Dear Affiliate Partner:

To assist you in complying with the reporting requirements for children's television and the requirement that stations air "core" children's programming, we are providing you with episode-specific descriptions (the '**NBC Kids**' educational and informational programming block) as set forth in the attached Community Relations Quarterly Children's Programming Report for the 4th quarter of 2015. The report includes information to help prepare FCC Form 398. Please note that we have not included the specific dates and times for each of the programs as that may be station-specific.

This report is divided into the following categories:

1. Educational Objectives: NBC Kids for both 4th quarter 2015 and 1st quarter 2016.
2. Core programming: Regularly scheduled programming furnished by the NBC Network that is specifically designed to serve the early educational and informational needs of children 16 and under. Each of these programs is identified on-air as educational and informational with the "E/I" icon, and is similarly identified to the national listing services. To assist stations with the preemption report section of FCC Form 398, we have added specific episode numbers. Please note that the age target for NBC Kids programming is identified as 2-5 years old.
3. Other programming: Programming furnished by the NBC Network that contributes to the educational and informational needs of children 16 and under, but is not specifically designed to meet the educational and informational needs of children.
4. Public service announcements targeted to children 16 and under.
5. Non-broadcast efforts that enhance the educational and informational value of NBC Network programming to children.

The regularly-scheduled children's programming and promotional content furnished to you by the NBC Network during the 4th quarter of 2015 complied with the commercial limits of the Children's Television Act, and 47 C.F.R. §§ 73.670(a)-(d), provided that you broadcast and distributed such programming as furnished to you by NBC, and did not add any promotional or advertising content thereto other than as directed by NBC via weekly postings on APT.

Note Regarding FCC's Video Description Rules: The programs supplied in the NBC Kids block are video-described to provide a better viewing experience for blind or visually impaired children. *Under the FCC's video description rules that became effective on July 1, 2015, full-power affiliates of the ABC, CBS, Fox and NBC networks that are located in the top 60 television markets must provide 50 hours per calendar quarter of video-described programming during prime time or in children's programming. A video described program may be counted toward the 50 hours when it is originally aired and on one re-airing. Although much of the programming aired with video description is likely to be newly produced, stations may count any program they are airing for the first or second time with video description after the effective date, even if the program aired on that station without video description prior to the effective date. Similarly, a station may count programming toward its 50-hour obligation even if that programming has aired elsewhere with video description, as long as it is airing with description for the first or second time on that station.*

4th QUARTER 2015 EDUCATIONAL OBJECTIVES

In compliance with the Children's Television Act regulations that became effective January 2, 1997, the **NBC Kids** programming block features an on-air icon (E/I) indicating that each program is "educational and informational" for children. **This icon is displayed throughout each program.** Also, in compliance with the regulations, the following document, which includes "early educational and informational" objectives of **NBC Kids**, must be placed in your public file.

The **NBC Kids** programming block also meets the requirements for video described content, as established by the Twenty-first Century Communications and Video Accessibility Act, effective October 8, 2010. Full-power affiliates of NBC that are located in the 25 television markets with the largest number of television households must provide video-described content at any time they are providing children's programming. Each episode of content can be aired no more than twice in the calendar year.

Each of the programs listed below, which make up the three hour **NBC Kids** programming block, is specifically designed to serve the early educational and informational needs of children ages 2-5. All of the programs have educational objectives and messages that are core to the content and appropriate for the program genre.

From October 3rd – December 26th, 2015 **NBC Kids** aired five shows returning from the 3rd Quarter 2015. These are: **Astroblast, Lazy Town, Earth to Luna, Tree Fu Tom, and Ruff-Ruff, Tweet, and Dave.** There is one new show: **Clangers.**

All six shows were developed specifically for a target audience composed of children ages 2-5. They have a narrative format and two of the shows (**Earth to Luna** and **Tree Fu Tom**) use elements of fantasy and imagination to develop the educational content. **Tree Fu Tom** combines live action with animation, while **Lazy Town** is live action with puppets. **Clangers, Earth to Luna, Ruff-Ruff, Tweet, and Dave** and **Astroblast** are animated series.

