

WRSE-FM, Elmhurst, IL

Quarterly Issues Programs List - WRSE-FM
Third Quarter 2020 (July 1 – September 30, 2020)

Section I. Issues

- **Public Service Campaign** - WRSE aired public service announcements to spread awareness of issues such as COVID-19, alcoholism, and premature baby life expectancy.
- **Vocalo** - The Morning Amp airing on Vocalo gives a voice to Chicago's underrepresented cultural and social movements.
- **Deutsche Welle** - Programming from Deutsche Welle covers environmental issues and human impact on the world, as well as social issues from around the world.

Section II. Responsive Programs

- **Public Service Campaign** - WRSE aired PSA's provided by the National Association of Broadcasters twice an hour each day. These announcements included information to lessen the spread of the Covid-19 virus within the community - through social distancing and general hygiene. As well as COVID-19 PSAs, WRSE also ran announcements to raise awareness for Al-anon, a mutual aid group for recovering alcoholics, as well as for March of Dimes. These public service announcements aired all throughout the months of July-September.

- **Vocalo** - Airing daily from 8-10am, the Morning Amp delves into the untapped world of Chicago's arts and culture scene. Interviews with local artists and community leaders explore the Chicago community and provide a space for voices to intersect that isn't traditionally part of the radio spectrum. This provides our listeners with a chance to explore a side of Chicago they may not know and learn more about the communities they interact with.
- **Deutsche Welle** - Programs from Deutsche Welle include Science Unscripted, World in Progress, and Living Planet. These 3 programs air in a 1 hour 3 minute block from 10am to 11:30am on Saturdays. Science Unscripted is a science news show that informs the listener of new studies and developments in the scientific world. World in Progress showcases global news through the lens of the interconnected causes and effects these news stories contain. Living Planet is an educational radio show aiming to inform the listener about environmental aspects of the world.
