Issues/Programs List

The attached public service logs specify issues addressed by our public service programming, as specified in FCC rule 73.3527(e)(8). Here are the general areas that we have identified as areas of concern for our listening audience for the first quarter of 2024 (in alphabetical order):

Agriculture
The Arts
Campus/Student Life
Diversity, Equity & Inclusion
Economics
Education
Environment
Film Criticism
Foreign Policy
Gaming Culture
Gender & Sexuality
History
Housing
International Issues/Culture
Law & Legislature
Media & Society
Mental Health
Music & Literature
Politics
Popular Culture
Public Safety/Crime
Science
Sports

In addition, our public service announcements run on each program and cover a variety of health, social, and community-related topics of interest to our listeners. Finally, we have other programs that – though their content may not be strictly issue-oriented – are a public service. We also engage classes from across the campus in curricular and co-curricular activities.
