The Presidential Race made for a lot of soul searching, but reminded us all of how much we cherish this country and worry about its future. Wars killed so many innocents and displaced hundreds of thousands of people. The hatred and violence spawned a new generation of terrorists, lone wolves out for blood and a headline. It reminds us how much we value peace. And we said Aloha in all its meanings to the members of the greatest generation who survived the December 7 attacks on Oahu. They were ready to lay down their lives, like so many didâ€¦and more may do so the defend freedom in the world. Here in Hawaii the exploding price tags for dealing with homelessness, improving schools, and building a modern transportation system made us ask what it is our island community needs most.	0:01:16

1/4/2017	10pm HNN News KHNL	LOCAL CONNECTION HOMELESSNESS	LOCAL CONNECTION HOMELESSNESS. It has been a year and a half since Hawaii News Now and the Honolulu Star-Advertiser began our unprecedented partnership in covering the homeless crisis. Public outrage grew and public officials claimed they were ready to take on the problem. Despite the words so far it appears very little, if any, progress has been made. While the largest encampments are gone, they have simply been replaced by multiple smaller camps that move around the city. There are also still hundreds of individuals who wander the streets, sleeping where they can, living in unsafe and often filthy conditions. It remains a humanitarian catastrophe. 3/5/2017	Meet The Press	President's Campaign and Russia	In an exclusive interview with "Meet the Press" moderator Chuck Todd, former Director of National Intelligence James Clapper addressed recent tweets from President Trump alleging wiretapping by President Obama during the 2016 campaign: "For the part of the national security apparatus that I oversaw as DNI, there was no such wiretap activity mounted against the president-elect at the time, or as a candidate, or against his campaign." "I can deny" the existence of any FISA court order for surveillance of Trump Tower, the former director added. Clapper told Todd that, in the intelligence report released in January concluding Russian interference in the 2016 election, "we had no evidence of such collusion" between the Trump campaign and Russia, but "this could have unfolded or become available in the time since I left the government." In another exclusive interview this morning, Senate Minority Leader Chuck Schumer (D-N.Y.) said that he has "some doubts about Chairman Burr," calling for a special prosecutor to look into possible Trump campaign ties with Russia. On the wiretapping allegations, Schumer noted: "President Obama has flatly denied that he has done this. And either way, Chuck, the president's in trouble." Sen. Marco Rubio (R-Fla.) reacted to the wiretapping claims as well, telling Todd: "I've never heard that allegation made before by anybody. I've never seen anything about that anywhere before. But again, the president put that out there, and now the White House will have to answer as to exactly what he was referring to." The Florida senator was not ready to call for a special prosecutor like Schumer: "I certainly don't think we're at that point at this moment." This morning's roundtable was comprised of Democratic pollster Cornell Belcher, The New York Times' Tom Friedman, AEI's Danielle Pletka and The Wall Street Journal's Kimberley Strassel, who discussed the allegations of collusion between the president's campaign and Russia.	60 min
