To Whom it May Concern:

In preparing the application for renewal of the station's license, it was discovered that Form 323 (Biennial Ownership Report) had not been filed since 2012. This was unintentional but due to poor record keeping by the station manager during that time period. A Form 323 was filed on 7-27-2020. Going forward, the current station manager will calendar the due dates for the report filing and copy the Board of Directors who will review and insure that the policy is followed going forward.

Thank you for your consideration,

Kendall Boysen  
WDBX Station Manager
