**CPR**, or Cardio Pulmonary Resuscitation, is an extremely useful skill that can end up saving someone's life but many Americans simply do not know it and do not plan on learning it. If every American takes a class and gets their [CPR certification](#), then **thousands of deaths** could be prevented each year. For more information on how you can be CPR certified, log onto the Chicago CPR website or call Chicago CPR NOW 773-981-2772.

The Black Star Project is committed to improving the quality of life in urban communities by eliminating academic achievement gaps and providing educational services that help students succeed with the support of their parents, families, schools and communities. Call today to learn how you can help.
