Dear Affiliate Partner:

To assist you in complying with the reporting requirements for children's television and the requirement that stations air "core" children's programming, we are providing you with episode-specific descriptions (the '**NBC Kids**' educational and informational programming block) as set forth in the attached Community Relations Quarterly Children's Programming Report for the 2nd quarter of 2015. The report includes information to help prepare FCC Form 398. Please note that we have not included the specific dates and times for each of the programs as that may be station-specific.

This report is divided into the following categories:

1. Educational Objectives: NBC Kids for both 2nd quarter 2015 and 3rd quarter 2015.
2. Core programming: Regularly scheduled programming furnished by the NBC Network that is specifically designed to serve the early educational and informational needs of children 16 and under. Each of these programs is identified on-air as educational and informational with the "E/I" icon, and is similarly identified to the national listing services. To assist stations with the preemption report section of FCC Form 398, we have added specific episode numbers. Please note that the age target for NBC Kids programming is identified as 2-5 years old.
3. Other programming: Programming furnished by the NBC Network that contributes to the educational and informational needs of children 16 and under, but is not specifically designed to meet the educational and informational needs of children.
4. Public service announcements targeted to children 16 and under.
5. Non-broadcast efforts that enhance the educational and informational value of NBC Network programming to children.
6. Network on-air promotional efforts, which include a schedule of NBC on-air promos for NBC Kids programming.

The regularly-scheduled children's programming and promotional content furnished to you by the NBC Network during the 2nd quarter of 2015 complied with the commercial limits of the Children's Television Act, and 47 C.F.R. §§ 73.670(a)-(d), provided that you broadcast and distributed such programming as furnished to you by NBC, and did not add any promotional or advertising content thereto other than as directed by NBC via weekly postings on APT.

*Note Regarding FCC's Video Description Rules:* The programs supplied in the NBC Kids block are video-described to provide a better viewing experience for blind or visually impaired children. *Under the FCC's video description rules that became effective on July 1, 2012, full-power affiliates of the ABC, CBS, Fox and NBC networks that are located in the top 25 television markets must provide 50 hours per calendar quarter of video-described programming during prime time or in children's programming. A video described program may be counted toward the 50 hours when it is originally aired and on one re-airing. Although much of the programming aired with video description is likely to be newly produced, stations may count any program they are airing for the first or second time with video description after the effective date, even if the program aired on that station without video description prior to the effective date. Similarly, a station may count programming toward its 50-hour obligation even if that programming has aired elsewhere with video description, as long as it is airing with description for the first or second time on that station.*

## **2<sup>nd</sup> QUARTER 2015 EDUCATIONAL OBJECTIVES**

In compliance with the Children's Television Act regulations that became effective January 2, 1997, the **NBC kids** programming block features an on-air icon (E/I) indicating that each program is "educational and informational" for children. **This icon is displayed throughout each program.** Also, in compliance with the regulations, the following document, which includes "early educational and informational" objectives of **NBC kids**, must be placed in your public file.

The **NBC kids** programming block also meets the requirements for video described content, as established by the Twenty-first Century Communications and Video Accessibility Act, effective October 8, 2010. Full-power affiliates of NBC that are located in the 25 television markets with the largest number of television households must provide video-described content at any time they are providing children's programming. Each episode of content can be aired no more than twice in the calendar year.

Each of the programs listed below, which make up the three hour **NBC kids** programming block, is specifically designed to serve the early educational and informational needs of children ages 2-5. All of the programs have educational objectives and messages that are core to the content and appropriate for the program genre.

From April 4th – June 27, 2015 **NBC Kids** aired five shows returning from the 1<sup>st</sup> Quarter 2015. These are: **Astroblast, The Chica Show, Lazy Town, Poppy Cat, and Tree Fu Tom.** There is one new show: **Earth to Luna.**

All six shows were developed specifically for a target audience composed of children ages 2-5. They have a narrative format and three of the shows (**The Chica Show, Earth to Luna, and Tree Fu Tom**) use elements of fantasy and imagination to develop the educational content. **The Chica Show and Tree Fu Tom** combine live action with animation, while **Lazy Town** is live action with puppets. **Poppy Cat, Earth to Luna and Astroblast** are animated series.

**Astroblast**, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. Five animal characters and one three-eyed octopus of unknown derivation populate the station. Each episode begins with an everyday conversation or incident that grows into a predicament needing a solution. While these predicaments take place in a fantasy environment, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you,

practice good habits, clean up when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes.

