Dear Affiliate Partner:

To assist you in complying with the reporting requirements for children's television and the requirement that stations air "core" children's programming, we are providing you with episode-specific descriptions (the '**NBC Kids**' educational and informational programming block) as set forth in the attached Community Relations Quarterly Children's Programming Report for the 2nd quarter of 2016. The report includes information to help prepare FCC Form 398. Please note that we have not included the specific dates and times for each of the programs as that may be station-specific.

This report is divided into the following categories:

1. Educational Objectives: NBC Kids for both 2nd quarter 2016 and 3rd quarter 2016.
2. Core programming: Regularly scheduled programming furnished by the NBC Network that is specifically designed to serve the educational and informational needs of children 16 and under. Each of these programs is identified on-air as educational and informational with the "E/I" icon, and is similarly identified to the national listing services. To assist stations with the preemption report section of FCC Form 398, we have added specific episode numbers. Please note that the age target for NBC Kids programming is identified as 2-5 years old.
3. Other programming: Programming furnished by the NBC Network that contributes to the educational and informational needs of children 16 and under, but is not specifically designed to meet the educational and informational needs of children.
4. Public service announcements targeted to children 16 and under.
5. Non-broadcast efforts that enhance the educational and informational value of NBC Network programming to children.

The regularly-scheduled children's programming and promotional content furnished to you by the NBC Network during the 2nd quarter of 2016 complied with the commercial limits of the Children's Television Act, and 47 C.F.R. §§ 73.670(a)-(d), provided that you broadcast and distributed such programming as furnished to you by NBC, and did not add any promotional or advertising content thereto other than as directed by NBC via weekly postings on APT.

Note Regarding FCC's Video Description Rules: The programs supplied in the NBC Kids block are video-described to provide a better viewing experience for blind or visually impaired children. *Under the FCC's video description rules that became effective on July 1, 2015, full-power affiliates of the ABC, CBS, Fox and NBC networks that are located in the top 60 television markets must provide 50 hours per calendar quarter of video-described programming during prime time or in children's programming. A video described program may be counted toward the 50 hours when it is originally aired and on one re-airing. Although much of the programming aired with video description is likely to be newly produced, stations may count any program they are airing for the first or second time with video description after the effective date, even if the program aired on that station without video description prior to the effective date. Similarly, a station may count programming toward its 50-hour obligation even if that programming has aired elsewhere with video description, as long as it is airing with description for the first or second time on that station.*

2nd QUARTER 2016 EDUCATIONAL OBJECTIVES
[AGE TARGET 2-5]
April 2, 2016 – June 25, 2016

In compliance with the Children's Television Act regulations that became effective January 2, 1997, the **NBC Kids** programming block features an on-air icon (E/I) indicating that each program is "educational and informational" for children. **This icon is displayed throughout each program.** Also, in compliance with the regulations, the following document, which includes "early educational and informational" objectives of **NBC Kids**, must be placed in your public file.

The **NBC Kids** programming block also meets the requirements for video-described content, as established by the Twenty-first Century Communications and Video Accessibility Act, effective October 8, 2010. Full-power affiliates of NBC that are located in the 25 television markets with the largest number of television households must provide video-described content at any time they are providing children's programming. Each episode of content can be aired no more than twice in the calendar year.

Each of the programs listed below, which make up the three-hour **NBC Kids** programming block, is specifically designed to serve the early educational and informational needs of children ages 2-5. All of the programs have educational objectives and messages that are core to the content and appropriate for the program genre.

From **April 2, 2016 – June 25, 2016**, **NBC Kids** aired three shows returning from the 1st Quarter 2016, **Floogals**, **Nina's World**, and **Ruff-Ruff, Tweet and Dave**. Two shows, **The Chica Show** and **Noodle and Doodle**, were added back into the line-up, replacing **Clangers** and **Lazy Town**.

Floogals is an animated show starring three space aliens--Fleeker, Flo and Boomer-- who have been sent to earth to explore, investigate, discover, and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman (that's Floogal-speak for human); the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem-solving, as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they've figured out what and how their new discovery fits into the Hooman universe.

Nina's World is an animated show based on a six-year-old Latina living in San Antonio, Texas with her parents, who own the local bakery, and her Abuela (grandmother). Her Tio (uncle) Javier lives nearby and there are lots of children and adults from several different cultures in the apartment complex and neighborhood where she lives. Nina's best friend is Star, a stuffed starfish pillow character brought to life by Nina's imagination. Each episode features Nina taking on a challenge, solving a problem, or finding a way to help others. She is very confident about her abilities, which sometimes gets her into trouble. However, with encouragement and chiding from Abuela, Nina learns about how to plan her "work," take responsibility for her actions, and correct her mistakes.

Ruff-Ruff, Tweet and Dave (RRTD) is an animated show that puts an emphasis on logical thinking and use of language through fun problem-solving adventures. The trio, **RRTD**, is guided by Hatty, an erudite hamster who wears a hat full of questions. The three characters agree that they would like to take a particular adventure and rev up their Roly-pods, enter the Spin-Again transport vehicle, and arrive at their destination. Once there, Hatty challenges them to make decisions and choose options that will lead to success or failure with their quest. Once their mission is complete, they review their effort, assemble the Roly-Pods and head home. Their adventures are varied. They might go climb a mountain, design their own fairy tale, or build a sand castle.

Astroblast, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. Five animal characters and one three-eyed octopus of unknown derivation populate the station. Each episode begins with an everyday conversation or incident that grows into a predicament needing a solution. While these predicaments take place in a fantasy environment, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you, practice good habits, clean up when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes.

The Chica Show features a five-year-old "baby" chick that spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit, and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure—a fantasy transformation to animation—where Bunji and Stitches come alive and join Chica and Kelly for the problem-solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Noodle and Doodle, an instructional series, features creative expression through art and cooking projects around a specific theme. Host, Sean, drives around in a double-decker bus fully equipped with art supplies and a kitchen, ready for any assignment. The projects encourage parent engagement and often feature families working together to make something to display within the child's home. Sean's sidekick, Doggity, is an ever-faithful beagle who transforms into an animated character during interstitial trips to a parallel universe, set in a kitchen full of prank-playing animated characters. The art projects typically promote utilizing recycled materials in order to demonstrate that creativity can transform something intended for one purpose into something that achieves a completely different goal.

3rd QUARTER 2016 EDUCATIONAL OBJECTIVES

There is one new show for the 3rd quarter. **Terrific Trucks**, will enter the schedule on July 9, 2016, replacing **Astroblast**. This new show will remain on the schedule until the end of the 3rd quarter, September 24, 2016.

Terrific Trucks is a live-action series that follows the exploits of five self-driving, heavy-duty construction trucks. They include Tork, the dump truck, Stotz, the flatbed, Dug, the digger, Blinker, the mini-digger, and Sparky, the front-end loader. The trucks reside in a fully equipped truck yard/rock quarry and work as a team on various building projects that require planning, collaboration and implementation. Each truck brings specific skills to the group. They get challenging job assignments from Mr. Bill Board, a digital outdoor screen that outlines and diagrams the problem to be solved. By allocating the role and duties each truck will perform during the project, the group merges those unique skills to fulfill their respective assignments. Unexpected problems that could compromise their success-- such as the weather, broken truck parts, or personal conflicts between the trucks--- are addressed and overcome so the job can be completed.

2nd QUARTER 2016 SHOW SUMMARIES

Floogals provides a unique visual experience where computer generated animated space aliens are juxtaposed against a real-world background that perplexes them and sets them off on exploratory adventures. Their goal is to learn everything they can about this “hooman” world. They take daring adventures to gather facts while hoping to avoid detection by the hoomans. Led by Captain Fleeker, the research team consists of an astronaut Floogal, Flo and a junior Floogal, Boomer. Together they discover that the mundane (ice cubes and umbrellas for example) is the basis for transformative experiences that help us all better understand the world they (and we) inhabit.

Nina’s World is a childhood adventure series, which re-imagines a childhood for the character Nina, host of the Sprout Good Night Show. Nina is a six-year-old Latina living in San Antonio Texas. She is exposed to adults and children from many cultures that live in her immediate neighborhood and in the mixed-use housing complex, where her parents own a bakery downstairs from their apartment. Nina has frequent adventures with her friends, her parents, and other grown-ups in her neighborhood. She is curious and determined to over-reach her abilities in pursuit of her goals. Nina models resilience as there is not a day where she doesn’t reflect on her encounters with good-natured common sense and an ability to rebound after her mistakes.

Ruff-Ruff, Tweet and Dave (RRTD) is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff-Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave, the Panda, has a thing for bananas. **RRTD** might go to the beach, or the mountains, or to strange lands with pillows everywhere, just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. Their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey.

Astroblast is the space station and home of six animal characters in Bob Kolar’s book series of the same name. An over-confident and exuberant commander, Comet the dog, manages the space station. The crew includes, Sputnik the pig, a very knowledgeable reader; Halley the rabbit, an athlete and Comet’s true peer; Radar, the monkey, who is somewhat self-involved; Jet, a silent alligator whose gestures and expressions

are his mode of communication; and Sal, a congenial three-eyed octopus who runs the counter in the space station café, the Smoothie Shack. While the space station supports the missions of a bizarre and diverse array of aliens, the Smoothie Shack is the hub of social interaction for the galaxy. There is always something happening at Astroblast and everyone on the crew has plenty to learn to keep the community happy and on an even keel.

