Quarterly Issues and Programs List
Q2 2022: April 1- June 30, 2022

SECTION 1: QUARTERLY PROBLEMS AND ISSUES

1. Economy – Housing Shortage & Gas Prices: The recent combination of Covid-19 and the war in Ukraine have affected not only the need for affordable housing, but now the added burden of \$5 per gallon gas prices. We kill two birds with one stone in attempting to solve these urgent economic issues.

2. The Coronavirus: We are happy to report that Covid 19 is no longer the most pressing problem and issue in this quarterly report. Meanwhile, Covid still affects the health of Cape Codders, and most certainly the lasting effects of the local economy.

3. Poverty – Hunger: There is an ongoing need to provide food and services to families across Cape Cod who live paycheck to paycheck, or who are challenged with work limitations. This quarter we'll discuss several campaigns that help feed and provide local families during the most demanding time of the year.

4. Health – Suicide/Mental Health/Dependency: Thousands of Cape Codders are currently living with various mental health challenges. We addressed the overall Mental health of Cape Codders numerous times during this quarter, seeking solutions and answers to improve daily lives.

5. Veterans Affairs- During these challenging times, members of the armed services have met challenges we address in Q2 of 2022.

6. The Environment – Health Effects- As a coastal community, we frequently address conservation, scientific research, and public safety as we navigate the adjacent nautical ecosystems of Cape Cod Bay, Nantucket Sound, Buzzards Bay, and the Atlantic Ocean.
