0:34	4/1/2019	11:08p	accidents and Disasters	when your engine suddenly quits and you can't make it to a runway, a road is the next best option. there you saw the guy do just that. that was the case for a pilot this morning when he put down his single engine plane on this long beach street, safely avoiding cars, power lines, and of course people.
0:37	4/1/2019	11:09p	accidents and Disasters	several people hurt after a car crashed into the side of a carl's jr. in huntington park this afternoon. you can see it's almost all the way into the restaurant. we covered this as live breaking news at 4:00. two people were hurt and hit inside the car.
0:33	4/2/2019	11:15p	accidents and Disasters	new tonight, we have some amazing video of police officers rescuing a dog hanging from a roof. one officer jumped into action here, but needed a little backup. it's okay, buddy. give me your knife. this dog had fallen off the second floor balcony of this apartment in cleveland, had its collar stuck there.
0:34	4/2/2019	11:15p	accidents and Disasters	right here. right here. and listen to this. officers had to coax a man to jump from the second floor when his apartment building caught fire in utah. now, when he wouldn't come down, police drove through a fence, pulled up alongside of the building, and then pulled the guy out.
0:41	4/2/2019	11:16p	accidents and Disasters	imagine you're driving to work when a large concrete stake suddenly flies right through your window and into your arm. that's what happened to michael kramer on monday in tucson, arizona. there was like an explosion inside my truck. it must have just been coming straight in like a bullet because, you know, it left a fairly small hole in the windshield.
0:19	4/2/2019	11:17p	accidents and Disasters	an ambulance racing to a medical emergency becomes the emergency in new york. the truck sideswiped car as it was turning left, ended up on the sidewalk there, hitting a pedestrian.
2:26	4/3/2019	11:05p	accidents and Disasters	new at 11:00, some terrifying moments when a car bursts into flames as the family drives onto the 110 freeway in south los angeles. kia is investigating and recalling other models for the same thing. nbc4's robert kovacic tonight is in the newsroom with how the family got out just in time. robert? chuck, first we want to make it very clear that the car driven by the woman you're about to meet is a 2015 kia forte. it is not one of the models under investigation for spontaneous fires. however, the cell phone video she's given to nbc4 seems to indicate that is exactly what happened on one of our local freeways. they were all in the car, jessica hernandez was driving. her mom, her 16-year-old son and the man who kept them safe. my boyfriend shouted, get out, get out. i can see people flagging us down to get out by then. reporter: there on the side of the northbound 110 on saturday after the car had suddenly stalled and filled with black smoke from the air vents, jessica's white kia forte was on fire.

0:28	5/29/2019	11:18p	transportation	chances are you've dropped a little coin at the airport in the security line, maybe a penny or two or more. well, apparently all of that change adds up. the tsa collected \$960,000 worth of change from plastic bins at airports all across the country last year.
0:30	5/29/2019	11:19p	transportation	do you have what it takes to be a safe driver? if you can prove it, you can win about \$70,000 in cash and merchandise. the city of los angeles is holding a competition for the next eight weeks to find the safest drivers in l.
1:58	5/31/2019	11:05p	transportation	a freeway closure is expected to cause big headaches for late night and early morning drivers in orange county. nbc4's hetty chang live right now in westminster where that overnight work is just getting under way. hetty? reporter: yeah, colleen. behind us here are the northbound lanes of the 405 freeway. there's no traffic on those lanes because at this point they are completely shut down. we're getting a really good view of the overnight crews here. a lot of work happening. they're getting ready to demolish that overpass. we found traffic friday night light earlier this evening. call it the calm before the closure. it's just going to be pretty intense. reporter: intense or tense is a better way to put it. now until 8:00 tomorrow morning, the 405 free way near westminster boulevard will be shut down.
0:42	6/3/2019	11:18p	transportation	and parking, it is no longer free for some metro riders. as of today, metro is charging \$3 a day or \$59 a month to park at the arcadia and duarte gold line stations. the parking lots there. metro officials say people who are not metro commuters were taking up the free parking spaces. reaction, as you might expect, is mixed.
2:30	6/5/2019	11:00p	transportation	we've got breaking news at 11:00. lax is in the dark. an airport-wide power outage tonight leaves travelers without power, affecting everything from lighting to the jetways, from terminals to planes. our live airport camera shows the iconic pylons. they're finally back on after about five hours but traffic on the upper and lower decks is still a mess. even though power has been restored, at least one airline has canceled its flights for the night. nbc4's beverly white is outside terminal 6 with some of the troubles caused by this outage. reporter: southwest has canceled all remaining outbound flights in the wake of tonight's so-called power bump. united diverted eight and held 11 flights for takeoff. l.a.x. operations tells us tonight the ground stop is officially over. arriving passengers raced between terminals 6 and 7 to locate their luggage as power outages disabled baggage carousels and other vital parts of l.a.x. you're walking through. there's an alarm going off, and we're in the other terminal, and i mean people are freaking out.
0:29	6/5/2019	11:05p	transportation	new at 11:00, an alaska airlines worker is caught on camera tossing luggage off a plane. some of the pieces of luggage hitting the ground and bouncing. the passenger on another flight at l.a.x. is the one who recorded the video.
0:41	6/5/2019	11:17p	transportation	cycling on the freeway. cell phone video here captured a man casually riding his bike in the center lane of the 101. he was spotted doing this monday, making his way through rush hour traffic near highland. the highway patrol got several calls about a bicyclist popping wheelies and riding recklessly, but by the time officers showed up, he was gone.

