**Issue addressed: Accommodations for Families of Children in the Hospital**

Segment 1 and 2

On today's show, we had representatives Craig and Kristi from the Joe DiMaggio Children's Hospital Casino Night. They did both segments of today's show. They came on to discuss their upcoming event Casino Night. This event raises money for the families of the patients that need treatment at JDCH. It allows the families to not have to go home and they can sleep over at a neighboring facility. There will be a performance by the Blues Brothers Soul Band. The event will also have a reception and slots and bingo tournament. This is the third annual event and the tickets cost \$75 in advance or \$100 on

the day of the event. The facility that the families stay in is called the Conine Clubhouse. There is never a charge to stay and over 10,000 families have been able to live there. The clubhouse has all of the amenities that you would find at a three star hotel. They discussed coming back on the show to discuss the other events that support the clubhouse such as, The Conine All-Star Golf Classic and the Jeff Conine Celebrity Poker Tournament. They spoke a bit about the hospital. They mentioned it's the largest regional pediatric hospital in South Florida and they have an entire floor dedicated to Oncology. They also talked about the fact that the families are just as important as the patient. The patients do so much better when they have their families around to support them.

This picnic is sponsored by almost every city in Miami-Dade. The picnic is exclusively held for the law enforcement officers and their families and children that have been diagnosed with Autism. They like to have this BBQ because it is very fun for all who attend. Teresa mentions that kids from all over the Autism spectrum attend and the police and their families really enjoy meeting them and spending time together. They even let the kids cook and serve the lunch.

The police bring cool patrol cars, the K9 unit, and helicopters for the kids to play with and explore. They hope to unite the community to bring awareness and understanding to both parties. Every police officer in the country is invited to this event. They want the kids to feel comfortable with the police that patrol their neighborhoods. Some other fun things are being provided by the Miami Dade Police Department are Mc Gruff the crime fighting dog and The Law Enforcement Therapy Dog. HPV has a stigma surrounding it that women only get it if they are sexually promiscuous, so they want to educate the world so that they realize this could happen to anyone. Another philosophy is that no one should face cancer alone. For that reason, she launched the first ever Teal 5K Run/ Fun Walk. The proceeds will benefit survivors of Ovarian and Gynecologic Cancer. Today's guests were Mark Adler and Jennifer Wescott from the Meals on Wheels of South Florida. Mark is the Executive Director and Jen is the Community Relations Director. They have many programs over the holidays. The first drive was the Thanksgiving Meal Delivery Program to benefit homebound seniors. This allowed them to feed thousands of seniors who would have gone hungry otherwise. They also have a Holiday Gift Box program for the seniors to make sure they are able to open at least one gift this holiday season. One of the biggest programs is the Hasbro Joy Program for all. Hasbro has donated \$100,000 to partner with them on the Senior Pet program. Hasbro created cats and dog toys so that the seniors don't get lonely. They move and function like real animals, but they are fake so there is no care needed. This partnership works really well in nursing homes and the senior citizens are so grateful for the company. They also have a program with Subaru called Share the Love. Subaru gives \$250 to Meals on Wheels for every new vehicle they sell during the event period. It was important to them to come on and locally

promote this awesome drive. They also mention an online toolkit that anyone can get by going on the website. The host and I both attended their gala recently so we spent a few minutes congratulating them on a fine, fun event.

Since there is no real way to track the exact amount, Chevron bases the donation on how much cash is made at historical local gas stations. As long as someone goes and registers on donorschoose.org, for every 8 gallons purchased, the school will receive the donation. Also, if you have two kids in different school districts, Chevron will rotate the way the donations are split up. To get more information, you can check out Chevron/DonorsChoose.org
