

**Virologist's Dr Ben Neuman of TAMUT Texarkana did not mince words on his Facebook blog over the weekend about quarantine following a positive case of Covid in a school. He was asked if the school should quarantine any students or teachers who came in contact with the infected person regardless of whether they were wearing a mask.**

**Cut one ((((((((((**

**DR Neuman went on to say that keeping classes open where there is a positive test should be should be settle public health**

**Cut two ((((((((((**

**Dr Ben Neumand is a world reknowned Virologists and a frequent guest on KTXK concerning the Covid 19 pandemic his blog page is on Facebook at Ask Dr Ben As More and More Students return to school this week and many opened last week there have already been outbreaks of Covid 19 at several area schools including a student at Texas High last Wednesday.**