Ruff-Ruff, Tweet, and Dave (RRTD) is an animated show that puts an emphasis on logical thinking and use of language through fun problem solving adventures. The trio, **RRTD**, is guided by Hatty, an erudite hamster who wears a hat full of questions. The three characters agree that they would like to take a particular adventure and rev up their Roly-pods, enter the Spin-Again transport vehicle and arrive at their destination. Once there, Hatty challenges them to make decisions and choose options that will lead to success or failure with their quest. Once their mission is complete, they review their effort, assemble the

Roly-Pods and head home. Their adventures are varied. They might go climb a mountain, design their own fairy tale, or build a sand castle.

Astroblast, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. Five animal characters and one three-eyed octopus of unknown derivation populate the station. Each episode begins with an everyday conversation or incident that grows into a predicament needing a solution. While these predicaments take place in a fantasy environment, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you, practice good habits, clean up when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes.

Lazy Town encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters' eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends ("human" puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus (a gymnast/athlete prepared to answer any call for help) comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating "sports candy" (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a wide range of physical activities that include playing games, competing athletically, and even building forts and play structures.

Earth to Luna is a Brazilian animated series about 12 year-old girl, Luna, who loves science and the outdoors. There is nothing she doesn't question, and she shares everything she learns with her little brother, Jupiter, her parents or her friend Alice, and Clyde, her pet ferret. In each episode Luna and her brother develop questions about whatever they find curious, e.g., "What goes on inside the snails' shell?" or "Why does a firefly blink?" In pursuit of answers, Luna, Jupiter and Clyde go off on an imaginary adventure to do their research. They transform into the object or creature they are studying so they can personally experience the answers to their questions. When the threesome is finished with the "field trip" Luna summarizes everything they have learned with a show and a song.

Clangers is a beloved British series that was originally conceived by Oliver Postgate in 1969 and has been reconceived and invigorated by his son, Daniel Postgate. The show features the Clanger family, small mouse-like creatures that live on Clanger Planet far away from Earth. The members of the family are presented with many unusual challenges that become the center of a dilemma that must be resolved within each episode. Strange visitors arrive out of nowhere and Clangers have to figure out who the visitors really are and why they are on Clanger Planet. Sometimes they need to help or rescue someone who has become lost on the planet. Other times, they are trying to understand outer space: meteors and comets and eclipses of the sun or moon. Each member of the family has a forte', from playing music to knitting or gardening or inventing equipment that comes in handy for some of the problem solving that takes place.

Tree Fu Tom is a live action/animated series about a little boy who lives in a rural area, and has a rich fantasy life in the woods behind his home. Tom uses specific movements to summon up magic powers that permit him to morph into an animated hero and fly around in Treetopolis, the fantasy version of his woods. While in Treetopolis, Tom and his friends, Ariela, Twigs, Squirmtum and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that

will bring him “Big World” magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish and relying on teamwork in order to accomplish a goal.

1st QUARTER 2016 EDUCATIONAL OBJECTIVES

There are two new shows, **Nina’s World** and **Floogals**, joining the schedule during the first quarter of 2016. **Nina’s World** premieres January 2, 2016 and the **Floogals** enters the schedule February 4, 2016, replacing **Earth to Luna** and **Tree Fu Tom**.

Nina’s World is an animated show based on a six year old Latina, who lives in San Antonio, Texas with her parents, who own the local bakery, and her Abuela (grandmother). Her Tio (Uncle) Javier lives nearby and there are lots of different children and adults from several different cultures in the apartment complex and neighborhood where she lives. Nina’s best friend is Star, a stuffed starfish pillow character brought to life by Nina’s imagination. Each episode features Nina taking on a challenge, solving a problem, or finding a way to help others. She is very confident about her abilities, which sometimes gets her into trouble. However, with encouragement and chiding from Abuela, Nina learns about how to plan her “work,” take responsibility for her actions, and correct her mistakes.

Floogals is an animated show starring three space aliens--Fleeker, Flo, and Boomer-- who have been sent to earth to explore, investigate, discover and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman [that’s Floogal-speak for human], the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they’ve figured out what and how their new discovery fits into the Hooman universe.

4th QUARTER 2015 SHOW SUMMARIES

Ruff-Ruff, Tweet, and Dave [RRTD] is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff-Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave the Panda has a thing for bananas. **RRTD** might go to the beach, or the mountains, or to strange lands with pillows everywhere, just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. Their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey.

