New inflation numbers out Friday show the nation's economic pain has not peaked, and is still getting worse. The U.S. Labor Department reports consumer prices rose 8.6 percent in May from a year ago, marking the biggest increase in more than 40 years going back to December 1981. Michelle Singletary, a personal finance columnist for The Washington Post, joins Judy Woodruff to discuss the impact.

The Federal Reserve on Wednesday ramped up its efforts to fight inflation with a notable interest rate hike. Officials voted to raise rates by three-quarters of a point, a jump higher than expected just a week ago. Fed chair Jerome Powell acknowledged the ongoing rate hikes might slow growth later this year, as the Fed projected unemployment would rise to 4 percent by 2024. Paul Solman reports.
