

Community Issues Report – WJQK

April 2013 – June 2013

Issue: The nation and the issues it deals with on a daily basis.

Station Response:

- Brought awareness of the National Day of Prayer to our listeners. We encouraged them to get together with friends, family members, and neighbors to pray for our nation.

Issue: Lack of partnership within the West Michigan area Churches.

Station Response:

- Churches are supposed to work together with their community. While many of them are willing to help individuals, Churches seem to operate independently of each other. We partnered with “One Lord. One Church” which is an organization of leaders from various West Michigan Churches, to encourage listeners to join in one big prayer movement from June 2nd – 9th and pray for the unification of the West Michigan area Churches.

Issue: Those effected by the tornado destruction in Moore, Oklahoma.

Station Response:

- The tornado destruction in Moore, Oklahoma was massive. We saw a need to get our community of listeners to help out with the situation, so we took to airwaves and posted online various ways that listeners could donate, volunteer, pray, and even talk to their own children in times of severe tragedy.

Issue: At-risk children in the West Michigan area.

Station Response:

- We partnered with the annual “Saturday Slip-n-Slide” event as well as Dynamic Family Chiropractic for the 5K Fun Run/Walk to help benefit Kids Hops USA and their effort to change the lives of at-risk children in the West Michigan area.