Astroblast is the space station and home of six animal characters in Bob Kolar’s book series of the same name. The space station is managed by an over-confident and exuberant commander, Comet the dog. The crew includes, Sputnik the pig, a very knowledgeable reader; Haley the rabbit, an athlete and Comet’s true peer; Radar, the monkey, who is somewhat self-involved; Jet, a silent alligator whose gestures and expressions are his mode of communication, and Sal, a congenial three-eyed octopus who runs the counter in the space station café, the Smoothie Shack. While the space station supports the missions of a bizarre and diverse array of aliens, the Smoothie Shack is the hub of social interaction for the galaxy. There is always

something happening at Astroblast and everyone on the crew has plenty to learn to keep the community happy and on an even keel.

Lazy Town is a show featuring the importance of health, fitness, and being good friends. Set in a fantasy world known as Lazy Town, which is populated by inactive residents, we meet a visitor named Stephanie who is determined to coax her friends and relatives into adopting a healthful, active life style. She wins over her new friends, Ziggy, Stingy, Trixie and Pixel, convincing them to leave their gaming consoles and candy stashes at home so they can go outside and play. She persuades her uncle, Mayor Milford Meanswell, and his friend Ms. Busy Body to support her efforts. Robbie Rotten, who lives underground, and is determined to return Lazy Town to its former state of inactivity and quiet, constantly foils the characters' efforts. The athlete Sportacus lives in a zeppelin-like aircraft and receives signals from the kids or the Mayor whenever they need help. He frequently comes to their rescue. Sportacus has two goals, to keep the peace and to promote healthful, positive living. When Robbie Rotten is discovered and contained through comic pratfalls, he returns to his underground lair and all is well in Lazy Town, until another day and another time when Robbie will rise again.

Earth to Luna is a series that stars big sister Luna and her little brother, Jupiter. Luna teaches her brother through play and adventures that typically take place in their backyard. Science and experimentation are Luna's forte but fun and music are always on the menu of activities. Often the music provides compelling details about the scientific findings. Luna's friends, Alice and Tom, often join the kids. Clyde, her pet ferret is ever-present and provides lots of comedic action. And Luna's parents are there to praise the children's accomplishments, which they reveal through a little vignette at the end of the story.

Clangers, a beloved British series originally launched in 1969 by its writer, narrator and animator, Oliver Postgate, returns to broadcast television under the stewardship of Postgate's son, Daniel. All of the features of the original series have been retained but updated to 21st century colors and materials. The main characters are the Clanger family, a group of pink knitted mouse-like creatures who walk upright: Mother, Major (who is father), Small and Tiny (the children) and Granny. Clanger Planet is small enough to walk its circumference and is also riddled with caves and tunnels that house the family and their friends: the Soup Dragon and her baby, the three Froglets, and a group of singing flowers. Contextual features and characters include a sideways lake, singing trees, a cloud that has emotions, flying "cows" and The Iron Chicken who lives in a nest of harvested metal parts from the detritus of outer space. The tone is existential—each day presents its own story—which is usually happily resolved by one of the children or another family member. The series is fittingly narrated by William Shatner (Captain Kirk from the Star Trek television series).

Tree Fu Tom focuses on the amazing adventures of a young boy called Tom who, with the power of 'Big World' magic that depends upon specific movements, can transform into a tiny but mighty magical super hero who travels to the wondrous enchanted kingdom of Treetopolis. During each program Tom calls upon the audience to follow his moves and send him the "Big World" magic he needs to solve the problem he and his friends are facing. These friends include Ariela, a butterfly who is also a rancher and has rope lassoing skills; Twigs, an acorn sprite who folds himself into an acorn when he's frightened; Squirmtum, a pill bug who looks like a large and imposing coal miner but is often timid and fearful; and Zigzoo, a green tree frog who is the resident genius inventor. In each episode there are action adventure sequences that are key to resolving the challenge of the day.

