ISSUES PROGRAMS LIST

Quarterly Issues Programs List for Station – KJMH

July 1st- September 30th, 2019

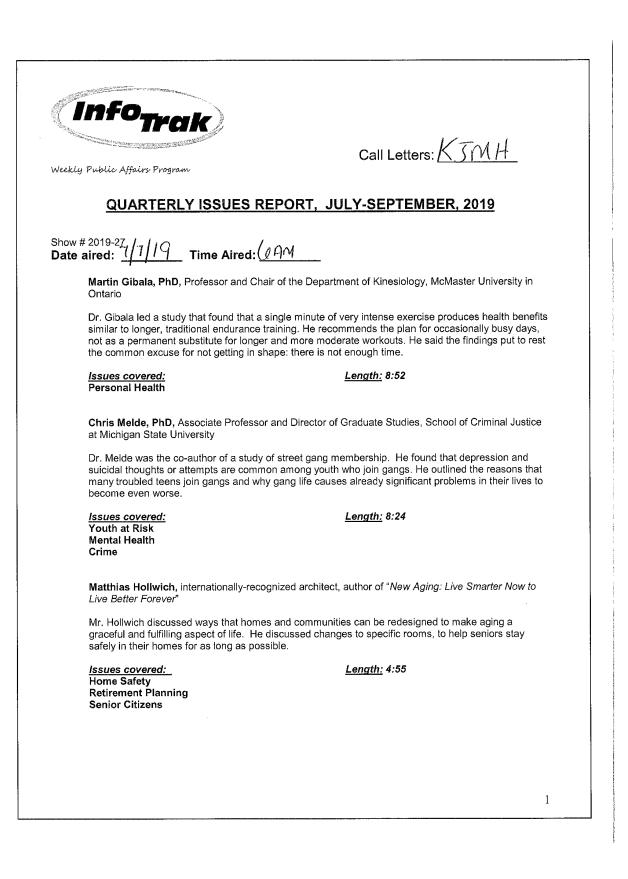

Section I. Issues

The station has identified the following issues as significant issues facing our community in this quarter:

- A. Personal Health: Louisiana has the fourth highest adult obesity rate in the nation. The Current adult obesity rate is 36.6% with 42.9% obesity rate between the ages of 45-64. Lake Charles has a significant rise of deaths due to poor diet and obesity issues with young adults and senior citizens.
- **B.** Mental Health & Crime: Lake Charles has had a rise in death due to suicides in young teens and adults. This has been spearheaded by social media platforms and online bullying in the area. According to the National Alliance on Mental Illness, over 40 million adults experience mental illness every year. Suicide is also the third leading cause of death in youth ages 10-24
- **C.** Home Safety: The Bureau of Fire Prevention is a part of the Lake Charles fire department which provides fire prevention services to the community. They have enlisted the services of the local Red Cross to distribute fire alarms to home of the elderly and homes that are missing them.
- **D. Crime Prevention:** Lake Charles has send an overly increase of crimes in the city. There have been 638 violent crimes and 3,544 property crime bringing the total of 4,182. We are currently ranked 4 for being safer then 4% of the U.S. Cities with 100 being the safest.
- **E. Parenting Issues:** There are 16,904 single parent household in Calcasieu Parish. In Lake Charles these single parent homes are being ran by a parent who is working a job with demanding hours that are at times in the overnight hours. Lake Charles has a curfew for children at 10 pm nightly, however there are many cases where this is not honored as most single parent households have no adult supervision in the home at these hours.

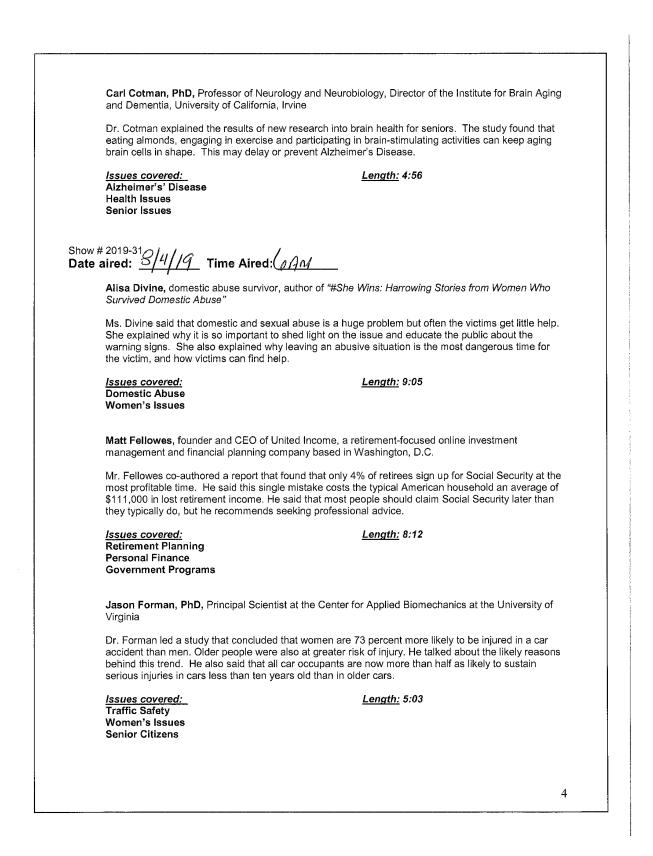

Section II. Responsive Programs

The responsive program is titled "Infotrak", which airs weekly on KJMH 107 JAMZ in a 30-minute segment airing at 6 am Sundays. A comprehensive summary of that program is presented below:

	nternational Centre for Research in Forensic Psychology, University
of knowledge and skill of experien	ly of the behavior of burglars. She discussed the surprising degree ced thieves in choosing which home to target, how to navigate