The Chica Show features a five-year-old “baby” chick that spends her days with her parents in their costume shop, the Coop. The shop’s one employee, Kelly, doubles as Chica’s nanny and the ensemble is rounded out with Bunji, a large floppy-eared rabbit, and Stitches, a straw mannequin that sits in the window. Chica’s parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji, and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

Noodle and Doodle is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. Sean drives a double-decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or a food experience. Sean is accompanied by Noodle, a puppet character, Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art and problem solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.

3rd QUARTER 2016 SHOW SUMMARIES

There is one new show for the 3rd quarter. **Terrific Trucks**, will enter the schedule on July 9, 2016, replacing **Astroblast**. This show will remain on the schedule until the end of the 3rd quarter, September 24, 2016.

Terrific Trucks is based on the idea that every big truck and earth moving vehicle has a real life and a very unique personality that fits the specific type of work they do. In this live-action series, actual big trucks are personified and live in their quarry ready to hit the road to complete all kinds of earth moving, heavy lifting, car crushing, and big maneuvering projects that are sent to their messenger, Mr. Bill Board, a huge digital sign that receives electronically delivered job requests for the team. Bill Board calls the team to assemble as he describes the work. Tork (an earnest dump truck and team leader) organizes the project and gives assignments to the team members. They are Sparky (an amiable front-end loader), Dug (a diligent and indispensable excavator for almost all the jobs), Stotz (an immaculate and vain 18-wheeler semi hauler), and Blinker (the youngest and playful mini front end loader). Invariably they have challenges and risks to manage with each job, but they get resolved with team efforts and mutual respect. Nonetheless, the best part of the day is coming home to the yard satisfied with what they have accomplished, and ready for a nice warm truck wash before they go in formation and sleep for the night.

FLOOGALS

PROJECT BUBBLE [EFGL105DH]

When Mom Hooman returns from the store with tuna sandwiches and bubbles, the Floogals question what “bubbles” are. They find a bottle of bubbles on the counter, open it, and realize that they need a wand in order to make the bubbles. They experiment with the dry wand and try to make it form bubbles, to no avail. Then, when the Hoomans come back into the room, the Floogals observe Girl Hooman dipping the wand into the bubble bottle. Also, by observing the bubbles in the sink, they conclude that soapy water is needed to make bubbles and that this “shiny water” must be in the bubble bottle that Girl Hooman dipped her wand into. The Floogals work together to dip the wand into the soapy sink water and discover that blowing into the wand makes the bubbles. They observe that the bubble has colors in it, that it floats, and smells like soap.

[Educational Message: A bubble is a thin film of soapy water filled with air. You can make bubbles by dipping the wand in soapy water and blowing into it.]

PROJECT BABY [EFLG105DH]

The hoomans are cleaning up in preparation for a baby to visit, which leads the Floogals to wonder what a baby is. Fleeker hypothesizes that the creature is a pet, as it appears to be in a cage (playpen) like a hamster, but Flo disagrees because it does not have fur. When they get closer, they observe that the baby’s skin is similar to that of the hoomans, but that it is smaller than the hoomans and wears different clothes. Then, after a few experiments, they learn that a “baby” is a smaller, newer hooman that will grow to be a regular-sized hooman. They also notice that the bigger hoomans take care of the smaller hooman and that it cries when it needs something.

[Educational Message: Humans start out as babies and they grow until they become full-sized humans; they grow most in their early years. Once they learn to walk, they are called toddlers and they cry to communicate when they need something from the human who cares for them.]

NINA’S WORLD

NINA THE NURSE [ENNW102DH]

When Nina discovers Abuelita is not feeling well, she tells her she can be her nurse. Thinking she knows all the things a sick person needs to feel better, Nina opens the curtains and doors for sunshine and fresh air. This is not at all what Abuelita wants. When her mother comes in and finds Nina shouting to her friends outside in an attempt to quiet them down, she tells Nina that the best way for her to help would be for her to go out and play. Sad and discouraged that she could not help Abuelita, she figures out while playing with Star, that although she did everything she’d want to have done for her, she never found out what would make Abuelita feel better. After asking Abuelita how she can help her, Nina gets her mother’s assistance to

make “Get Well Orange Juice” for Abuelita with mint and lemon. She also makes her a beautiful Get Well card.

[Educational Message: When you want to help someone, whether because of illness or something else, it is best to ask them how they want to be helped. Then you can do the very thing that will be of the most value to them.]

SUPER NINA [ENNW102DH]

Nina wants to be a superhero. Carlos comes to play and she encourages him to play a superhero. Carlos (Kid Carlos) is super-fast. Abuelita helps Super Nina and Kid Carlos make costumes. The kids attempt to assist Tio Javier with his new Djembe drum, which he got on his trip to South Africa. Abuelita catches up with the “superheroes” just as they run smack into Mrs. Goldstein, causing her to fall. After helping Mrs. Goldstein, Abuelita admonishes them about running on the sidewalk. When Mrs. Goldstein tells Nina how helpful it was for her to hold the door for her, Super Nina and Kid Carlos figure out that instead of being superheroes, which got them into super trouble, maybe being super helpers would be a better idea. They find a number of ways to help Nina’s Papi and Mami and even get to help their friend Chelsea when she needs a band-aid.

[Educational Message: You needn’t be a superhero, being a super helper can be more helpful than you might imagine.]

RUFF-RUFF, TWEET, AND DAVE

A TRAVELING ADVENTURE [ERTDR114DH]

After traveling in their Roly-pods on the Spin-Again, Ruff-Ruff, Tweet and Dave encounter several acquaintances attempting to get somewhere. They determine that they’ll need to travel by airplane to get Ms. Rabbit to her friends over the hills and trees. They also figure out that a boat will be required to float on the river so Mr. Squirrel can get to the acorns on the other side. When they see Speedy Sheep trying to get big bundles of hay to the sheep field, they can see that to move the hay, a train would be best.

[Educational Message: Different terrain requires different modes of travel. We need boats to float on water, airplanes to get up and over obstacles, and trains to carry big, heavy loads.]

A HOME SWEET HOME ADVENTURE [ERTDR114DH]

Ruff-Ruff, Tweet and Dave each think that the place they live is the best home in the world. They travel on the Spin-Again in their Roly-pods on a Home Sweet Home Adventure. They discover the sheep are at home in the field because there’s grass for them to eat. The bluebird is at home in her nest because it’s a great place for her to lay her eggs. When they encounter Mrs. Cow who is lost, they offer to take her home, but first have to determine what the best place is for her. They figure out that a grassy field where there is lots of grass for her to eat is a great Home Sweet Home for Mrs. Cow. Before they head back to their Roly-pods, they take Mr. Rabbit to his home in the woods where there are lots of berries for him to eat.

[Educational Message: All animal species make their homes in conditions that best suit them. The ready availability of food, shelter and water are important elements in determining the best environment for each animal.]

Though she is reminded frequently to put the pirate hat where it belongs, Chica misplaces it. When Billy returns to get five more hats, Kelly finds she is missing one hat from the order. After the store closes Chica and Kelly go on their fantasy adventure to an island where they meet pirate Captain Stitches. Kelly reminds them that they wouldn't have to go through so much trouble to find things if they put them where they belong, but if they can't find it they should retrace their steps. Chica finally remembers she dropped the hat next to Bunji's cage. As they close the store, Kelly packs the hat to take to Billy's birthday party.

[Educational Message: You should always put things back where they belong so they do not get lost. If not, you will have to retrace your steps to remember where you left it.]

THE AMAZING CHICADINI [ETCSR101DH]

The Chica Shows talent for becoming a magician, but she gets so nervous and frightened during rehearsals for her magic show that she cannot perform at all. They segue to Chica's magic trick to make Stitches disappear and it fails too. Kelly tells her to just have confidence and believe in herself. Chica tries again and Stitches disappears. Then, she makes him reappear. The audience is very pleased.

[Educational Message: It takes practice and belief in yourself to overcome being nervous.]

Ben, Ryan and Kayla try to play together on a windy day. They brainstorm projects to accommodate the windy weather. Sean and Noodle make Tuna Toastie Kites by recycling the bread bag for the craft project. Meanwhile, the kids collect sticks and leaves and join Sean to make kites using the recycled products, items from nature, and contact paper. The kids take their kites to the park along with their Tuna Toasties and make the most of the windy day.

They also recycle the lids of the non-stick spray to make a leaf wreath, using the new crayons for leaf rubbings. The kids hang up the wreath and take the new crayons to finish their artwork.

