Wheels on the Bus - Running late for an important meeting at the Glass Palace, George and the Man with the Yellow Hat decide to take the bus rather than walk. But when George and the Man get off at the wrong stop, the bus leaves with the Man's portfolio still inside! Determined to retrieve the important drawings AND make it to the meeting on time, George jumps in a basket on a bicycle. The Man orders a baffled taxi driver to follow that monkey on the bicycle to catch the bus to get his portfolio! With the clock ticking, will either of them catch up to the bus and arrive at the meeting in time? Seed Trouble - George loves eating at Chef Pisghetti's restaurant! When Chef explains that he can't grow enough vegetables to keep his customers fed, George and the Man with the Yellow Hat offer to start their own garden to help the Chef out. The garden is ready to be planted, when Compass and his pigeon friends eat some of the seeds! George dumps the seeds into one jar to keep them safe... and learns too

late that different seeds can't be planted together. Can George figure out how to separate and identify the seeds, and keep Chef Pisghetti in business?

Follow That Roly Poly - The Exploring Club is looking for somewhere really cool to explore when they find a Roly Poly that leads them on their next adventure -- under a log! After careful observation, they realize that there's an entire community of critters that lives under logs. It's a like a tiny town! Finally, they put the log back the way they found it and learn that you don't have to look far to find a grand adventure in nature. Rain, Rain Don't Go Away - Elinor, Ari and Olive are in the park playing when their fun is cut short, because it starts to rain. This makes Elinor wonder, "why does it need to rain?" The kids soon observe lots of ways the rain is helpful to plants and animals: it helps snails stay slimy, fills up bird baths, keeps frog ponds full, and keeps the grass green. Now the kids know that a rain shower is very useful to nature. Also, rain makes the best thing ever for kids - PUDDLES to jump in!

Join us on our discovery of Europe's Christmas Markets, where the town center, market square or just the narrow, cobblestone streets of the cities and towns of Europe come alive in winter with festively decorated wooden stalls offering all sorts of treats and delights. As we travel through Germany, France and Switzerland we visit cities and towns and learn of their history, see their major sights, and visit their charming markets. Besides being a visual treat, the show is also a musical treat, as T the Kingston Trio provides special folk arrangements of traditional Christmas carols to add to the magic and enchantment of the medieval and castle towns we visit. In our visit to Bernkastel-Kues we see the town hall decorated as an advent calendar, and learn of the traditional beverage of the markets, the Gluhwein. In Nuremberg we visit the imposing castle, and one of the most famous of all the Christmas markets. You can almost smell the roasting sausages and gingerbread sold in the stalls. In Rothenburg we learn of the traditional wooden Christmas decorations from the son of the founder of the Kathe Wolfhart

Our most powerful tool to reverse the global epidemic of chronic disease, heal the environment, reform politics, address social injustice, and revive economies is food. What we eat has tremendous implications not just for our waistlines, but also for the planet, society, and the global economy. What we do to our bodies, we do to the planet; and what we do to the planet, we do to our bodies. In his new program, Food Fix, #1 bestselling author Mark Hyman explains how our food and agriculture policies are corrupted by money and lobbyist that drive our biggest global crises: the spread of obesity and food-related chronic disease, climate change, poverty, violence, educational achievement gaps, and more. Pairing the latest developments in nutritional and environmental science with an unflinching look at the dark realities of the global food system and the policies

that make it possible. Food Fix is a hard-hitting manifesto that will change the way you think about - and eat - food forever, and will provide solutions for citizens, businesses, and policy makers to create a healthier world, society, and planet.

Become happier, more joyful and energetic with a simple three-step process that unlocks the secrets of moving beyond our

strategies to feel better fast and make it last. Nearly all of us have felt anxious, sad, exhausted, or hopeless at some point in life ... or we know someone who has. You are not alone. According to the National Institutes of Mental Health, 51% of the US population will have a mental illness at some point in their lives. Anxiety disorders are the most common, followed by depression, ADHD and addictions. It's more normal to have a problem than not to have one. Many people want to get help, but feel embarrassed or ashamed, because of the stigma attached to mental health issues, so they end up suffering in silence or overeat, use alcohol, or rush to take the latest medications to try to make themselves feel better fast, but it often doesn't last. Feel Better Fast and Make It Last will show viewers the strategies taught to patients at Amen Clinics, where they have one of the highest published success rates for people who suffer from anxiety, depression, addictions and grief. The program set contains many time pieces to highlight to viewers that many of the techniques Dr. Amen will share literally take just a few minutes or even less.

In The Longevity Paradox, Dr. Gundry shares informative, life-changing information with us and shows us a step-by-step easy approach to help us all feel better and more youthful today, no matter your age. Dr. Gundry will teach us what is causing faster aging, how and why some people live long active lives well into their 90s. Dr. Gundry will also debunk five of the biggest myths about aging. The Longevity Paradox with Steven Gundry, MD is based on the latest science as well as from experiences of everyday people -- people who have suffered from autoimmune diseases, obesity, diabetes, digestive problems, inflammation, heart attacks, joint pain, brain fog, or premature aging. Feeling sluggish, worn out, and ill are all things of the past. Dr. Gundry is here to help save us from all of the ailments of

aging that lurk around every corner. Dr. Steven Gundry was once a professor and chairman of cardiothoracic surgery at Loma Linda University School of Medicine. In the year 2000, Dr. Gundry realized he could save many more lives with prevention rather than surgery so he started his own practice dedicated to using diet to reverse and prevent chronic illness. Since then, Dr. Gundry has shown thousands of his patients how dietary and lifestyle changes can dramatically reverse health problems that traditional medicine could not help.

