

**WVPT/WVPY Quarterly List of Programming  
Providing the Most Significant Treatment of Community Issues  
("Issues List")**

**4<sup>th</sup> Quarter 2013  
October 1, 2013 – December 31, 2013**

In the past quarter, WVPT continued in its longstanding efforts to provide programming on issues of concern to our community. These issues include those concerning public policy, politics, community current events, the economy, and national developments of a local and regional 40 county coverage area.

The programs that provide the most significant treatment of community issues are described below. The remainder of the Issues List consists of:

- A brief description of each issue addressed by WVPT in the preceding quarter; and
- The titles of the programs that provided the most significant treatment of these issues, as well as a description of each program (including its airdate, the time at which it aired, and the duration of the program).

Program	Day	Time	Description

Sun 10/06/2013 2:00 PM INTELLIGENCE SQUARED #104H

Corruption and a growing concern for head injury have put college football in the spotlight. Are football programs' millions in profits exploitation? Or are they still a celebration of amateur sport? Does football's inherent danger and violence have any place in institutions of higher learning? Or does it provide young men with educational opportunities they would not otherwise have?

Sun 10/06/2013 3:00 PM SMARTEST TEAM: MAKING HIGH SCHOOL FOOTBALL

Head injuries in youth and high school football pose daunting challenges, ones that sensational media coverage has many parents believing are insurmountable. Add in a culture resistant to change, too many coaches still teaching players to block and tackle using their heads, players unwilling to report concussions, and a sport in which, despite new laws, new technology and new tests, concussion identification and management remains haphazard, and parents are left wondering what can be done to improve safety.

Tue 10/08/2013 9:00 PM FRONTLINE-LEAGUE OF DENIAL: NFL's CONCUSSION CRISIS

The National Football League, a multibillion-dollar commercial juggernaut, presides over America's indisputable national pastime. But the NFL is under assault as thousands of former players and a host of scientists claim the league has covered up how football inflicted long-term brain injuries on many players. In a special investigation, FRONTLINE and prize-winning journalists Steve Fainaru and Mark Fainaru-Wada of ESPN reveal the hidden story of the NFL and brain injuries, drawn from their forthcoming book *League of Denial: The NFL, Concussions and the Battle for Truth* (Crown Archetype, October 2013). What did the NFL know and when did it know it? What's the truth about the risks to players? What can be done? The FRONTLINE investigation details how, for years, the league denied and worked to refute scientific evidence that the violent collisions at the heart of the game are linked to an alarming incidence of early onset dementia, catastrophic brain damage, death, and other devastating consequences for some of football's all-time greats.

Tue 10/08/2013 23:00:00 SIDELINED: CONCUSSIONS IN SPORTS

On *Sidelined: Concussions in Sports*, we'll meet high school athletes and former NFL players struggling to recover from concussions. We'll also discover how medical experts in our region are finding new ways to identify and treat brain injuries, while coaches, lawmakers and doctors seek new ways to protect athletes from injury. It's an insidious and devastating injury affecting athletes across the spectrum of sports. Modern research is revealing how concussions do long-term damage to memory and cognitive thinking.