FLOOGALS

PROJECT FLASHLIGHT [EFGL106DH]

Boomer's tummy rumbles are keeping the Floogals from falling asleep, so they decide to get him a late night snack. On their way to the kitchen, they notice a light on in Girl Hooman's room. They observe that it is coming from under the covers and, when Mom Hooman takes the "mysterious metal tube" out from under the covers, they wonder what it is and what its purpose is. The Floogals take note of the object's tube-like shape and its shiny, silver color. Flo hypothesizes that the "silver tube," the book and the light under the covers are somehow connected. When they get closer, they collect data on the object's shape and the fact that it has a light bulb and a button. They also observe that its light generates shadows and heat. When their scientific investigation is over, Boomer is finally able to get a snack from the fridge.

[Educational Message: Flashlights are lights that can be carried around and pointed in any direction. Their light generates heat as well as shadows if an object is between the flashlight and the wall.]

PROJECT RECORD PLAYER [EFGL106DH]

Boomer is listening to some music via headphones and an MP3 player. When Boy Hooman comes into the room, the Floogals escape through the laundry chute. In the laundry room, they observe a curious box that opens and has a number of controls inside. They overhear Dad Hooman call this object a "record player," which leads Flo to conclude, based on her measurements, that the grooved, black disks are the "records" that go on the turntable inside the box. They discover that the needle plays the sounds stored in the grooves on the black disk and the knobs on the bottom of the box. The Floogals have fun playing the music on the records.

[Educational Message: A record player is a way to listen to music which works by spinning black disks (records) that have music stored in its grooves. When the needle touches the grooves, music can be heard.]

NINA RIDES A BIKE [ENNW111DH]

Nina has new purple streamers for her bicycle and is excited to go riding. Everyone is busy and though she's not allowed to ride alone, she does so anyway. She wants to see her new streamers "fly" so she rides very fast. She almost collides with Max, the Dog, and swerving to avoid Abuelita, she rides over some flowers, crashes into a tree, and skins her knee. When Abuelita reminds her she's not supposed to ride alone, Nina declares she'll never ride her bike again. In order to help Nina get over her accident, Abuelita enlists the help of Carlos and Chelsea by setting up a bike school. Nina aces the tests they devise.

[Educational Message: When you don't know how to do something, you should learn how instead of doing it alone; you could really hurt yourself.]

NINA TAKES THE CAKE [ENNW111DH]

Nina and Abuelita discover Mami has hurt herself. She is very concerned about her important deliveries; Eddie's birthday cake and Mrs. Goldstein's cake for her daughter's baby shower. They arrange the cakes in delivery order with Eddie's on top. When Abuelita goes inside to get her hat, Nina, although she's been told not to, takes out the cakes to show Carlos, putting them back in the wrong order. Star admonishes Nina about not telling Abuelita about letting Carlos see the cakes. Nina says she hasn't really lied, she just hasn't told Abuelita everything. The switch isn't discovered until Mrs. Goldstein looks at her cake, after Eddie's has been delivered. When Abuelita takes the blame for mixing up the cakes, Nina decides to confess her transgression. Abuelita forgives her and they scurry off to correct the mistake. That evening Mami tells Nina that not speaking up when you've done something wrong is the same as telling a lie. Nina promises that she'll never let it happen again.

A TRAIN ADVENTURE [ERTDR115DH]

The friends head off on an adventure where they learn a lot about train travel. By correctly answering a question, Ruff-Ruff is chosen to be the Engineer to drive the train. Tweet gets to be the Ticket Inspector and assures that everyone has the needed ticket to ride. Hatty serves as the Conductor, who says, "All aboard!" and closes the doors once everyone is safely aboard. He also announces which station will be coming up next.

When they stop for Mr. Duck, they make sure he has a ticket and put his package in the special car for packages at the back of the train. A train makes many stops to pick up passengers and let them off when they get where they're going.

[Educational Message: It takes a number of people with different jobs to operate a train so people can get where they are going safely. Riding the train is lots of fun.]

A SAILING ADVENTURE [ERTDR115DH]

When Dave's boat floats down the stream away from them, the friends decide to build more boats and have a competition. Through observing phenomena around them they discover that sticks float, while bones and rocks do not; and sails need to be made of something lightweight and wide enough to catch the wind.

Tweet's boat, made of sticks and a piece of her hanky, turns out to be the best.

[Educational Message: You need a material that floats to build the perfect boat. For a sailboat, you'll need fabric for a sail to catch the wind. Wind makes a sailboat go; the stronger the wind, the faster the boat will move.]

HOW DO YOU GET TO THE CARNEGIE NEBULA? [EATBR115DH]

When Comet and his friends are all playing their instruments, Comet plays his clarinet badly. His friends emphasize the importance of practicing his instrument in order to improve. When the friends begin rehearsing for a concert, it is clear Comet has not been practicing. He is distracted by a new basketball game. He's quite good at the game because he's been focusing on it and practicing a lot. When it's time for the concert, Comet is not able to participate because he did not practice his clarinet. All is not lost, however, as his friends like the sound of the basketball game. Comet "plays" the basketball game in the concert.

[Educational Message: When you aren't good at something, you should practice to improve your skill.]

SOMETHING BORROWED, SOMEONE BLUE [EATBR115DH]

Comet gets a new space pod and is obsessed with taking good care of it. He tells all of his friends that they are welcome to borrow it, as long as they follow his many rules for keeping it clean and functioning properly. Despite the fact that his friends try their best to follow his rules, he is disappointed that they don't maintain the space pod exactly as he would. His friends tell him that all of the rules dissuade them from wanting to borrow the space pod. Then, Comet realizes that just because his friends don't do everything just the way he does, they still respect and try their best to take care of his new space pod.

[Educational Message: When your friends borrow an item of yours, it is okay that they do not take care of it exactly the way you do, as long as they respect it.]

Chica wants to play an instrument too, but she is frustrated because it takes practice just to learn the beat. During the fantasy segment, Chica and Kelly are on a concert stage with Stitches. Bunji, the band manager, offers to help them if they practice. Together they work on their piano, guitar, and percussion skills until their performance is really great. When they come to the bus for the project they bring used plant containers, the yogurt container, aluminum foil, and plastic bags to make scary scarecrows. FLOOGALS

PROJECT GARDEN HOSE [EFGL107DH]

Fleeker, Boomer and Flo are in the garden. They see a super-long tube that winds all around the garden and seems to go on forever. They rule out the possibility of this object being a plant, a sleeping snake, or a giant dog leash. Flo observes that it is not alive and that it is hollow. They overhear Dad Hooman call this object a “garden hose.” Flo and Fleeker encounter the water faucet and observe that the hose carries water throughout the garden. Boomer concludes that the purpose of water in the garden is to water the plants and to wash dirty items.

[Educational Message: A garden hose is a long, hollow, flexible tube kept in the garden that carries water. One end is attached to a water source and the water comes out of the other end. It is used to water plants, to fill up small pools, and other helpful things around the garden.]

PROJECT BOXES [EFGL107DH]

The Floogals are hiding from Scruffy the dog by the front door when Mom Hooman gets a few packages from the deliveryman. The Floogals wonder what these curious brown cubes are and decide to make it their project for the day. Upon closer examination, Flo observes that the boxes are all made of a hard paper material. While they are trying to find out more, they accidentally get stuck to the tape at the top of the box. While stuck, they observe the objects that came in the box and Flo concludes that when hoomans buy

things, they come in boxes. Boy and Girl Hooman use one of the leftover boxes as a make-believe space station.

NINA'S WORLD

NINA WANTS TO GROW [ENNW104DH]

Nina despairs of ever growing taller. When she goes out to play, she sees Carlos who tells her how much better he's gotten at basketball since he's been practicing. Nina thinks that she could "practice" being tall and tries hanging by her arms from a tree. This, of course, doesn't work. She thinks veggies will help her grow, and eats lots and lots of broccoli at lunch. This strategy doesn't work either, as she's the same height after lunch as she was before. Now Nina's really discouraged. When she goes back outside, Carlos, Chelsea, and Tio Javier are trying to retrieve a basketball stuck a narrow opening underneath a structure. Even though none of them can reach it, Nina is small enough to squeeze in and get the ball. She discovers that there are advantages to being just her size. Then Tio Javier lifts her in the air so she can dunk the basketball.

[Educational Message: It's good to have a positive view of your size. Each size comes with its advantages and even being small can turn out to be just right for a task that a taller person could not complete.]

NINA TAKES THE STAGE [ENNW104DH]

Nina, Chelsea and Carlos notice interesting things at the Everything Store. Mrs. Lin tells them about traditional clothing and puppets from China. With the Monkey King puppet, she acts out an old Chinese folk tale. Nina wants to put on a show of her own for the whole neighborhood and she decides to be the Director. She enlists Carlos as the old monk and Chelsea as the puppet master performing the part of the Monkey King. Just before the curtain goes up, Chelsea wants to quit because of problems manipulating the puppet and Carlos gets stage fright. Nina learns that in order to meet certain directorial challenges, she has to be flexible as well as willing to modify some of her ideas and improvise. She decides to have Carlos and Chelsea switch roles, which makes them both a lot more comfortable. The performance goes off without a further hitch.

[Educational Message: When serving as the leader, it's very important to know when and how to be flexible and adapt to make changes so that everyone is comfortable and able to do his or her best.]

