## A Sampling of Listener Comments

### TWITTER

@JMothershed: "Researching the props & measures for this election is not easy & it takes time. The My Ballot tool on the @KPCC website is invaluable help."

@EgTwaddle: "Great service @KPCC. Jury duty showed me the big role judges play in our system; I've always hated voting blind." (on our Meet the Judges series)

@celenevictoria: "Just became a sustaining member of @KPCC! Their fantastic team did an awesome job on 2016 election coverage (plus, THEY GAVE ME SOCKS)."

@DelilahBath: "I just contributed 5 dollars a month, a very poor sum. When I am more financially stable I will up it. Their CA ballot covg was amazing."

Re: The Frame

[Hoffmann Janice: "https://www.scpr.org/.../.../10-moments-women-slayered-tv-in-2016/](https://www.scpr.org/.../.../10-moments-women-slayered-tv-in-2016/)

Thanks to this article, I did some serious binge-watching recently. Was I under a rock? I am working my way through the list, loved the first three, and would have missed them completely, had I not read this article. Thanks to the author, and congrats to John Horn and The Frame for a fabulous year."

Terry Okey: "Huge thanks to KPCC for all the great election coverage over the last few months! Three cheers!"

### VOICEMAILS

"Yeah I'm an avid listener and contributor and your live stream is really screwed up and it has been for a couple of weeks. It's worse than commercial broadcasting . . . something kicks in all the time and plays another add. . . and also I've had trouble with your broadcast being very week lately so your tech team may want to have a look at that."

Scott Horsely says that there's no evidence that elections are rigged. Ask Bernie Sanders that, ask Elizabeth Warren. They've been talking about rigged systems for the last year and a half. Of course there's rigging. They chose Hillary Clinton. There was no democratic process in the democratic primary. There was a lot of evidence of that, just because you say there isn't. . . be objective!

My name is Molina I have an address in Glendale & I've been a supporter for public radio for many years. I cannot tell you how disappointed I was that I was listening to the program, president Obama giving a press conference, and the station drop it for some other talk show which I think is still on now -- and didn't finish the end of his press conference. But luckily CBS radio did. That's appalling . . . I can't believe that the public radio did not cover that! My goodness! Thank you, goodbye.

Yeah, your presentation of when Ari Shapiro was talking to the gentleman that was in the Pulse night club completely intellectually dishonest, completely farsical. The fact is that Donald Trump doesn't have one bit of opposition to the gay community. Further there wasn't one mention . . . that the shooter at the Pulse nightclub was gay. It wasn't people that were fearing gay people it was a gay person that shot 42 people. And as long as your station continues to lie and divide, and treat people in this divisive manner and act like you're trying to be uniting, you will fail. You don't have one right to be using public money to lie. That isn't journalism. That's propaganda and its untrue. Quit trying to divide. And while you're at it why don't you mention that Barack Obama in 2012 said that marriage is between one man and one woman, so did Hillary Clinton. People are pathetic, when you don't have anything to go on you start playing the race card, the gender card, the orientation card, the religion card. You're full of it!"

"Good morning, I was listening to KPCC this morning and I heard the heart breaking news of p39 and the tragic accident of her being hit on the 118 Freeway. Sorry, this just makes me so emotional . . . . They said that they weren't sure about the cubs and I was just wondering if they were following up on that . . . . this is such heart breaking news to me. Take Care, thanks"

## EMAILS

Now I understand why KPCC dropped the "No Slant" slogan. Using the silly and slanted euphemism "unauthorized immigrants" to describe illegal aliens on Take 2 today shows KPCC's editorial determination to present only one side of that debate.

Can we get Larry on Air Talk to cover one of the 17 propositions on the Cal ballot everyday until he's covered all of them? Thanks <3

Rob,

I stumbled on KPPC several months ago.

It became my permanent channel.

Love it.

However, I do think it leans a little to the left.

But, I can live with it.

Regards,

Thank you very much for your online voter guide. It was very helpful!
