

Following is a listing of significant issues identified and responded to by KCTO, Cleveland, Missouri. This listing covers the most significant programming treatment during the calendar quarterly period of July 1, 2023 until September 30, 2023. This listing is by no means an exhaustive list of all public service programming run during this period and the order in which it appears does not reflect priority or significance.

Please note that due to the Covid 19 Pandemic our studios have been closed for in studio interviews which has cut down on the availability of guests and consequently reduced the amount of local programming. This will hopefully be only a temporary situation.

Topic: Family Prayers

There are a few activities which can beat praying together as a family. Besides the obvious bonding which comes from this, it is a time when positive values can be taught. One prayer which can be done is the Rosary. Children can have their very own set of beads which can be colorful and fun. Topic: Flood Preparation

With the nightly news full of pictures of the devastation caused by flooding, Jonne takes a look at this deadly peril and has some tips for survival. First of course is to be aware of the potential in your area. Evacuate early if possible. Since floods can happen suddenly, if you are caught unaware get to the highest point of your home. If in the car, do not every try to cross a stream or river which has overflowed its banks. You do not know how deep the water ahead of you is. Your car can be swept away in seconds with you in it. If your engine dies stay put unless the water goes over the car. You may need to break a window to get out.

Best strategy is to not venture out during storms, but if you must, try to find a route with few trees along it. Perhaps take a break at a fast food place until the storm passes over.

Topic: Home Storms Preparation

Every family needs to have a plan for what to do if severe wind, thunder storms or a tornado hits their house. Number one is finding a safe place to hide. For tornados a corner of the basement is best. If your home has no basement then an inner room without windows is best. Make sure to have a good pair of shoes to protect against broken glass and debris.

Here in the Mid West we have entered storm season. Severe storms can quickly cause flooding. Never intentionally drive into moving water, however if you get stuck and feel your car being carried away you might open a window for escape, before your car dies. Otherwise you may have to break a window to get out.