A REMEMBERING ADVENTURE [ERTDR116DH]

We all forget things sometimes. In this interactive episode, viewers are tasked with remembering certain things about getting into and out of a maze. Ruff-Ruff, Tweet and Dave learn that sometimes singing a song can help you remember, as does drawing or writing something down. The friends also learn that movements can help you remember something important. In this way, they find their way to the middle of the maze and out again.

[Educational Message: We all forget things sometimes. You can remember things more easily by singing a song, drawing a picture, writing something down, or doing a fun dance.]

A SPOT THE DIFFERENCE ADVENTURE [ERTDR116DH]

When Dave cannot think of anything special that distinguishes him from Ruff-Ruff and Tweet, the friends go on an adventure to see if that will help him find something that makes him different. They practice playing spot the difference first by focusing on color, then shape and size. They also look closely and check the item to see what might be missing. Dave decides that rather than worry about what makes them different, he'd rather think about what makes them the same: the fact that they're all best friends.

WHO LET THE STUFFIE OUT? [EATBR116DH]

Upon returning from a trip, Halley tries to help Comet with his suitcase. They both refuse to let go of it and its contents are spilled all over the floor, revealing a cute and cuddly stuffed animal. Comet is embarrassed because he believes everyone will think stuffed animals are only for babies. Comet tries to convince his friends and himself, that his stuffed animal is tough and mature. Finally, Comet puts his stuffed animal in a box outside his bedroom and it accidentally gets recycled. It is then that he realizes how much he loves his stuffed animal and goes to find it. When he returns, it becomes clear that no one thought that stuffed animals were for babies.

[Educational Message: It is okay to be attached to an item you got when you were younger; having such items doesn't mean you are immature or a "baby." Also, good friends won't make fun of you for having "special little things."]

GAMGAM KNOWS BEST [EATBR116DH]

Sal's grandmother, GamGam, is coming to visit the space station and everyone is excited because Sal always talks about her. When she finally arrives, everyone is surprised by how old she is. While taking her on a tour of the space station, they continually underestimate her abilities. When she accidentally knocks over big, heavy boxes in the storeroom, Comet and Jet strongly suggest that she relax on a plush chair instead of helping them clean up the boxes. After watching as the Astroblast team fails to lift the boxes, she performs a series of clever maneuvers to put the boxes away. It becomes clear that, just because GamGam is old, doesn't mean she can't get the job done!

On their fantasy adventure, they go to a ranch where Chica is the boss and suspends all the rules. Soon there are lots of problems; Stitch and

Bunji fall off a fence they've climbed, and the noise Chica and friends make sends horses bolting from the barn. When they return to the Coop, Chica resolves to follow the rules.

Mom and Dad then decide they need to figure out a way to better manage inventory. Chica makes signs that illustrate the types of costumes. However, she doesn't want to wash to get off the glue and other decorations that got stuck in her feathers. During the fantasy adventure, Kelly and Chica are outside in a prehistoric forest and get really dirty with mud. After bathing in a pond, the group plays again when they are clean and realize it feels pretty good to not be messy and dirty.

PROJECT CLOCK [EFGL108DH]

The Floogals observe that when Mom Hooman looks at a large circle on the wall, it causes the Hoomans to speed up. Flo questions why this happens and they decide to explore the purpose of the ticking clock hands. They get closer and examine the characteristics of the clock. In the process of this, Boomer accidentally moves the hour hand from 8 to 7. Flo realizes that this is a problem after concluding that clocks tell the

Hoomans what time it is and that the broken clock could cause the Hoomans to be late to the school carnival. They fix the clock and the Hoomans leave for the carnival on time.

[Educational Message: Clocks show the hours in a day and indicate what time it is so you can do all the important things you need to do. You shouldn't tamper with the hands on the clock, as this could cause confusion.]

PROJECT ROLLER SKATES [EFGL108DH]

Flo has lost her goggles and the Floogals are trying to find them. They come across an object with a funny shape and four wheels on its side. They decide to make it their project for the day. They collect data on its physical characteristics: one part of the object is hard and one part is soft, it has strings, and it has four wheels that make the same sound when they spin. Fleeker hypothesizes that it is a small car and Boomer observes that the top part looks and smells like a shoe. After hearing Mom and Boy Hooman refer to the objects as "roller skates", they conclude that they are boots with wheels that are faster than walking.

[Educational Message: Roller skates are boots with wheels on the bottom of them; wheels enable you to get places much faster. You can steer your roller skates by leaning.]

NINA'S SHOW AND TELL [ENNW105DH]

Nina wants to take Abuelita's camera to school for Show and Tell. When Nina and Abuelita go walking, Nina spots a flower growing out of a crack in the sidewalk. That particular flower, Abuelita explains, is a morning glory that only blooms briefly and lives for only one day. While Nina waits for the morning glory to bloom, she waters it, builds a fence to protect it and decorates the fence. She leaves Carlos to protect it. When she returns she discovers that it has already blossomed. Although disappointed, she takes pictures of the flower anyway and is delighted to learn that there are many more morning glories growing around her neighborhood. Nina makes a book with all her morning glory pictures and Mami tells her that she's a blossoming photographer.

[Educational Message: Taking a photo is a great way to preserve a fleeting moment or a special memory. Flowers need sun, water and time to grow, even though some flowers may last for only a few hours.]

NINA'S SNOW DAY [ENNW105DH]

Nina and Abuelita discover that Chelsea is homesick for the place she used to live; she misses her friends and the games they played in the snow: sled riding, ice skating and making snowmen. Texas is hot and even in the winter, it doesn't get cold enough to snow. In order to cheer her up, Nina proposes they have a pretend Snow Day. Chelsea is skeptical, but when Abuelita and Nina enlist her help to make a wish list for their Snow Day she agrees. They make snowflakes out of paper, use their roller skates for ice skating, and blow bubbles to create a sense of falling snow. Papi helps them bring it all to life and the entire neighborhood joins in the fun. Chelsea is happy and says how much she enjoys her new best friends.

[Educational Message: It's good to use your imagination to find ways to cheer up a gloomy friend. Though it may not snow where you live, you can find things around your house to change the environment enough to create a sense of snow and fun snow activities.]

Hatty agrees they should get into their Roly-pods and fly away in the Spin-Again to find the perfect game. On this adventure, they learn which balls are good for bowling and for playing soccer. They also learn the proper way to use different balls. Dave then proposes a game where you can do all the things you can do with a ball and Ruff-Ruff's favorite squeaky ball in particular. They roll it, bounce it, kick it and catch it. And since it is squeaky they also make noise with it!

[Educational Message: In order to play a particular game you need to have the right equipment and learn how to use it in the proper way. In most games it's important to keep your eye on the ball.]

A MINI GOLF ADVENTURE [ERTD117DH]

Ruff-Ruff has a golf ball and the friends don't know what it is or how to use it. On their adventure, they discover that mini-golf is played in a place that has castles, slopes, sand pits, and other decorations and obstacles. Also, just like regular golf, you use a stick called a club to hit the ball. The rules include taking turns and making sure no one is in the way as you try to get your ball in the little hole. They also learned that it takes lots of practice to get really good at any game you play.

After a customer comes to the shop for a firefighter costume, Kelly reminds everyone how lucky they are to have firefighters, police, and other safety officers around to keep them safe. Mom points out that there are many ways to be personally safe, such as “looking where you are going, so you don’t bump into other people or objects that might hurt you.” This leads Chica and Kelly to an adventure on a fire truck. They report to an accident and find out that Bunji wasn’t looking where he was going, fell off his tricycle, then got catapulted into a bush where no one could find him. When Chica finds him, Bunji says he will always watch where he is going.

[Educational Message: The first rule of being safe is always to watch where you are going so you don’t bump into anything or anyone.]

CHICA AND THE VIKINGS [ETCSR104DH]

She sees two large curved carrots that she could use as decorative horns for her helmet and with glue from Kelly, completes her project. However, in the process of rushing around, Chica isn’t considerate of others; she bumps her father in the head and pushes him out of the way while digging for supplies. Her Dad reminds her to be courteous. He also reminds her to feed Bunji before leaving at the end of the day. Chica realizes she has a problem because the carrots she used were meant for Bunji’s dinner. While on a fantasy adventure with Kelly, she meets two rude and obnoxious Vikings and convinces them to have better manners.

When both projects are complete, the kids take the bouquet and ice cream home to make their older sister’s birthday very special. In Doggity’s segment, the crew makes peanut butter energy cookies to fuel some energetic cheerleaders.

PROJECT SEEDS [EFGL109DH]

Fleeker, Boomer and Flo are observing the Hoomans in the garden. They overhear Mom Hooman say that the beautiful flowers in the garden come from a seed packet. When they get closer, they notice that there are tiny seeds the packet. The Floogals hypothesize different ways that this tiny seed could become a big, beautiful flower. They wonder if it is a bit of a flower, which they rule out. They see more of these seed packets stuck in the dirt and Flo correctly hypothesizes that these seeds need to be in the dirt to become flowers. They plant the seeds, water them and observe that they need sunlight to grow. They also observe that it takes time for seeds to grow into flowers and that seeds come from the flowers.