1st QUARTER 2016 SHOW SUMMARIES

Nina's World is a childhood adventure series, which re-imagines a childhood for the character Nina, host of the Sprout Good Night Show. Nina is a six year-old Latina, living in San Antonio Texas. She is exposed to adults and children from many cultures who live in her immediate neighborhood and in the mixed use housing complex, where her parents own a bakery downstairs from their apartment. Nina manages to create regular adventures with her friends, her parents, and the grown-ups too, because she is curious and determined to over-reach her abilities in pursuit of her goals. Nina models resilience as there is not a day where she doesn't reflect on her encounters with good natured common sense and an ability to rebound after her mistakes.

Floogals provides a unique visual experience where computer generated animated space aliens are juxtaposed against a real-world background that perplexes them and sets them off on exploratory adventures. Their goal is to learn everything they can about this "Hooman" world. They take daring adventures to gathering facts while hoping to avoid detection by the Hoomans. Led by Captain Fleeker, the research team consists of an astronaut Floogal, Flo and a junior Floogal, Boomer. Together they discover that the mundane (ice-cubes and umbrellas for example) is the basis for transformative experiences that help us all better understand the world they (and we) inhabit.

A FAIRYTALE ADVENTURE [ERTDR101DH]

Ruff-Ruff, Tweet, and Dave wake up and tell Hatty which kind of stories they each like best. When Hatty asks what kind of adventure they will have, Ruff-Ruff, Tweet, and Dave yell excitedly to ask the hat. The hat tells them that they are going on a fairytale adventure, and they all board the Spin-Again. In Fairytale Land, they decide to make up a story. They find 3 keys of differing shapes, one of which unlocks a basket full of dress-up clothes. Ruff-Ruff gets a shield, Tweet picks a wand, and Dave chooses a wizard hat. When a squirrel takes Tweet's wand, they resolve to bribe the squirrel with nuts to get the wand back. They learn that all fairytales begin with "Once Upon a Time" and end with "And They All lived Happily Ever After."

[Educational Message: Problem solving always has components, which include defining the problem, proposing a solution, and choosing the one that will work.]

A BOUNCY ADVENTURE [ERTDR101DH]

Ruff-Ruff, Tweet, and Dave wake up excited to know what kind of adventure they are going on that day. The hat reveals that they are going on a bouncy adventure. They board the Spin-Again and arrive in Bouncyland. While there, they play games in which they find out who can jump the highest, find the bounciest thing, and that sand makes objects less bouncy. When Hatty's hat gets stuck in a tree, they choose the bounciest thing, which is a Bouncy House, to get it down.

[Educational Message: Bouncing is when a person or an object goes up and down. Some objects (like a ball) bounce better than others (like a rock).]

A BIRD IN THE HAND [EATB114DH]

Sputnik and Comet learn about a rare bird species on TV. Sputnik sees the bird, but no one believes her. Since the bird can camouflage itself, it disappears every time she tries to show it to her friends. She doesn't let the disbelief discourage her and, after much persistence, she is able to show everyone the bird by luring it to a bowl of berries. Everyone is surprised when they see the bird and, when it eats the berries they all get a treat—to hear the bird's beautiful and rarely heard song!

[Educational Message: You should not be discouraged from believing strongly in something, even when others don't believe you. Persistence, cleverness, and creativity can enable you to open others' eyes to what they may have not seen before.]

Following a welcome visit from Halley's space surfing friends, Halley's favorite surfboard "Nutrino" goes missing. Comet, who is inspired to solve a mystery due to the comic he is reading, offers to help. Comet accuses one of Halley's surfer friends of taking her surfboard, and Sputnik warns him against jumping to conclusions. Sure enough, Comet and Halley figure out that it was not her friend who took her surfboard, but Sal, who took it in order to fix it.

She makes a big ball of junk and enlists the help of some Sky-Moos to push it down to the Clanger's planet to see if anyone is interested in her "junk." Her plan works, as the ball of junk breaks apart on impact. Neither the Froglets nor the Soup Dragon are interested in her stuff. When Major Clanger comes to assess the usefulness of The Iron Chicken's stuff, she flies off, leaving Major Clanger stuck with her junk. Small Clanger ends up taking over The Iron Chicken's junk and makes a grand sculpture out of it. Mother Clanger thinks it is wonderful that Small reused the junk and they send the art into space for the whole universe to enjoy.

