Time Broadcast: 04/07/22, 2:00 pm

Show Length: 50 mins

Description:

We're always worried about being productive enough with our time, but where does this compulsion come from? In episode 48, Ellie and David examine productivity culture and the drive to produce. Although research says longer hours don't equal more productivity, capitalism encourages us to always be working, even at the cost of our mental and physical health. How does this inefficient approach to work (and our lives outside of it) stifle our growth and creativity? According to Twitter memes and Bifo, refusing productivity for lazy relaxation on the beach may

be a revolutionary rejection of productivity culture, but Adorno contends that laziness recycles us into merely consuming commodities for capitalism instead of producing them. What can a creative, process-based approach offer us that a productivist one cannot, and what value might there be in just producing less?

Time Broadcast: 04/21/22, 2:00 pm

Show Length: 44 mins

Description:

Why do humans in every known culture love juicy gossip? Some theorists say gossip evolved as the modern version of picking fleas off our friends, reassuring those around us of our shared social bonds. Others argue that it reinforces social norms by outlining what behaviors are bad, or even scandalous. In episode 49, Ellie and David gossip about gossip — when is it wrong to gossip, and when might it be the ethical choice? Many scholars throughout history have condemned gossip as idle chitchat that slanders others, but some feminist and decolonial thinkers have reclaimed its utility for fighting against systems of oppression that exclude them from formal modes of communication. Episode 49 spills the tea on gossip.

Title: Building Bridges

Type: Public Affairs

Source: Pre-Recorded

Time Broadcast: 05/01/22, 9:32 pm

Show Length: 26 mins

Description:

Paul Robeson, the Artist as Revolutionary with Dr. Gerald Horne, Horne has written more than 30 books on the struggles of those marginalized throughout world history and is chair of History and African Studies at the University of Houston. He is one of the most gifted and insightful historians on racial matters of his generation.

Gerald Horne discusses the Paul Robeson we've been waiting for: the flesh and blood revolutionary, artistic genius, and fearless opponent of capitalism, racism, and colonialism. He recovers in meticulous detail one of the 20th century's greatest freedom fighters. Horne also brings Robeson to life for our own times. Gerald Horne returns Paul Robeson to his rightful place in history, squarely at the center of the Black freedom movement and the global struggle

for human rights. As Horne demonstrates, Robeson knew no boundaries or borders-either in art, culture, nations, or politics. Struggle was his life; the world his terrain.

Time Broadcast: 05/05/22, 2:00 pm

Show Length: 57 mins

Description:

What do Freudian slips, Josie and the Pussycats, and solving math problems have in common? Psychoanalysis claims to have some answers! Sigmund Freud suggests that unconscious desires, fears, and trauma influence us without us being conscious of them. In pop culture, the unconscious is often depicted as the realm of dirty thoughts and subliminal messages, but does the unconscious actually even exist? In episode 50, Ellie and David explore the unconscious and the existentialist challenge to it from Jean-Paul Sartre.