[Educational Message: Flowers come from tiny seeds of varying shapes. Once a flower grows, it produces its own seeds that are then planted in the soil so more flowers grow.]

PROJECT RUBBER BAND [EFGL109DH]

When Mom Hooman comes into Boy Hooman's room to get something called a "rubber band," the Floogals get a closer look to find out more. Flo hypothesizes that they are earrings and bracelets, which they rule out quickly. When the rubber band flings all around Boomer, they observe that it got really stretched out. Fleeker takes the rubber band ball apart to see if they were hiding something; the Floogals conclude that the ball must be a storage method for the rubber bands. They all head to the kitchen and observe that Mom Hooman put her rubber band around some pencils and Girl Hooman put one in her doll's hair. Finally, when the Floogals are stuck together by a rubber band, Flo concludes rubber bands stretch over things to keep them together.

As they fight over the kite string, the kite comes crashing to the ground, and they're sure it can't be fixed. Abuelita encourages them not to give up. They go to the Everything Store to ask Skye to help them make another. In gathering the needed supplies, Nina finds stickers that look like dragon scales. Carlos finds "antennas" for the butterfly kite. The kids decide to combine their ideas and make a dragonfly kite instead. They work cooperatively and have a great day sharing the flight duties as The Extreme Dragonfly Team.

They all want to make different musical sounds and learn that string instruments can be touched, strummed with your fingers or played with a stick called a bow. Percussion instruments, like drums, are played with sticks. Other instruments, such as horns, have an opening on each end. You blow into one end to make a sound and covering the holes on the side of the horn can change the sound it makes.

[Educational Message: Some instruments have strings you can strum or play with a bow, like a guitar and some, like drums, you hit with sticks. There are others, like trumpets and whistles, that you blow and change the sound by covering the holes found on the side of the instrument.]

A DRAWING ADVENTURE [ERTD118DH]

Hatty shows Ruff-Ruff, Tweet and Dave a drawing he did of his Bubble Copter. The friends, although they all now want to draw, are a little hesitant because they're not sure they know how. They go on an adventure to Hatty's garden where there are many different colors and shapes for drawing. While drawing first a flower, then a butterfly and then each other, they learn it's important to look carefully and notice special things, like the shapes and colors of things, in order to draw them.

She narrows her choices and Kelly and Chica depart with Stitches as the pilot. They meet Lunar (Bunji), commander of the Moon and play ball. Lunar shows Chica how she can still see "home" from the moon and that is why travel is important. You can learn to see things differently. They play a few games together and head home for more fun.

[Educational Message: If traveling far from home, enjoy the adventure of being in new places and you can take something familiar with you if it helps to keep you happy when you are away.]

CHICA THE ARTIST [ETCSR105DH]

A father and son come into the store and want an artist's costume. When the father shows his son's beautiful painting, Chica is prompted to share her picture of a cow. Kelly doesn't realize it's a cow, nor does she lavish as much attention on Chica's picture, which makes Chica feel less confident about her work. On their fantasy adventure, Chica, Kelly, Stitches, and Bunji go to a museum where Stitches and Bunji pose for Chica next to a bowl of fruit and vegetables for a painting. Kelly (as Lavender Lilac) is a patron who delights in Chica's work and purchases her artwork. When they return to the store, Chica is confident enough to give Kelly a drawing of Bunji. Kelly notices something special; Chica's unique signature of polka dots.

FLOOGALS

PROJECT MIRROR [EFGL110DH]

The Floogals are having an adventure in the bathroom when they notice other Floogals in the bathroom. When Fleeker tries to talk to them, he is offended that one of them is copying everything he does. The Floogals hypothesize that these are clones of Floogals, as real Floogals would not be that rude. They are interrupted when Mom Hooman comes in and starts her bath. She drops her compact mirror through which Flo can see Girl Hooman's room, even though they are in the bathroom. She observes that it is hard like glass and she questions how she can see Mom Hooman. The Floogals conclude that it isn't clones they are seeing, it is their reflection on the painted glass surface.

[Educational Message: A mirror is a piece of glass that is flat and shiny and shows you what is in front of it. The reflective surface is a result of the silver paint on the back of the glass and the mirror fogs up in the bathroom due to the steam from a hot bath or shower.]

PROJECT BANANA [EFGL110DH]

The Floogals overhear Mom Hooman say that bananas are a great source of energy and they wonder if they could use the bananas to power one of their machines. They decide to find out how this energy source works. The Floogals hypothesize that the bananas are batteries or rocket packs but, while trying to transport the bananas upstairs, Boomer overhears Girl Hooman say that the bananas are a fruit. Boomer tastes the banana and observes that it is soft, sweet and delicious. He also found that the banana peel is quite slippery. He is excited to share his findings with the other Floogals. They all enjoy eating the delicious banana.

Nina, Chelsea and Carlos don't know how they can play with no lights or electronic games. Encouraged by Abuelita, the kids play imaginative games in the dark. Discovering what fun it can be, they decide to have a blackout party. With Papi's help, they organize a party in the courtyard with all the neighbors, who play musical instruments and have fun by candlelight. They notice that in the absence of city lights, the stars in the sky are more clearly visible. Abuelita comments on how they turned a crazy day into something special. The power comes back on just as Mami and Papi are tucking Nina in for the night.

Carlos el Magnifico opts to join the competition. When Nina's trick goes awry, Chelsea offers to help. That surprises Nina because she thought competitors wouldn't be willing to help each other. AN APPLE TREE ADVENTURE [ERTD119DH]

Hatty tells Ruff-Ruff, Tweet and Dave that apples are delicious and lets Dave know, although it's a good thing that he eats lots of bananas, it's good to eat different kinds of fruit, as well. On their adventure, the friends learn that apples grow on trees and have seeds in the middle, called pips. Pips are scattered by birds that fly off with them. New apple trees grow from these pips when they get lots of sunshine, rain and the food they get from the ground. It takes a long time for this process to reach fruition. They also learn you must always ask before you eat apples that have fallen from the trees. Apples that have been on the ground too long are not good to eat.

[Educational Message: There is a lot to learn about apples; they grow on trees and have seeds inside. Apples are delicious to eat and nutritious too.]

A BIRDY ADVENTURE [ERTD119DH]

On their adventure to Hatty's garden, the first thing Tweet notices is how beautiful it is. She says it smells so sweet and yummy and seems like the perfect place for her and other birds. Although the friends love the birds, and Dave wants to hug them, the birds fly away. Hatty tells them the birds don't feel safe on the ground so they find a bird table and search the garden for things the birds will like to eat and drink to put there. They seek and find some seeds and fruit, some nuts and water, and even a few bugs. They hide in a quiet place so the birds won't be frightened. Ruff-Ruff, Tweet and Dave have fun watching the birds eat and drink.

[Educational Message: Setting out fruits, nuts, water and seeds will invite birds into your garden. They don't feel safe on the ground and are easily frightened. Find a place up high to offer your treats and be very quiet so you don't scare them away.]

Later, after a little boy comes to the shop for a baseball costume, Chica dresses up like a ball player and she and Kelly attempt a game of catch. Chica is unable to catch the ball and feels like giving up because she is not the best, despite Kelly urging her to practice. On their fantasy adventure, Chica takes a chance and tries three new games and is really good at just one. She realizes that fun is just as important as being a winner. When they return to the store, Chica is willing to give baseball a new try.

[Educational Message: You can have fun at games even if you don't win or perform the best. The most important thing is that you give games a try, do your best and have fun, win or lose.]

PROJECT TOOTHBRUSH [EFGL111DH]

Fleeker observes that the exact same sound comes out of the bathroom every morning and every night. They enter the bathroom and climb onto the sink to investigate further. The Floogals see four objects; two are tall and two are short. They notice that there are brushes on the ends that smell fresh and minty. They conclude that the toothpaste goes on the brush and the electric brush shakes back and forth in order to clean the hooman's teeth. Flo also notices that there is one brush for each member of the family and that the minty string on the sink is used to clean between the hooman's teeth.

[Educational Message: A toothbrush is a tool used with minty toothpaste to clean your teeth twice a day. Floss is a thread used to clean in between the teeth to keep them healthy.]

PROJECT GLUE [EFGL111DH]

Boy Hooman is making something and he is waiting for Mom Hooman to bring him something called "glue." When the Floogals accidentally spill the glue, Flo hypothesizes that the sticky, white substance is paint. But when Flo's drawing of Boomer disappears when it dries, and Flo and Fleeker stick to each other after falling in glue, they rethink this hypothesis. Boy Hooman comes in and the Floogals overhear that glue washes off with water. They use the glue to repair one of their tools and observe that glue needs a bit of time to get its stickiest. As Boy Hooman finishes his craft, the Floogals conclude that the glue isn't paint; it is used for its "sticky powers."

NINA AND PAPI PLAY BASEBALL [ENNW108DH]

Nina asks Abuelita to help her learn how to throw a baseball so she can throw as fast as Nico. Abuelita tells her about someone who was once "the most fearsome baseball pitcher in the county," La Bola de Fuego, The Fireball. When she brings out his picture, Nina discovers that it's her Papi. Papi teaches her that practicing anything you want to master is very important, and takes her out to teach her to pitch.