More seeds fall, Tiny plants them, and the whole family watches them grow into a Crystal Tree Forest. Tiny and Mother want to find a way to make the trees glow. After trying a number of methods, they realize that the trees need cold in order to grow and music in order to glow. When it gets warmer, the Crystal Trees melt and the seeds go to glow somewhere else.

[Educational Message: When seeds grow into plants we have to figure out how to take care of them so we can enjoy them and help them grow.]

EARTH TO LUNA

UP, UP, AND AWAY [EETL114DH]

Luna, Jupiter, and their friends are riding bikes when they notice a hot air balloon. When they get home, Luna and Jupiter express that they want to see more hot air balloons and wonder how they fly. Luna designs an experiment in which she makes her own hot air balloon and observes whether or not the balloon flies with the help of fan-generated wind. When this homemade hot air balloon is unable to fly, they make believe that they are hot air balloons. Some other hot air balloons explain that the fire underneath the balloon fills it with hot air, which is lighter than cold air, causing it to rise up. The wind allows the hot air balloons to travel laterally.

[Educational Message: Hot air balloons are able to fly up due to the fire underneath the balloon that fills it with hot air, which is lighter than cold air, causing it to rise. The wind allows the hot air balloons to travel laterally.]

DRAWINGS IN THE SKY [EETL114DH]

Luna pays a visit to Edison, the mailman, and shows him her book with “drawings in the sky.” Edison explains that these are constellations and how they serve important purposes. He also describes how the night sky is different in different parts of the world and that it changes throughout the year. When Luna returns home, she tells Jupiter what she learned and they decide to try to look for some of these constellations. When they cannot find the constellation shaped like a scorpion, Luna, Jupiter, and Clyde make believe they are astronauts. They speak to a star, who explains that the stars that make up a constellation aren’t as close as they appear from Earth. Luna realizes that you have to know where to look in order to find the constellations.

[Educational Message: Constellations are like drawings in the sky and, in order to find them, you have to know where to look.]

The team gets together, makes a plan, and Pixel joins in to score the winning goal.

[Educational Message: Even in a technological world, we can appreciate the “real” sports and activities and play them in order to be healthy and have fun. It is okay to trust in computers, but trust in yourself too.]

Treetog teaches a class of little sprites about the skills they will need to live successfully in the woods. Tom performs a demonstration of one of these skills; making the magic that catches the bouncing booster berries before they hit the ground. The sprites are so impressed they lavish fawning praise and adulation on Tom. Flattered, Tom completely ignores Treetog's request to take the spring beetle eggs to Ariela's farm where they can hatch and be sent to open space where they can jump and play. Needless to say when Tom passes the responsibility on to Twigs (because he's enjoying himself with the sprites) the beetles not only hatch at the barn, they tie up Ariela strapping her to the roof. Finally Twigs is able to get a message to Tom who comes to the rescue and releases the beetles into the wild. He is very apologetic for letting the little sprites distract him from his most important task.

[Educational Message: Compliments and praise really make us feel special but never feel so special that you disrespect your elders and ignore your responsibilities.]

HOW DO YOU GET TO THE CARNEGIE NEBULA? [EATBR115DH]

When Comet and his friends are all playing their instruments, Comet plays his clarinet badly. His friends emphasize the importance of practicing his instrument in order to improve. The friends decide to put on a concert, but when they begin rehearsing, it is clear that Comet has not been practicing. He keeps getting distracted by a new basketball game, at which he has gotten quite good over the course of the week. His improvement is due to the fact that his focus is sharp and his practice is consistent. When the concert arrives, Comet is not able to participate because he did not practice his instrument. All is not lost, however, as his friends like the sounds made by the basketball game. Comet "plays" the basketball game in the concert.

[Educational Message: When you aren't good at something, you should practice to improve your skill.]

SOMETHING BORROWED, SOMEONE BLUE [EATBR115DH]

Comet gets a new space pod and is obsessed with taking good care of it. He tells all of his friends that they are welcome to borrow it, as long as they follow his many rules for keeping it clean and functioning properly. Despite the fact that his friends try their best to follow his rules, he is disappointed that they don't maintain the space pod exactly as he would. When his friends tell him that all of the rules dissuade them from wanting to borrow the space pod, Comet realizes that just because his friends don't do everything just the way he does, they still respect and try their best to take care of his new space pod.