**The Chica Show** features a five-year-old “baby” chick that spends her days with her parents in their costume shop, the Coop. The shop’s one employee, Kelly, doubles as Chica’s nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit, and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure—a fantasy transformation to animation— where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

**Lazy Town** encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters’ eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends (“human” puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus (a gymnast/athlete prepared to answer any call for help) comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating “sports candy” (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a wide range of physical activities that include playing games, competing athletically, and even building forts and play structures.

**Earth to Luna** is a Brazilian animated series about 12 year old girl, Luna, who loves science and the outdoors. There is nothing she doesn’t question, and she shares everything she learns with her little brother, Jupiter, her parents or her friend Alice, and Clyde, her pet ferret. In each episode Luna and her brother develop questions about whatever they find curious, e.g., what goes on inside the snails’ shell?” or “Why does a firefly blink?” In pursuit of answers, Luna, Jupiter and Clyde go off on an imaginary adventure to do their research. They transform into the object or creature they are studying so they can personally experience the answers to their questions. When the threesome is finished with the “field trip” Luna summarizes everything they have learned with a show and a song.

**Poppy Cat** based on a book series by Lara Jones, models the use of imagination and storytelling to encourage creative thinking in viewers. Each episode features the narrator Lara, reading a story about Poppy Cat, to her own cat (who is also named Poppy). She weaves an exciting tale following her imagination, which leads her to distant lands reached by boat, plane, hot air balloon or train. Each story features Poppy Cat as the leader of a group of animal friends, including the resident bully Egbert the badger, and other occasionally recurring characters. A prevailing message emerges within each episode to be nice to your friends and always work together. There remains an overarching implicit message within every episode as well; think creatively and exercise your mind through reading and storytelling – for these activities always lead to enjoyment and adventure.

**Tree Fu Tom** is a live action/animated series about a little boy who lives in a rural area, and has a rich fantasy life in the woods behind his home. Tom uses specific movements to summon up magic powers that permit him to morph into an animated hero and fly around in Treetopolis, the fantasy version of his woods.

While in Treetopolis, Tom and his friends, Ariella, Twigs, Squirmturn and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him “Big World” magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish and relying on teamwork in order to accomplish a goal.

### **3<sup>rd</sup> QUARTER 2015 EDUCATIONAL OBJECTIVES**

There will be one new show introduced during the 3<sup>rd</sup> Quarter, **Ruff Ruff, Tweet, and Dave (RRTD)**. This animated show puts an emphasis on logical thinking and use of language through fun problem solving adventures. The trio, **RRTD**, is guided by Hatty, an erudite hamster who wears a hat full of questions. The three characters agree that they would like to take a particular adventure and rev up their Roly-pods, enter the Spin-Again transport vehicle and arrive at their destination. Once there, Hatty challenges them to make decisions and choose options that will lead to success or failure with their quest. Once their mission is complete, they review their effort, assemble the Roly-Pods and head home. Their adventures are varied. They might go climb a mountain, design their own fairy tale, or build a sand castle.

### **2<sup>nd</sup> QUARTER 2015 SHOW SUMMARIES**

**Astroblast** is the space station and home of six animal characters in Bob Colar’s book series of the same name. The space station is managed by an over-confident and exuberant commander, Comet the dog. The crew includes, Sputnik the pig, a very knowledgeable reader; Haley, a rabbit, an athlete and Comet’s true peer; Radar, the monkey, who is somewhat self-involved; Jet, a silent alligator whose gestures and expressions are his mode of communication, and Sal, a congenial three-eyed octopus who runs the counter in the space station café, the Smoothie Shack. While the space station supports the missions of a bizarre and diverse array of aliens, the Smoothie Shack is the hub of social interaction for the galaxy. There is always something happening at Astroblast and everyone on the crew has plenty to learn to keep the community happy and on an even keel.

**The Chica Show** features a five-year-old “baby” chick that spends her days with her parents in their costume shop, the Coop. The shop’s one employee, Kelly, doubles as Chica’s nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica’s parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

**Lazy Town** is a show featuring the importance of health, fitness, and being good friends. Set in a fantasy world known as Lazy Town, which is populated by inactive residents, we meet a visitor named Stephanie who is determined to coax her friends and relatives into adopting a healthful, active life style. She wins over her new friends, Ziggy, Stingy, Trixie and Pixel, convincing them to leave their gaming consoles and candy stashes at home so they can go outside and play. She persuades her uncle, Mayor Milford Meanswell, and his friend Ms. Busy Body to support her efforts. Robbie Rotten, who lives underground, and is determined to return Lazy Town to its former state of inactivity and quiet, constantly foils the characters’ efforts. The athlete Sportacus lives in a zeppelin-like aircraft and receives signals from the kids or the Mayor whenever they need help. He frequently comes to their rescue. Sportacus has two goals, to

keep the peace and to promote healthful, positive living. When Robbie Rotten is discovered and contained through comic pratfalls, he returns to his underground lair and all is well in Lazy Town, until another day and another time when Robbie will rise again.

