Record of Public Discussion
Ecotopia #283 Language and Society
Date: 1 July 2014
Programmers: Susan and Stephen Tchudi
TURN ON FLASH RECORDER

Susan: This is KZFR, 90.1, listener supported community radio for the Sacramento Valley, the Foothills, and Beyond. ^{Chico}

And you are listening to Ecotopia, exploring ecosystems, environmental, social, technological. I'm Susan Tchudi

Steve: And I'm Stephen Tchudi

Tonight we'll be looking at the ecosystem of *language—words, sentences, discourse*—which is inextricably bound up with how we think, what we take for granted, what we believe, and how we enter into the world around us.

Susan: In the first segment, we'll be talking with Ammon Shea, who has written a book called *Bad English: A History of Linguistic Aggravation*. He will show that many of the words and phrases that school taught us were "wrong" actually have a distinguished history in the English language, and he'll argue that we should be less prickly and snobbish about "bad English"

Steve: And then we'll talk with ^{Cesar} Cezar Ornatowski, Professor of Rhetoric at San Diego State ^{University}, who is a specialist in the rhetoric of science. He'll show us that what passes for "truth" in science is not absolute, that it grows from that language in which it is expressed and the arguments that are put forward to promote it.

Susan: Underwriters

Steve: Disclaimer

Segue: We'll take a music break and come back to talk with Ammon Shea about this odd and controversial thing called "bad English."

Music #2

Call Ammon Shea

Ammonshea@gmail.com. The number to reach him: [303 526 1402](tel:3035261402)

Steve: This is Ecotopia on KZFR, and tonight we are focusing on the ecosystem of *language*—the system of human behavior that is often ignored but can also lead to misunderstandings, elitism, fistfights and worse. Our guest tonight has certainly not ignored language. Ammon Shea has actually *read* the entire *Oxford English Dictionary*, and he documented his observations in *Reading the OED: One Man, One Year, 21,730 Pages* (2008). He has also worked for Oxford University Press as a consulting editor on American dictionaries and contributed to the "On Language" column in the Sunday *New York Times*. Tonight we'll talk to him about his new book *Bad English: A History of Linguistic Aggravation* (Perigee, 2014). Welcome, Ammon Shea.