[Educational Message: When your friends borrow an item of yours, it is okay that they do not take care of it exactly the way you do, as long as they respect it.]

Major catches a lamp and sees a meteor; Small is sad because he didn't catch anything and because he didn't see the meteor. Not wanting him to feel left out, Major makes a "meteor machine" that he is going to fly across the sky so Small can see what a meteor looks like. Even though the meteor machine malfunctions, Small is happy because Major made him feel special. Later, there is an actual meteor shower and Small finally gets to see a meteor!

[Educational Message: Sometimes parents will try their very hardest to make their children happy, and that's one of the ways you learn how special you are to them.]

MOTHER'S MELODAY [ECLGR0002DH]

Tiny is trying to convince Mother Clanger to play some music; Mother doesn't want to because she doesn't believe she is as musically talented as Tiny. Major makes a harp-like instrument for Mother and gives it to her anonymously. Mother plays a lovely tune in her garden when she thinks no one is watching. The Clanger family pushes her to perform for them. At first, Mother is shy about playing her music but, when she acquiesces and tries something new, she discovers that she is musically talented. Mother plays her music for the whole family and everyone is delighted.

[Educational Message: Sometimes we are afraid to try something new. But if we take the first step toward overcoming our challenge, we may discover that we do have a talent that can be developed.]

EARTH TO LUNA

DO RE ME FA-LUTE [EETL115DH]

Luna and her friends are planning their band. Jupiter suggests he join the band, which is named "Band," and play his new pan flute. When Luna shows him how to play notes with his flute, Jupiter asks how the flute makes sound. They test different flutes in order to examine where the sound comes out. To discover more, Clyde and Luna make believe that they are pan flutes and Jupiter makes believe that he is a famous flautist. Luna and Clyde discover that they vibrate when Jupiter plays them, which is what makes sound. They also find out that the bigger the tube on the flute, the lower the note.

[Educational Message: Flutes make their sounds when air is blown into the flute, resulting in the vibration of the tubes. The bigger the tube, the lower the sound.]

BLOWING BUBBLES [EETL115DH]

Luna, Jupiter and Clyde are blowing soap bubbles in the backyard when Jupiter wonders why soap bubbles are round. Upon realizing that she doesn't know the answer, Luna decides to see if the shape of the bubble wand affects the shape of the resulting bubble. She observed that, despite the wand shape, the bubble was still round. Luna, Clyde, and Jupiter decide to make believe that they are bubbles and attempt to turn into a shape other than round. SPINCAKE DAY [ETFT204DH]

Treetog teaches the sprites that by they can create a fluffy baked cake for the Spincake Festival by tossing a mixture of magic and special ingredients into the air. Zigzoo comes to Treetog with a machine he invented that automates the cake-making process so many more Spincakes can be made effortlessly. He asks Treetog if he can be allowed to make all the cakes for this year's festival; she hesitantly agrees. Unfortunately, Zigzoo is distracted by the Mushas who steal the machine. In very little time, the theft results in a total mess, with a giant Spincake hovering dangerously over Treetopolis. This lesson comes in handy when Tom and Twigs must quickly leave the farm to determine what earthquakes are shaking the foundation of Treetog's castle. As they enter the caverns beneath the castle they find Treetog and the sprites trapped in a slime that hardens like rock. Zigzoo has a life-detector which confirms that there is a mother woodgrub with her young swarming throughout the caverns, feeding on the wooden roots of the trees supporting Treetog's castle. Major Clanger is testing his cleaning machine. Small and Tiny want to try it out, and Major tells them that he has to leave but will teach them how to use it when he gets back. Even though they are not to touch the machine without Major's presence, Small decides that he cannot wait. Once turned on, the machine sucks up a number of objects, including Granny's wool, Mother's flowers, and some of the Glow-Buzzers. In the process of trying to get the Glow-Buzzers out, Small and Tiny get trapped in a bubble and float out into space. Eventually, Tiny and Small are able to free the bugs and return to the planet. Major points out that none of this would have happened had they listened to his instructions in the first place.

Small goes to The Iron Chicken's nest and puts a hole there. Tiny is able to travel from the Clangers' planet all the way to the nest, meaning that the holes allow the Clangers to travel through space!