Interestingly, Papi has lost his magic; his pitches are not very powerful and his back begins to ache. Nina, remembering the lesson her Papi so recently taught her, devises some very imaginative ways to encourage Papi to practice. He, in turn, helps Nina learn to pitch.

[Educational Message: It's important to practice diligently in order to learn a new skill. It can be just as important to practice if it's something you haven't done in a while. Also, it's great to help a family member regain their confidence by playing a fun game.]

NINA THE SHADOW CHASER [ENNW108DH]

When Papi, Mami, and Abuelita head out to a concert, Nina convinces Skye, her babysitter, to let her watch a scary movie. It turns out to be too scary for both of them. Nina continues to be frightened after the movie has been turned off, so Skye suggests making Shadow Chaser masks. They search the house and courtyard wearing their masks and brandishing a flashlight, chasing away the shadows. At bedtime, Nina explains to Mami that sometimes things look scary in the dark.

Tweet says they should make noisemakers and Dave makes a really loud one. But when they test it, it's not loud enough to wake Dave from even a light sleep. Tweet then suggests a toe tickler might do the trick. They try that, but once again, it doesn't work. Since Dave always responds enthusiastically to bananas, Tweet suggests they make a Bring a Banana for Breakfast machine. This time, Ruff-Ruff invents the most effective device, and it works!

[Educational Message: If you need a service or product that doesn't exist, perhaps you can invent it. Once you have an idea and find a way to build it, you'll need to test it to make sure it works the way you intended.]

They use Hatty's wrench to fit them together to fix the fence. While fixing other broken things for the sheep, they figure out how to use a number of parts and tools that work for different purposes. They try all these things on Hatty's Bubble Copter until they figure out which parts and which tools are right ones for the job.

When the delivery vehicle breaks down, Bunji is too impatient to wait for Kelly to bring her tow truck to fix it. Bunji pushes a big box up a long hill just to see Stitches open it, but the package isn’t for Stitches. He pushes the big box back down the hill and waits for Kelly. On the fantasy adventure with Kelly, Chica finds herself as ringmaster to another circus. She enforces a roll call, and pronounces that “her” circus is great, but it needs to become “amazing.” Each performer must change their act. When Dad Hooman and Scruffy return from their walk, the Floogals get a closer look at the leash. Since they observed that the leash made Scruffy happy, they conduct an experiment to see if the leash has the same emotional effect on themselves, the cat and other random objects. They observe that the leash prevents Scruffy from going too far from Dad Hooman on their walk. Flo concludes that the leash makes Scruffy happy because, when someone picks it up, the dog knows that it is going on a walk.

[Educational Message: A leash attaches to a dog's collar using a clip and is used to keep the dog safe when it goes outside.]

Later, Abuelita intercepts Nina who is trying to throw her painting in the garbage. Abuelita convinces her to reevaluate her work. Carlos, Chelsea, and Papi really like it, each one discovering something different in it to admire. After hearing their observations, Nina takes another look and she too begins to see things she hadn't appreciated before. At bedtime, with the picture in a frame, Nina tells Papi she sees something different every time she looks at it.

Nina draws Vikram's picture on a "Lost" poster and Dr. Kapur makes copies, which they post all over town. They try lots of things, but can't catch him. Abuelita advises a frustrated Nina, "If something doesn't work this way or that way – maybe we need to think of a different way." Nina remembers Dr. Kapur had said Vikram would come if she sang. While helping Mrs. Chicken get safely across the road, they learn that crosswalks are places where pedestrians stop, look and listen to check and see if anything is coming before crossing the road.

[Educational Message: It is very important to pay attention to traffic signs and signals. They tell us when it's safe to go and warn of hazards ahead. When crossing the street you must stop to look and listen, checking to see if anything is coming. Then you'll know when it's safe to cross.]

On their adventure, while trying to find a good place for

Kelly notices that the shop is a mess because Chica and her father have not put things away as they were finished using them. So she shows Chica how to clean up by doing one task at a time but Chica is uninterested. However, on their fantasy adventure Chica becomes a reporter doing a story about a very messy playground. DOCTOR CHICA [ETCSR108DH]

Jett, the delivery man, stubs his toe in the shop. Chica feels that she hasn't been much help because she didn't have the right-sized bandage. In fact, instead she managed to wrap Jett up like a mummy. Her mom, Mrs. C had the right-size bandage and fixed it. On their fantasy adventure, Kelly, Bunji and Chica are all doctors in Fairy Land. Stitches, also a fairy, cannot fly so he knows something is wrong. No one knows exactly what's wrong, but they all try to help Stitches "feel better." FLOOGALS

PROJECT PAINTING [EFGL113DH]

The Floogals are in Girl Hooman's room wondering what she is looking at so intently. When she leaves, they get a closer look and find what appears to be some paper, some faulty straws in water, and flat object with colored buttons. Fleeker tries to press the buttons with his feet, but nothing happens. When he walks on the paper, they notice that he is leaving colored footprints all over the paper. Flo concludes that the "buttons" are actually pigment and the faulty straws are actually brushes to transfer the color from the palette to the paper. When they realize what it is and that they've ruined it, they set about recreating it. They observe that mixing colors creates new ones.

[Educational Message: A painting is a picture of something you create by dipping a brush into paint and brushing the paint on paper.]

PROJECT EGG HUNT [EFGL113DH]

The Floogals are enjoying the backyard when they observe Dad and Mom Hooman carrying a basket of small, colorful objects. The Floogals notice that the basket is empty when the hoomans return to the house and wonder where all the colorful objects went. They find one of these objects and collect data about some of its characteristics. They observe that it has rounded edges, is not hollow, has a “wobbly shape,” and it is a different color than some of the others. They break it open and notice smaller eggs inside. They decide to collect all of these objects and return them to the basket. Then they overhear Girl Hooman say she’s excited about the Egg Hunt. When the Floogals realize they made a huge mistake they quickly re-hide the eggs. Fleeker notices how much fun Girl and Boy Hooman have hunting for the eggs. Flo concludes that the eggs are filled with candy and that hiding and finding the eggs is a fun game.

NINA DELIVERS [ENNW110DH]

Nina wants to go to her cousin’s wedding in Mexico. She’s looking forward to all the Mexican wedding traditions. Mami informs her that there’s no one to run the bakery in their absence, so they won’t be able to go. Mami suggests sending Mexican wedding cookies, so they’ll know they are thinking of them. Nina and Abuelita go to the post office. Abuelita has a gift to mail and Carlos and Mrs. Goldstein also have things to send off. They borrow Mrs. Goldstein’s shopping cart to carry all the packages. While they’re rushing, one of the wheels falls off. After a brief panic on Nina’s part and a quick search, they find the wheel and slide it back on. They make it to the post office in time. Postmaster Mavis prints the special stamps needed to send packages to Mexico, Israel, and New York City.

Chelsea and Nina find a frog on the way to the library and decide to keep it in Nina’s purse until they can find a good home for him. They name him Hoppy. Mr. Lambert, the librarian, tells them that a book is a treasure and a library card is the key to “unlocking a kingdom of stories.” Hoppy leaps out of Nina’s purse. The girls break every library rule, trying to catch him. When they finally do, Mr. Lambert explains that the library is no place for animals and finds a book about frogs, which Nina is able to sign out with her very own library card. Hoppy is released into the river, which the girls have identified, through reading the book, as a good place for his new home.

A PATTERN ADVENTURE [ERTD122DH]

Hatty shows Ruff-Ruff, Tweet and Dave the new pattern on his Bubble Copter. Tweet doesn’t know what

pattern means. Hatty explains it's when sizes, shapes and colors are repeated over and over again. When Hatty tells them they're going on an adventure, Tweet notices that the pattern has disappeared from Hatty's hat. He says they'll have to find it on their adventure. Dave learns how to make a pattern with bananas. When the friends try to make a pattern with the sticks, only Ruff-Ruff succeeds.

Hatty tells Ruff-Ruff, Tweet and Dave he'd like a colorful pattern for his hat. When they discover the striped red, yellow and blue pattern on the gate, Hatty determines it's the right one for him.

[Educational Message: A pattern develops when the same shapes are repeated again and again, in the same size and color.]

A MATCHING ADVENTURE [ERTD122DH]

When Ruff-Ruff, Tweet and Dave cannot figure out the purpose of a peculiarly shaped object, Hatty tells them that sometimes that can only be determined when the item is matched up with something else. Their adventure is the perfect opportunity to perhaps find the thing that matches their mystery object. When they match up a key with a lock on a box, they are able to open it up. There they discover a number of other matching items: pencils and paper, a bucket and shovel, a drum and a drumstick. They also help a chicken find her egg. When Ruff-Ruff mistakes a ball for an egg, it is determined that the ball goes with their funny-shaped stick. Hatty tells them the stick is actually a tennis racquet, which is used to hit the ball.

