## iHeartRadio Communities: Public Affairs Special

**30min show for all English stations to run in place of current show or in addition to.**

Designed to focus on the biggest issues impacting you this week.

To air: **Weekend of 08/13 – 08/15**

Guests & Topics:

- **Dr. Rachel Villanueva - President of the National Medical Association.** Dr. Villanueva is a women's health expert and advocate who is committed to reproductive justice, health equity, workforce diversity, and disease prevention. Dr. Villanueva spoke about COVID's impact on the black community. She talked about how we all can lower COVID-19 infections with vaccinations and masks. Villanueva discussed why National Medical Association, which advocates on behalf of

African American physicians and patients, is one of dozens of health care organizations that recently signed a joint statement in support of COVID-19 vaccine mandates for all workers in the industry.

- **Debra Dyer, MD, chair of the American College of Radiology Lung Screening Committee.** Dr. Dyer discussed how that lung cancer kills more people than breast, colon and prostate cancer combined. She talked about the **new federal guidelines** that have nearly doubled the number of Americans eligible for *lung cancer screening* — proven to greatly reduce lung cancer deaths and what we should all know about the disease. Dyer mentioned Kathy Griffin's recent diagnosis with lung cancer and how it can strike non-smokers too.

### August 22nd (29:47)

## iHeartRadio Communities: Public Affairs Special

**30min show for all English stations to run in place of current show or in addition to.**

Designed to focus on the biggest issues impacting you this week.

To air: **Weekend of 08/20 – 08/22**

Guests & Topics:

- **Dr. Jody Thomas with the Meg Foundation is a licensed clinical psychologist, and specialist in pediatric medical illness and trauma. The Meg Foundations' goal is to empower families with pain management strategies, skills, and support needed to prevent and reduce pain. Thomas discussed how needle anxiety may be a barrier to some people seeking the COVID-19 vaccination... research shows that a quarter of adults and 2/3 or similar of children have enough worry about getting shots that it affects their health care choices. Thomas talked about where needle fear comes from, why is this not talked about more, and what can be done to help people struggling with this issue. With back to school here, Dr. Thomas explained how needle fear is different for kids versus adults.**
- **Shaun Raviv is a freelance journalist based in Atlanta. Raviv has written features for Wired, Smithsonian, Deadspin, BuzzFeed, and The Washington Post. He is the host of new podcast Long Shot: The 250-Year Journey to the COVID-19 Vaccine. Raviv talked about the evolution of vaccines from the very first inoculators to the research, methods, people, and companies behind today's vaccines. Raviv explained his experience interviewing scientists, and vaccine creators and told us how his podcast deals with the facts, myths and legends behind vaccinations, with information from more than 1000 years ago.**

### August 29th (29:47)
