1/8/2013

To Whom It May Concern:

Be advised that the State of Wisconsin – Educational Communications Board has received authorization from the Federal Communications Commission to increase power of WPNE-TV from 200kW effective radiated power to 300kW effective radiated power. WPNE-TV is located in the Town of Ledgeview, Brown County, WI and operates on RF channel 42 (638-644mHz). This power increase will take place in the next few weeks.

If your healthcare facility has implemented the use of wireless patient monitors, you should make sure these monitors are not programmed to use the same channel/frequency as used by WPNE-TV (channel 42/638-644mHz) because of potential interference issues.

Feel free to contact me if you have any questions or concerns.

Stephen Bauder
