

KAGU Public Affairs Programming

April 1 -- June 30, 2022

KAGU-FM is licensed to the Gonzaga University Telecommunication Association and operated by students of the Broadcast Studies division of the Communication Arts Department.

Responding to the needs of our listeners, KAGU originates, monitors and retransmits, and documents transmissions from the Emergency Alert System (EAS). Following the mission and purpose of Gonzaga University, and in support of our commitment to contribute to the fine arts in the Spokane community, the format of full-time classical music meets a significant cultural need. At this time, no other radio station in the Spokane area programs full-time classical music twenty four hours each day, seven days a week. Gonzaga University offers this programming as a public service to listeners in the Inland Northwest.