[Educational Message: Sometimes one object is not useful unless it is matched up with another, like a key and its lock, a pencil with some paper, and a tennis racquet with a ball.]

Despite this attempt, the tortoise continues to walk slowly in the opposite direction. The Floogals’ investigation is interrupted when Girl and Boy Hooman come in to check on the tortoise. The Floogals overhear that tortoises live on dry land and Flo concludes that Toby is an animal, as he eats, drinks and walks.

As they begin to take off, the Spin-Again runs out of the special bubble water that makes it fly. Hatty tells them that all they need to do is fill up the Spin-Again. But first, they'll have to find the Zubbly Wubbly Bubbly Pool. When they find it, each friend picks a wand for blowing bubbles. Although each wand has a different shape they discover that bubbles always come out round and blowing, waving and running with the wands are all ways to make bubbles. She doesn't understand why she can't see it. Dave guesses it's because it's not nighttime. Hatty explains that the sky is too bright in the daytime for the stars to be visible. Hatty suggests they look around for star shapes. Dave finds a star at the end of his magic wand, Tweet finds a star-shaped flower, and Ruff-Ruff digs a hole in the shape of a star. Since Tweet still wants her own special star, Dave suggests they make her one. It's nighttime by the time they've put five pointy shapes together to make a star. The Floogals launch a scientific investigation to find out more about this "big pink floaty thing." Flo and Boomer notice the squeaky sound the balloon makes when they rub it. When they untie the string that keeps the air inside the balloon, the balloon deflates. Despite following Fleeker, Flo observes that the balloon is not alive and that it is made of stretchy, rubbery material that expands when it's filled with air. When the hoomans return for their forgotten balloon, the Floogals learn that "balloons" are used as decorations for special events. Working together, the Floogals replenish the air in the missing balloon. Dad and Boy Hooman take it back to Girl Hooman so she can have the best birthday ever.

They develop a few more hypotheses, one of which causes Fleeker to accidentally get stuck in the horn. Observing Mom Hooman blow into the trumpet gives the Floogals a hint as to how to get Fleeker out. FLOOGALS

PROJECT PUZZLE [EFGL103DH]

Girl Hooman is excited to show her puzzle to her grandmother, and being observant, the Floogals question what is a puzzle is and what is its purpose. When they go to take a closer look, they accidentally break the puzzle. The Floogals decide that fixing the puzzle will be their mission of the day. Once they collect all the pieces, Flo wonders how to put the pieces together. They observe a picture on the puzzle box. They conclude the picture illustrates how the pieces are supposed to look when they are put together. They observe that the shapes and colors of the pieces indicate which ones fit together. The Floogals are able to repair the puzzle and grandma loves it.

[Educational Message: A jigsaw puzzle is a picture broken up into pieces. You can use the shapes, patterns and colors on the pieces to help you fit them together.]

PROJECT HELICOPTER [EFGL103DH]

While enjoying some raisins on the counter, Boomer accidentally gets carried off into the backyard by a mysterious craft. Fleeker and Flo approach this craft and collect some data. They observe that it needs an operator and that the blades on the top of it cause it to move. They conclude that this craft is a toy and that it is their best chance to save Boomer. After happening upon a remote control car and its remote, they look for and successfully find the remote control to the helicopter. Flo flies the helicopter to the backyard and rescues Boomer. When he is safely back in the house, Flo shares that the helicopter is not a UFO; it is a toy that Boy Hooman can control from a distance.

[Educational Message: Toy helicopters are fun and are guided by a remote control device. You have to point the device directly at the helicopter to successfully maneuver it.]

NINA'S WORLD

NINA'S FAMILY MUSEUM [ENNW113DH]

Nina has decided to make a Flores Family Museum at home as a surprise to cheer up Mami. Abuelita and Nina search the house for artifacts to place in the museum. Their search takes them to "The Chamber of Rattling Pipes," the boiler room, where they find toys that belonged to Nina as a baby. When all of the "finds" are brought together and presented as museum pieces, Mami is indeed surprised and loves viewing

the family treasures. There's Tio Javier's panpipe, the veil Mami wore at her wedding, and a cracked vase Papi made for Abuelita when he was a boy. Nina also included some of her own artwork.

[Educational Message: Creating a family museum doesn't require a lot of expensive and precious things. Personal objects that symbolize special events are important to preserving life's most important memories.]

NINA DIVES IN [ENNW113DH]

When Nina and Abuelita get to the new community pool, she is surprised at how large it is. This fills her with trepidation. When Eddie does a cannonball dive, water splashes on Nina's face so she decides she's ready to go home. Carlos then shows Nina how Nico taught him to hold his breath underwater. He convinces her to try. After holding her breath out of the water first, she holds it underwater and finds it's a lot of fun. She even does it again so she can blow bubbles underwater like Carlos. When Star falls in and begins floating toward the deep end, Eddie dives in and retrieves him. That evening, she tells Papi she wants to swim in the ocean one day.

[Educational Message: It's okay to be a little afraid to try a new thing or experience. If you don't give up and you take the time to learn and engage the experience slowly, you may find you like it a lot and want to do more and more of it.]

RUFF-RUFF, TWEET AND DAVE

A SUPERPOWER ADVENTURE [ERTD125DH]

Hatty finds Ruff-Ruff, Tweet and Dave pretending to be superheroes. They go on an adventure to discover just what their individual super powers might be. They encounter Little Sheep who cannot find his friend Big Sheep. Ruff-Ruff digs a hole in an attempt to find Big Sheep. That doesn't work, but soon Tweet hears Big Sheep's bell with her super listening powers; they head off in the direction of the sound. Dave is able to spot sheep wool with his super sight, which keeps them on the right path. Ruff-Ruff employs his acute sense of smell to identify the scent of wool; that helps them follow the trail. Using their super senses in this way Ruff-Ruff, Tweet and Dave are soon able to lead Little Sheep back to his friend. "Super Spotter" Dave also finds Little Sheep's blue flower with his super power of sight.

[Educational Message: Your senses are your super powers. The ability to hear, see and smell help you every day and can also be of use to help others when they have lost their way or cannot find something.]

A SPECIAL DELIVERY ADVENTURE [ERTD125DH]

Hatty arrives in his Bubble Copter with a package for Ruff-Ruff. That's not the only delivery he has to make, so Ruff-Ruff, Tweet and Dave go on an adventure to help him. By checking out the information on the package labels, they are able to make deliveries to a fluffy sheep in the tall grass, a rabbit that lives in a hole under a tree, and a crab that lives in a rock pool at the beach. It turns out it's the crab's birthday and the friends accept an invitation to his birthday party

[Educational Message: When a person wants to send something they put the name and address of the person they're sending it to on a label on the outside of the package. This informs the delivery person where the package is going and who it's for.]

ASTROBLAST

A GIFT FROM HALLEY [EATBR125DR1H]

Halley buys gifts for all her friends. When the presents arrive, the Astroblast crew can't figure out what to do with the squishy, green ball. Instead of asking Halley what it is, they spend all day trying to figure out how to play with it. They eventually ask Halley, who tells them it's a pogo stick, and they all have fun playing with it.

[Educational Message: When you don't know the answer to a question, you shouldn't be afraid to ask instead of trying to figure it out yourself.]

BEST GUESTS [EATBR125D1H]

The Astroblast crew is trying to figure out what to do for customer appreciation day. They all agree that they want to sing a song to their customers. Comet keeps attempting to make the performance bigger and better. Sal reminds them that it's the thought that counts when showing appreciation, and that the best way for them to show appreciation to their customers is to simply let them know how much they care. They decide to have an anti-gravity party but, when it doesn't go as planned, they sing a simple song to their guests, just as they had initially planned.

[Educational Message: When giving a gift or showing appreciation to someone, it is the thought that counts; it usually doesn't matter how grand or fancy the gift is.]

THE CHICA SHOW

VROOM, VROOM CHICA [ETCSR112DH]

Chica is frustrated when she is "it" for a game of freeze tag because she is not fast enough to "tag" anyone and make them freeze. When the shop closes, she and Kelly go on their fantasy adventure. Chica, Kelly, Bunji, and Stitches are in an Indy 500-type race. Though she is in last place, Chica perseveres and keeps going when her friends have to drop out of the race. She ultimately wins the race because she didn't give up when others had to quit. She tries her skill on Kelly when they return to the shop and she's able to catch Kelly at an opportune moment and tag for a "freeze."

[Educational Message: Sometimes a game is won based on perseverance, not by speed. Just take things at your own pace and eventually others may have to slow down or stop. Then you can move ahead and achieve your goals.]

CHICA THE BOCK-A-DOODLE BUILDER [ETCSR112DH]

Mrs. C is taking a customer on a tour of the shop, recounting her famous costumes. Chica enters in a self-made airplane and announces that she wants to build an airport inside the shop. Despite being told by Kelly that an airport is too big for the shop, Chica persists in trying to do something "big." She doesn't accept the idea that "small is beautiful" too. While on their fantasy adventure, Chica is the boss of a building company and builds Bunji a "huge" house just to fix a broken roof shingle. Bunji finds the new house overwhelming. Chica has to tear it down and return to building something much smaller. Upon her return to the shop, Chica draws a plan for new shingle for Bunji's cage.

