Date: 02/18/20
Time: 9:00 a.m. – 11:00 a.m.
Program Name: Talk of the Town
Host: Sherman Ngan
Topic: MTA uses Biometrics technology (behavioral biometrics) in their system

The development of a higher-level identification system is the goal of the security and banking industry, because this technology can not only facilitate daily consumption and security monitoring, but also help solve the crimes that have plagued hackers and counterfeit credit cards for many years. Thus, come the use of Biometrics technology (Behavioral biometric), which uses closed-circuit television cameras to monitor each person's unique posture while walking, replacing the password as a medium to identify the cardholder's identity. The same series also includes fingerprints, voice prints, faces, irises, heartbeat beats, and blood vessel networks as identification media, the latest development is called Gait recognition. However, issue such as privacy remains to be resolved. Host invited audiences to share their opinions on the subject.

Topic: COVID19 Diagnosis exceeded 30,000 nationwide; New York City medical supplies may be exhausted

The epidemic situation of New Coronary Pneumonia is severe. There are 31,057 confirmed cases of New Coronary Pneumonia in the United States, of which 390 people have died. In New York State, where the epidemic is most severe, Governor Cuomo said on Sunday (22) that the number of diagnoses in New York State has increased to 15,168 and 114 deaths. Although Washington has declared New York a "major disaster zone" for the epidemic, Cuomo said that New York State has not received any funds from the first new coronary pneumonia bill passed by Congress, but New York has the greatest demand. Cuomo called on the federal government to nationalize the production and acquisition of medical supplies, because the current state of panic buying behavior has caused the price of medical supplies to soar. He pointed out that the price of a N95 mask has increased from 0.85 US dollars (about 6.7 Hong Kong dollars) to 7 US dollars (about 54.6 Hong Kong dollars), and the state government has no way to solve this problem. He pointed out that he's now facing the situation of competition with California, Illinois and Florida, this should not have happened.
