Quarterly Issues and Programs List
Q4 2021: October 1- December 31, 2021

SECTION 1: QUARTERLY PROBLEMS AND ISSUES

1. The Coronavirus: As of the publish date of this document Covid-19 has taken off again in Barnstable County, thanks to the Omicron variant. Even though over 70% of residents of Barnstable County are fully vaccinated, this pandemic has reached new heights and has broken more daily records. Even the author of this document here at Coxswain LLC is currently positive with the virus even though fully vaccinated and boosted. The radio stations of Coxswain Media have devoted various broadcasting efforts to inform its listeners where to get tested, vaccinated, boosted and how to continue to fight the fight. Our hope is that in future Quarterly Issues reports we will no longer need to list Covid-19 as issue number 1.

2. Breast Cancer: Interviews with The Massachusetts Breast Cancer Coalition that offer programs and information on a solving breast cancer once and for all in Barnstable County.

3. Mental Health – Child Abuse: Although a very sensitive subject to address on the radio, this ongoing crisis across Cape Cod faces challenges and obstacles. Childrens Cove is a local resource that gives victims hope and the help they need in supporting the healing process.

4. Addiction – Recovery: Unfortunately this emergency issue was with us before the Coronavirus and will be with us long after. Codcomm Inc. is committed to continue broadcasting programming that addresses opioid addiction and recovery options.

5. Poverty: There is an ongoing need to provide families across Cape Cod who live paycheck to paycheck, or who are challenged with work limitations. This quarter we'll discuss several campaigns that help feed and provide local families during the most demanding time of the year.

6. Economy – Housing Shortage:

7. Economy – The Blue Economy: The Cape Cod Chamber of Commerce and the Cape Cod Blue Economy Foundation have officially launched a new perspective on the Cape Cod Blue Economy Project that builds upon our blue regional identity and fosters responsible, sustainable economic development in our blue industries. This is our first journey into this ongoing local dilemma.

8. Environment – Animal Welfare: Cape Cod is a sanctuary of wildlife. The protection of endangered and indigenous species to our local area is an ongoing crisis we discuss this time around!

SECTIONS TWO: PROGRAMS:

CATEGORY / ISSUE – (5) Poverty & (1) Coronavirus

DATE OF SHOW – 10/2/21

LENGTH OF SHOW – 19:56