A TAIL OF TAILS [EETL119DH]

Luna and Jupiter are painting in the yard. Jupiter gets frustrated when Clyde's tail messes up his painting, causing him to wonder about the purpose of tails. Luna launches an investigation at a veterinary office, where she observes how a dog's tail responds to different stimuli. They discover that the dog's tail showed what he was feeling. To find out more, Luna, Jupiter, and Clyde make believe that they are animals with tails. They notice that different animals use their tails in different ways. Jupiter's monkey tail functioned like another arm, Clyde's squirrel tail could be used as a parachute, and Luna's fluffy fox tail kept her warm.

[Educational Message: Different animals use their tails for different purposes.]

gecko feet by putting plungers on their feet. The plungers are too effective, so Luna, Clyde, and Jupiter make believe that they are geckos. They observe tiny bristles on the pads of their gecko feet that help them stick to things.

LAZYTOWN

PIXEL TV [ELZT140H]

Everyone in Lazytown is working together to create shows for Lazytown TV. Robbie Rotten doesn't want the airwaves filled with all of this advice for healthy and active living, so he disguises himself and tries to broadcast his rules for Lazytown. He destroys each of the segments by trying to tell everyone to be lazy, do nothing, eat junk food, and sleep in. Robbie Rotten is so determined to shut down the station he tries to climb the tower and destroy the signal, but Sportacus saves him and the kids realize that it is Robbie. They are frustrated because their shows have been messed up, but they meet at the theater and perform the Bing Bang (Dance Together) song.

[Educational Message: Working together with your friends to promote healthy and active living is fun; there may be challenges, but you can overcome them by working together.]

TREE FU TOM

RANGER TOM: FUN GUY! [ETFT219DH]

Tom is going to attend Ranger Day in Treetopolis and meets up with his friends to assist Zigzoo with his fungal encyclopedia. When a potential fungus is identified, Chezz touches it despite a warning from Rickety. Chezz starts to get sick. Treetog knows this fungus causes the triccup and each triccup sends out three spores of fungus, which will cause more wood sprites to get sick. It's not long before Treetog tells Tom and Zigzoo to find the Fixit Fungus. When Tom and Twigs get stuck to yet another type of fungus, Tom has to inspire Zigzoo to continue on without him. With trepidation he searches for and finds the Fixit

fungus but loses control of it just as they head back to Treetog. With Tom and Twigs still stuck, Tom exhorts Zigzoo to continue his quest for the antidote. He works exuberantly, without any gadgets, and is successful in restoring the health of Treetopolis.

[Educational Message: Properly motivated, you can achieve a lot on your own and without depending on gadgets to get the job done.]

THE FOLLOWING PROGRAMMING FOR THE 4TH QUARTER 2015 CONTRIBUTED, AS PART OF NBC'S OVERALL PROGRAMMING, TO SERVE THE EDUCATION AND INFORMATIONAL NEEDS OF CHILDREN 16 AND UNDER.

THE WIZ LIVE! (TV-G) Aired 12/3/2015 (LIVE); Reprise telecast 12/19/2015 8-11PM ET)
A live musical event updating the Broadway show that brought OZ to life and featured Dorothy in a funky sing-along journey down the yellow brick road. With the help of her friends The Tin Man, The Cowardly Lion, The Scarecrow and the Mysterious Wizard of OZ, young Dorothy learns the value of loving and appreciating the gifts that life has given you. NBC's presentation of The Wiz Live could be heard with video description available through the Secondary Audio Program feature on your TV or set-top box.

DOLLY PARTON'S COAT OF MANY COLORS (TV-G) Aired 12/10/2015 9-11pm ET; Encore telecast 12/25/2015 9-11pm ET
"Dolly Parton's Coat of Many Colors" is based on the inspiring true story of living legend Dolly Parton's remarkable upbringing. This once-in-a-lifetime movie special takes place inside the tight-knit Parton family as they struggle to overcome devastating tragedy and discover the healing power of love, faith, and a raggedy patchwork coat that helped make Parton who she is today.

The film is set in the Tennessee Great Smokey Mountains in 1955. It is neither a biopic nor musical about Dolly's whole life and performing career, but rather a family-oriented faith-based story about the incidents in her and her family's life around the time she was 9 years old.