[Educational Message: A large size isn't always the most important thing you can do to make an impression. Sometimes, small things are more appropriate and just as appreciated.]

Sean and Noodle make the teddy bear out of bread dough and bake it to a golden brown. On the bus, Sean helps Mila and her friends make teddy bear picnic baskets out of paper plates, recycled greeting cards, and the bread bags. The girls take their teddy bear bread and new picnic baskets to the park for a day of fun at the picnic.

[Educational Message: You can use your imagination to have a special picnic for your teddy bear.]

FLOOGALS

PROJECT ICE [EFGL104DH]

The Floogals discover a piece of ice that Dad Hooman dropped on the floor while filling the cooler. They wonder what it is and what hoomans use it for. The Floogals observe that ice is cube-shaped, sparkly and freezing cold. Flo and Fleeker climb to the top of the refrigerator to further observe how the hoomans are using the ice in the backyard. Flo concludes that they use the cold ice when it's hot in order to cool them down; she also observes that sunshine, or any heat source, melts the ice.

[Educational Message: Ice is frozen water and it is used to cool us down when we feel hot. When ice is exposed to a heat source, such as sunlight, it melts into water.]

PROJECT SLEEPOVER [EFGL104DH]

The Floogals observe that Girl Hooman is cleaning her room, which she never does. Then, her friends come in and mention that they are having a sleepover. The Floogals wonder what a "sleepover" is and decide to investigate to find out more. They observe the girls laying out sleeping bags on the soft carpet, playing games, dancing, and eating snacks. This causes the Floogals to wonder why there isn't more sleeping happening at this so-called "sleepover." When Mom Hooman turns off the light, the Girl Hooman and her friends finally go to sleep. One of the girls misses her parents and her bed and Girl Hooman describes this as being "homesick." The Floogals decide to have their own sleepover in the dollhouse and fall asleep together. In the morning, Flo concludes that a sleepover is when one or more friends sleep at another friend's house

[Educational Message: A sleepover is when you spend the night at a friend's house and do fun things like playing games and eating snacks. When you miss your parents and your house, it is called feeling homesick.]

NINA RIDES A BIKE [ENNW111DH]

Nina has new purple streamers for her bicycle and is excited to go riding. Everyone is busy and though she's not allowed to ride alone, she does so anyway. She wants to see her new streamers "fly" so she rides very fast. She almost collides with Max, the Dog, and swerving to avoid Abuelita, she rides over some flowers, crashes into a tree, and skins her knee. When Abuelita reminds her she's not supposed to ride alone, Nina declares she'll never ride her bike again. In order to help Nina get over her accident, Abuelita enlists the help of Carlos and Chelsea by setting up a bike school. Nina aces the tests they devise.

[Educational Message: When you don't know how to do something, you should learn how instead of doing it alone; you could really hurt yourself.]

NINA TAKES THE CAKE [ENNW111DH]

Nina and Abuelita discover Mami has hurt herself and is very concerned about her important deliveries: Eddie's birthday cake and Mrs. Goldstein's cake for her daughter's baby shower. They arrange the cakes in delivery order with Eddie's on top. When Abuelita goes inside to get her hat, Nina, although she's been told not to, takes out the cakes to show Carlos, putting them back in the wrong order. Star admonishes Nina about not telling Abuelita about letting Carlos see the cakes. Nina says she hasn't really lied, she just hasn't told Abuelita everything. The switch isn't discovered until Mrs. Goldstein looks at her cake after Eddie's has been delivered. When Abuelita takes the blame for mixing up the cakes, Nina decides to confess her transgression. Abuelita forgives her and they scurry off to correct the mistake. That evening Mami tells Nina that not speaking up when you've done something wrong is the same as telling a lie. Nina promises that she'll never let it happen again.

RUFF-RUFF, TWEET AND DAVE

A HAPPY HAT ADVENTURE [ERTD126DH]

Ruff-Ruff wants a hat that will keep his ears from getting hot in the sun, Tweet wants one to protect her head when she bumps it, and Dave wants a hat that makes him look important. They go on an adventure to find the perfect hats. In a big box with lots of hats, Dave thinks he's found the right hat to fit between his ears, but it's a little too big. Ruff-Ruff finds a hat for Dave that's the perfect size. In the Hat Forest, Dave finds a hat that's not squashy or bendy, but hard and strong enough to protect Tweet's head. They go to the Sunny Ranch to find a hat to protect Ruff-Ruff's ears from the sun. Ruling out a round hat and a banana hat, they find a hat that's wide enough to do the job.

[Educational Message: When choosing a hat you must make sure it's the right size for your head; you don't want it to cover your eyes. It must also be the correct shape and material for the purpose you had in mind. The right hat can protect you from the sun and from falling objects.]

A ROBOT ADVENTURE [ERTD126DH]

When Hatty visits, he finds Ruff-Ruff, Tweet and Dave each wishing for something to help with a specific task. On their adventure, they encounter a robot that can do just that. Hatty instructs them on starting and stopping the robot with the red switch on his back. He also tells them they must be very specific when asking for help. Ruff-Ruff asks the robot to throw sticks for him to fetch, but must first figure out how to give a more detailed instruction to get exactly what he needs. The same thing happens when Tweet asks for a chair to sit in for drawing, which the robot, at first, makes way too small. When the robot diligently works

to fulfill Dave's request for "gazillions of bananas," the team must figure out how to turn him off and make him stop.

[Educational Message: Robots can be a lot of fun and very helpful. They need clear instructions to complete any task successfully.]

BOP 'TIL YOU DROP [EATBR126DH]

Some cute creatures named "Bipitty Bops" visit the Astroblast crew in the Frosty Star Café. After drinking a smoothie, the Bipitty Bops multiply. The Astroblast crew cannot figure out why the creatures are multiplying so fast. Comet thinks of a number of possible explanations and hastily tries to prove them. Sputnik reminds him that they need to think things out before jumping to conclusions. Finally, through thoughtful experimentation and by paying close attention, they figure out that every time a Bipitty Bop drinks from a straw, it doubles.

[Educational Message: You should always be thoughtful, pay attention and ask questions before jumping to conclusions.]

KAPOWSERS! [EATBR126DH]

Comet receives a call from a TV reporter who wants to interview the Astroblast team about the award they received for the best smoothie stand in the universe. Comet and all his friends are excited. However, Comet gets nervous about not being special enough for the reporter. Comet attempts to mitigate this insecurity by coming up with a catchphrase: "Kapowersers!" This causes the rest of the Astroblast team to adopt a new look or behavior to be more special. When the reporter arrives, the team is too busy with their new special behaviors to notice. Luckily, the team goes back to being normal and gives an awesome interview.

[Educational Message: It is important to always be yourself and be comfortable in your own skin.]

THE CHICA SHOW

FARMER CHICA [ETCSR113DH]

Something is shaking up the costume shop as though an earthquake is occurring. It turns out that the shaking is the crunch of Jet biting a carrot. He has food from the farmer's market to share but Chica has no time to eat fruits and vegetables. She wants to quickly eat a bag of chips and continue playing in her farmer costume. She tires early because she hasn't eaten properly and, on the fantasy adventure, the problem repeats itself. Chica won't eat a good breakfast and gets so tired she can't even feed her horse. When they return home, Chica eats some healthful food so that she and Kelly have enough energy to walk home and make dinner with Mr. and Mrs. C.

[Educational Message: You have to eat healthful food like fruits and vegetables to have enough energy to do all the things you want to do every day.]

BOCK-A-DOODLE-DOO I LOVE YOU [ETCSR113DH]

Chica wants to do something special to show how much she loves her parents. Chica and Kelly open a spa for Mrs. C and build a hammock for Mr. C. When an order comes in for a yak costume, Chica assumes she can fill the order (so her parents can rest), but alas, while the costume is a Chica original, it is not a yak. Chica feels she totally let her parents down and they won't love her anymore. On their fantasy adventure,

Chica and Bunji are parents whose children, Kelly and Stitches, accidentally toss Bunji's perfect carrot cake into the air. Even though the cake was ruined, parents Chica and Bunji reassured their "son" he was still loved. Returning to the shop, Mr. C tells Chica her spa was such a big hit, he is now building her mother a new luxury bird bath. Chica realizes her parents still love her despite her mistake.

[Educational Message: Parents do expect their children to do their best, but even if they get upset when mistakes get made or accidents happen, their love will always be there.]

On the bus, Noodle and Sean bake the treats using tuna and wheat germ. Sean, Samantha, and Joel make toys for Charlie using tennis balls, socks and some sticks to carry them. When they are finished, they take their new toys and treats home to Charlie, much to his enjoyment.

Turner and Daje have been learning about kings and queens in class and are looking for something to bring to circle time. After brainstorming with Sean, they decide to make a crown and some jelly jewels to eat using colored gelatin and milk. Turner and Daje return to the bus to help Sean make crowns using paper plates wrapped in foil and colored rock salt to decorate them. They take the jelly jewels and crowns back to their class to share with everyone.