<u>Length</u>	<u>Date</u>	<u>Time</u>	<u>Category</u>	<u>Story</u>
0:53	6/6/2019	11:08p	transportation	right now, crews near l.a.x. are working to repair a damaged power line that caused the may know outage at the airport last night. here's a live look at l.a.x. it is a lot calmer than the chaos we saw overnight with long lines and an evacuation of one of the terminals. many passengers were forced off their flights and then got kicked out this morning after the tsa says southwest airs gave passengers their checked bags in the secured area only to have them get rescreened.
0:24	6/6/2019	11:10p	transportation	krookus on a widening project. one lane will be added in each direction. the project cost more than \$500 million. funding will mostly come from the measure and tax increase.
2:03	6/12/2019	11:06p	transportation	now new at 11:00 a driver who appears to be asleep at the wheel on the 405 freeway. the man in the car next to him couldn't believe what was happening, so his passenger reached for a cell phone and shot this dozing driver video. nbc 4s hetty chang tonight talked with the man in westminster. hetty? reporter: yeah, chuck, it was right around here on the 405 freeway near the westminster mall where that concerned driver called 911 to report what he had been seeing. now, he tells us this wasn't a case of a driver just dozing off for a few seconds. he believes that driver was asleep at the wheel for at least half an hour. i've seen it on the news before. i just couldn't believe that i was actually seeing it. reporter: shawn says his passenger shot this video on the drive from san clemente to san pedro yesterday morning. for at least 30 miles on the 405 he says the tesla was moving but the driver -- maybe five minutes before i realized he was just fully sleeping.
0:29	6/12/2019	11:19p	transportation	there's a new list out, and it ranked the nation's airports, and it has southern california home to both the best and they say the worst. fodor's enaugust ral travel awards names the hollywood burbank airport the best because of its accessibility, hassle-free experience and affordable parking.
0:29	6/13/2019	11:33p	transportation	now, if you think traffic is bad now at lax just wait because the airport is going to shutdown lanes on the arrival level, that's the lower deck starting tomorrow. they're closing three of the inner traffic lanes between 12:30 to 6:30 a.
0:27	6/18/2019	11:16p	transportation	new at 11:00, as more states legalize weed, an alarming number of americans is driving high. a new aaa study released just tonight found nearly 15 million people got behind the wheel within just one hour of smoking last month.
2:18	6/24/2019	11:08p	transportation	now for the first time, nbc 4 has learned l.a. city attorney mike furer will announce tomorrow he's suing the faa over changes in flight patterns at lax, affecting residents in central l.a. and mid city. and he knows other communities are impacted by other airports. hundreds of thousands of complaints. it is an onslaught. we've had so much excessive noise. that my kids can't even go out and play anymore. there are times that it's so noisy i can't talk on the phone. reporter: the city of l.a. is talking on the faa. i think our fundamental goes needs to be to disburse these fighting no. community should be unduly burdened by a concentration of these flights. reporter: the faa made changes without public input and without environmental review. and he's not just concerned about lax. there's more the faa can do on both sides of the hill. some of them fly so low, i can almost make out the passenger's faces. reporter: even before the lawsuit nbc 4 was talking to the faa about these issues.

<u>Length</u>	<u>Date</u>	<u>Time</u>	<u>Category</u>	<u>Story</u>
0:34	6/24/2019	11:15p	transportation	air canada now investigating how crew members got off their plane, not knowing a passenger was still sleeping in her seat. she said she woke up from a mid flight nap and found herself all alone, trapped on an empty plane. it happened after air canada flight landed in toronto on june 9th.
2:16	6/25/2019	11:05p	transportation	new at 11:00, a family getting ready to board a plane had a scare even before they got in the air. traveling with a severely disabled child, the seats that they needed and paid extra to get were gone. robert kovacic tonight is outside lax with their flight before the flight. robert? reporter: how about this, chuck. the father of this child just so happens to work as a special needs family advocate. and he tells nbc 4 the irony is not lost on him that he was suddenly fighting for his own family. any parent knows it's not easy flying with two young children, especially this dad. i went out of my way to purchase extra leg room seats. reporter: paying \$475 for a five-hour plus flight from lax to philadelphia, with a handicap child. but when eric checked in online, the family's four seats were reassigned. they just chalked it up to equipment change, which i can understand and respect, but the fact that we paid so much and we were pushed all the way in the back of a full flight with a severely impaired child.
0:26	6/28/2019	11:16p	transportation	you might want to fill up your tanks before monday because that's when california's latest gas tax increase will kick in. you'll be paying an additional six cents a gallon. it's the second phase of the gas tax that was passed in 2017.
