flyer miles donated nationwide come from Delta customers. Delta says the donations will allow it to provide about 4000 domestic round-trips.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/24/03 (:40) discussed how drunk or tired drivers should watch out as the California Highway Patrol is launching its "maximum enforcement period" for this long holiday weekend. The CHP's stepped-up enforcement period begins tonight at 6:00PM and runs through Sunday night. And officers suggest these tips: leave plenty of time for your trip, if you take a long trip, take a break from driving at least once an hour and keep to a safe speed for the traffic and road conditions.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/29/03 (:40) reported that the U.S. government will now require international air carriers to put armed guards on some flights over the United States, effective immediately. According to a directive from the Department of Homeland Security, the armed officers on international flights will come from the country of airline ownership. The change covers both passenger flights and cargo planes and will apply to specific flights, "based on information". If airlines refuse to comply, they could be denied U.S. landing privileges.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/31/03 (:40) said that an Air France jumbo jet was delayed at LAX because of security concerns. It was searched and nothing was found. Federal officials are not saying exactly why they held the jet. This isn't the first time Air France flights have been delayed over security concerns. On Christmas Eve and Christmas Day, six Air France flights bound for or leaving from LAX were delayed because of terrorism concerns.

CHANNEL 4 NEWS, 11:00-12:00PM, 12/31/03 (:40) mentioned that from now until Monday morning, a "maximum enforcement period" aimed at keeping drunk drivers off the road for the New Year's holiday is in effect. California Highway Patrol officers say they will "focus on the holiday-impaired driver". And, if that's not bad enough, drunken drivers caught with kids in the car will be prosecuted for child endangerment, as well. That could bring an extra six-months in jail and a \$1,000 fine. So, if you raise more than a toast or two for the New Year, plan on a designated driver or free ride plan.