In telling that story, HOLY SILENCE focuses on American officials -- from a humble New England priest to the president of the United States -- who were working behind the scenes to influence the Vatican's actions during that dark period in modern history.

PETRA - LOST CITY OF STONE 00:00:00 21:00:00 15:30:00 00:00:30 21:00:00

More than two thousand years ago, the thriving city of Petra rose up in the bone-dry desert of what is now Jordan. An oasis of

culture and abundance, the city was built by wealthy merchants whose camel caravans transported incense and spices across hundreds of miles from the Arabian Gulf. They carved spectacular temple-tombs into its soaring cliffs, raised a monumental Great Temple at its heart, and devised an ingenious system that channeled water to vineyards, bathhouses, fountains, and pools. But following a catastrophic earthquake and a slump in its desert trade routes, Petra's unique culture faded and was lost to most of the world for nearly a thousand years. Now, in a daring experiment, an archaeologist and sculptors team up to carve an iconic temple-tomb to find out how the ancient people of Petra built their city of stone. And beyond Petra's city of the dead, scientists using remote sensors and hydraulic flumes discover a city of the living-complete with a water system that not only supplied 30,000 people with enough to drink, but also filled bathhouses, fountains, and pools with such abundance that some scholars believe this desert metropolis may have been the Las Vegas of the ancient world. The race is on to discover how these nomads created this oasis of culture in one of the harshest climates on earth, and ultimately, why Petra disappeared.

Into the Fire examines the most tumultuous and consequential period in African American history: the Civil War and the end of slavery, and Reconstruction's thrilling but tragically brief "moment in the sun." From the beginning, African Americans were agents of their own liberation, forcing the Union to confront the issue of slavery by fleeing the plantations and taking up arms to serve with honor in the United States Colored Troops. After Emancipation, African Americans sought to realize the promise of freedom-rebuilding families shattered by slavery; demanding economic, political and civil rights; even winning elected office. Just a few years later, however, an intransigent South mounted a swift and vicious campaign of terror to restore white supremacy and roll back African American rights. Yet the achievements of Reconstruction would remain very much alive in the collective memory of the African American community.

Set during the London Blitz of 1940, Murder on the Home Front is a vibrant, original crime drama. This is a world where people live life in the moment. It is also a world where criminals can use the blackout and devastation to hide their darkest activities. As the Luftwaffe drop their bombs, below people are literally getting away with murder. Dr Lennox Collins (Patrick Kennedy) is a pathologist new to murder cases, obsessed with pursuing the truth through all means available. He is often at the cutting edge of new thinking in pathology from chemical tests to the controversial inclusion of the study of the psyche. Molly Cooper (Tamzin Merchant) is not only the first secretary to a pathologist, she is the first woman allowed into a very male world. All Lennox knows is that she has a strong stomach, 60 words a minute and a keen brain. When together they discover a serial killer at large under cover of the Blitz, Lennox has his work cut out convincing the police to have faith in his methods and theories.

Every year, the Bach Festival Society of Winter Park, Florida puts on a performance which fills the beautiful Knowles Memorial Chapel at Rollins College with the sounds of the holiday season. A CLASSIC CHRISTMAS WITH THE BACH FESTIVAL SOCIETY features the 175-voice Bach Festival choir, youth choir and orchestra under the direction of conductor and creative director Dr. John V. Sinclair. The esteemed ensembles offer traditional holiday selections from their rich and widely varied repertoire, including well-known Christmas hymns and carols beautifully arranged for the performers. The Bach Festival Society of Winter Park is Central Florida's oldest operating performing arts organization, and has the distinction of being the third-oldest continuously operating Bach Festival in the U.S. The 83-year old Bach Festival choir is composed of volunteers who audition to sing its extensive concert repertoire, including Bach's Passions and Mass in B Minor, and major works by Verdi, Mozart, Brahms, Rossini, and Puccini, along with lesser known and contemporary composers. The choir is accompanied by the Bach Festival orchestra, which is comprised of extraordinary musicians with vigorous, nimble playing and a wide range of talents.

Curious George Flies a Kite - A gusty morning at the country house leads George to experiment with aerodynamics. In the wind, birds soar, ping-pong balls roll, and bricks don't move at all. But the best thing of all for a windy day is a kite. George, with the not-so-willing assistance of Jumpy Squirrel, discovers the wonders and the perils of kite flying. From Scratch - Gnocchi, the cat, is accused of scratching the booths in Chef Pisghetti's restaurant. To prove Gnocchi's innocence (and eat cannoli), George decides to mount an investigation. Using his scientific inquiry skills, he observes the differences between the scratches Gnocchi makes with her claws and the scratches left on the booth and shows that his friend was wrongfully accused.