Joseph Palamar, PhD, Associate Professor in the Department of Population Health at the NYU School of Medicine Prof. Palamar led a study that found that teenagers are more likely to experiment with recreational drugs such as LSD, marijuana, cocaine or ecstasy for the first time during the summer months. He said that the amount of free time on their hands once the school year ends and activities like music festivals are major factors in this risky behavior. He said parents should educate and warn their kids about using recreational drugs, their risks and side effects. Issues covered: Length: 4:53 Drug Abuse Youth at Risk Show # 2019-35 _ Time Aired: (0 AM Date aired: Leslie Stahl, longtime reporter for 60 Minutes, author of "Becoming Grandma: The Joys and Science of the New Grandparenting" Ms. Stahl discussed the profound changes and emotions experienced when someone becomes a grandparent. She talked about the physiological changes that occur in women when they have grandchildren, and the therapeutic effects of grandchildren on both grandmothers and grandfathers. She also explained how heartbreakingly common it is for grandparents to be denied access to their grandchildren. Issues covered: Length: 9:15 Family Matters Senior Citizens Kevin Kelly, co-founder and former executive editor of Wired magazine, author of "The Inevitable: Understanding the 12 Technological Forces That Will Shape Our Future" Mr. Kelly discussed twelve technological imperatives that he believes will shape the next thirty years and transform our lives. He is optimistic about innovations, from virtual reality in the home to an ondemand economy to artificial intelligence embedded in everything we manufacture. He offered advice to young people who are plotting educational and career paths in a rapidly-changing tech environment. Length: 7:55 Issues covered: Technology Education Privacy Career Edward G. Brown, author of "The Time Bandit Solution: Recovering Stolen Time You Never Knew You Had" According to Mr. Brown, 40 to 60% of time at work is squandered by time bandits-co-workers who demand precious time without thinking. He offered suggestions on how to negotiate with time bandits to prevent unwanted, unnecessary and unproductive interruptions. Issues covered: Length: 5:04 Workplace Matters Productivity 7

Amy Serin, PhD, neuropsychologist, author of "The Stress Switch: The Truth About Stress and How to Short-Circuit It" Dr. Serin discussed the increasing levels of stress in today's everyday life, and the most common causes of it. She said excessive use of social media can trigger insecurities and depression. She said most of the time, people aren't even aware that they are stressed. She outlined steps to take for stress relief. Length: 8:04 Issues covered: Mental Health Hank Green, YouTube star and STEM education proponent Jobs related to STEM - science, technology, engineering and mathematics - are expected to continue growing, but the United States doesn't have enough workers with the skills to fill those roles. Mr. Green explained why STEM skills are so important for the future workforce, and how parents can encourage their youngsters to pursue STEM careers. Length: 5:02 Issues covered: Education Employment Parenting Show # 2019-38 $\frac{1}{22}$ Time Aired: $\frac{1}{22}$ Maria Russo, Children's Books Editor of the New York Times Book Review, co-author of "How to Raise A Reader Ms. Russo explained the importance of child literacy, and the steps parents can take to raise a reader in an age when screens are competing for a child's attention. She said any form of book is fine, including audio books, graphic novels and comic books. She explained why it is important to begin reading to children at the youngest age possible, and offered ideas on how to engage a reluctant reader. Issues covered: Length: 9:22 Literacy Parenting Education Barbara Hemphill, founder of The Productive Environment Institute, former President of the National Association of Productivity & Organizing Professionals, author of the "Taming the Paper Tiger" book series by Kiplinger's, and the more recent book is "Less Clutter, More Life." A recent study found that business owners, executives and entrepreneurs waste 21.8 hours a week on everything from internet surfing to useless meetings. Ms. Hemphill said the biggest productivity black hole for anyone is e-mail. She outlined the reasons that people lose focus at work and steps they can take to be less distracted. Length: 8:01 Issues covered: Workplace Matters Productivity 9

Rebecca Bigler, PhD, Professor Emeritx at the University of Texas at Austin Prof. Bigler was part of a team of researchers that sought to learn more about the political development of the nation's children. The study found that children demonstrated a surprisingly high level of interest in and knowledge about the most recent presidential election and candidates, but many had gaps in their knowledge. She offered advice for parents to help their children learn more about civics and the election process, particularly heading into the next presidential election. Length: 5:11 Issues covered: **Civics and Citizenship** Parenting Show # 2019-39 129/19_ Time Aired: (0 A M Date aired: Caitlin M. Zaloom, PhD, Associate Professor of Social and Cultural Analysis at New York University The average annual price tag for attending a private, four-year American college is now nearly \$50,000. Prof. Zaloom led a study that found that paying for college is taking a toll on middle-class families in ways that are more profound and less appreciated than even the financial cost conveys. She said that shouldering the weight of paying for college is often seen by parents as a moral obligation to their children. Length: 9:34 Issues covered: Education **Personal Finance** Parenting Bridget Freisthler, PhD, Professor of Social Work at Ohio State University 54 percent of adults who use marijuana in the United States are parents. Prof. Freisthler led a study that found that parents who use marijuana utilize more discipline techniques on their children on average than non-users, ranging from timeouts to, in some cases, physical abuse. She found that the same was true of alcohol users. She said that with the growing acceptance of marijuana in American society, users need to be aware that the drug affects numerous forms of behavior, including parenting. Length: 7:30 Issues covered: Substance Abuse Child Abuse Parenting Tracy McCubbin, author of "Making Space, Clutter Free: The Last Book on Decluttering You'll Ever Need" Ms. McCubbin talked about the value of teaching organization skills to children during back to school time. She offered numerous tips for parents to clear the clutter as kids start the new school year, including how to decide what to donate or discard, and the importance of an organized desk.