**Earth to Luna** is a series that stars big sister Luna and her little brother, Jupiter. Luna teaches her brother through play and adventure that typically takes place in their backyard. Science and experimentation are Luna's forte but fun and music are always on the menu of activities. Often the music provides compelling details about the scientific findings. Luna's friends, Alice and Tom, often join the kids. Clyde, her pet ferret is ever-present and provides lots of comedic action. And Luna's parents are there to praise the children's accomplishments which they reveal through a little vignette at the end of the story.

**Poppy Cat** is based on the **Poppy Cat's Adventures** book series authored and illustrated by Lara Jones. A narrator, also named Lara, reads a story to her cat in each episode. This story stars the narrator's own Poppy Cat, who envisions and takes his friends on imaginary adventures. The friends are Zuzu, a Dalmatian who zips around on a skateboard; Alma, a southern belle bunny who is ultra-feminine and sweetly dramatic; Mo, a little mouse who tries his best to do as much as everyone else despite his size; Owl, the wise one who is prone to neck rolls and commentary when things irritate him or don't make sense; and the grouchy Egbert, an arrogant and obnoxious badger who refuses to play with the group and invariably attempts to sabotage their adventures. Occasionally Hilda, a forgetful and ditzy pigeon who flies into their adventures, appears, says hello and provides misguided directions to the friends. Once their mission is accomplished, the friends return to their little village and resume their cheerful, active lives. At the conclusion of her story, Lara closes her book and says good-bye to Poppy Cat, who is usually ready for his nap.

**Tree Fu Tom** focuses on the amazing adventures of a young boy called Tom who, with the power of 'Big World' magic that depends upon specific movements, can transform into a tiny but mighty magical super hero who travels to the wondrous enchanted kingdom of Treetopolis. During each program Tom calls upon the audience to follow his moves and send him the "Big World" magic he needs to solve the problem he and his friends are facing. These friends include Ariella, a butterfly who is also a rancher and has rope lassoing skills; Twigs, an acorn sprite who folds himself into an acorn when he's frightened; Squirmtun, a pill bug who looks like a large and imposing coal miner but is often timid and fearful; and Zigzoo, a green tree frog who is the resident genius inventor. In each episode there are action adventure sequences that are key to resolving the challenge of the day.

### **3<sup>rd</sup> QUARTER 2015 SHOW SUMMARIES**

**Ruff Ruff, Tweet, and Dave [RRTD]** is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave the Panda has a thing for bananas. **RRTD** might go to the beach, or the mountains, or to strange lands with pillows everywhere; just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. And their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey.

go up to Bunji's castle and find a few loose diamonds in the main room they assume Bunji and Stitch are the thieves. A chase ensues and they end up in a closet where Stitch, the butler, found the necklace on the floor and used it as a chain for a light switch. Kelly and Chica realize they assumed the necklace was stolen when actually Kelly lost it and Stitch picked it up and used it as something else. They needed to look at the problem differently. They open the box and find the baby chick sitting at the bottom with more of the straw.

Luna, Jupiter, and Clyde make believe they are stars in the sky, where they learn that stars are actually round. On the way, they run into Egbert who has just taken up tree hugging and thanks them for providing what is needed to make paper. A loud squawk comes from one tree and soon they find a bird foot-print and a blue feather. They look up and find Gilda, who works part-time in the library tree and tells Owl he forgot to return the book to the library so she did it for him.

## **TREE FU TOM**

### **BUZZWORTHY [ETFT112DH]**

Tom and Twigs are helping Ariela on the farm. They use magic to help collect nectar for her lady-birds. They disagree with Ariela over whether or not to let the bees share in her nectar supply for their own honey-making needs. After much conflict between Ariela and her friends and the bees, they have to come together to deal with a major honey-spill. They come to an understanding and realize that they can share and help each other with their individual needs.

**[Educational Message: When you are willing to share you can typically find win-win situations where each side gains something they want.]**
