

A world-renowned Virologist working with and trying to understand not Covid 19 itself but the human condition behind it.

Dr Benjamin Neuman is the Chair of the Stem division of TAMUT and one of the scientist spending the summer in College Station studying the makeup and effects of Covid 19 on the Population.

In an interview Sunday Dr Neuman said that he agrees with the assessment of some first line doctors who say that September may see the infection rate get worse.

(((((((on 1:09 sec)))))) any more

Dr Neuman also commented that starting schools in the Fall at this time is not going to be safe.

(((((((((:51 sec)))))))) this thing

Dr Benjamin Neuman is a virologist studying the Covid 19 virus with hundreds of other scientist around the world and is the chairman of the STEM division at TAMUT, His full conversation with air at 12 noon today on the Newshour.
