POTUS 2016 #107H  
SERIES  
Anchored by public radio's Peabody Award-winning host Brian Lehrer, POTUS 2016 is already airing in the New York region where it is helping to satisfy the large appetite that public television viewers have for serious election-related coverage. While The Newshour and Washington Week do excellent segments on the campaigns, we have found viewers seek more, and something different from the commercial network offerings which they find shallow, sensationalist and unsatisfying to their sensibilities. POTUS 2016 is unique for being a regularly scheduled program solely devoted to the campaign season: The program has a rotating group of regulars who know Brian Lehrer well from previous radio and TV appearances. Among those to be invited for 2016 appearances: Steve Forbes, Editor-in-Chief Forbes magazine; Gail Collins, New York Times Columnist; Ta-Nehisi Coates, Senior editor for the Atlantic; Law Professor Zephyr Teachout, campaign finance expert and former gubernatorial candidate, Mark Hugo Lopez of the Pew Research Center. We will also invite thinkers outside the political arena such as author Malcolm Gladwell.

#### RAISING MS. PRESIDENT #000H

##### DESCRIPTION

Women make up more than half of the American population and workforce. Yet, the United States only ranks 97th out of 190 countries when it comes to the number of women in elected office. According to research conducted by Jennifer Lawless, director of the Women & Politics Institute, and Richard Fox, political science department chair at Loyola Marymount University, women are less likely than men to run for office, and often consider themselves under-qualified to serve, despite their success in business and education. In the documentary RAISING MS. PRESIDENT, filmmaker Kiley Lane explores why more women don't run for office. Through interviews with elected officials, scholars, high school students and leaders of two nonprofits dedicated to raising the next generation of female leaders, the program investigates where political ambition begins and why society should encourage more women to lead. Interviewees include Anne Moses, founder of IGNITE; Senator Lisa Murkowski, Republican of Alaska; Tiffany Dufu, former president of the White House Project; Melissa Deckman, professor of public affairs at Washington College; Susannah W. Shakow, founder of Running Start; Emiliana Simon-Thomas, cognitive, affective and behavioral neuroscientist at UC Berkeley; and Amanda Adkins, GOP state chair, Kansas; among others.

#### ADMISSIONS ON TRIAL: SEVEN DECADES OF RACE AND HIG #000H

##### DESCRIPTION

At many universities, race helps determine who's admitted. But a Supreme Court case could soon end that nationwide. We trace this issue from 1946 to today, and examine what race-blind admissions might look like. Activists, lawyers, university officials, students, and people who fought segregation discuss what diversity means, whether it matters, and how we should-and shouldn't-be able to seek it.

#### DESIGNING WITH NATURE: THE PLAN FOR THE VALLEYS

A vivid portrait of the Valleys Planning Council, a citizen-led non-profit organization, and the brilliant work of Ian Harg, a talented landscape architect. McHarg, along with a team of consultants, penned a landmark land preservation plan back in the early 1960s. The Plan for the Valleys was one of the first land planning documents to use ecology as the central theme. Vintage footage highlights the entertaining McHarg, as well as interviews with a variety of characters involved in the organization over five decades. The film skillfully and beautifully documents the success of smart growth: a stunning, rural countryside that supports outstanding agricultural and equine industries that pay

enormous dividends to current and future generations in terms of both a healthy economy and healthy environment. The film also serves as a wonderful testament to citizen action and visionary planning.

#### POV 2703

Who better to cover the Paralympics, the international sporting event for athletes with physical and intellectual disabilities, than Niko von Glasow, the world's best-known disabled filmmaker? Unfortunately -- or fortunately for anyone seeking an insightful and funny documentary -- this filmmaker frankly hates sports and thinks the games are "a stupid idea." Born with severely shortened arms, von Glasow serves as an endearing guide to London's Paralympics competition in "My Way to Olympia." As he meets a one-handed Norwegian table tennis player, the Rwandan sitting volleyball team, an American archer without arms and a Greek paraplegic boccia player, his own stereotypes about disability and sports get punctured.

#### HISTORIC GREEN VILLAGE: GENERATING THE FUTURE, TREASURING THE PAST

HISTORIC GREEN VILLAGE: Generating the Future, Treasuring the Past is a 30-minute documentary that explores how the Historic Green Village on Anna Maria Island, Florida has become a showcase for sustainable living, electrical generation and water conservation by recycling and renovating historic buildings in the area. Mike and Lizzie Thrasher ran a highly successful baby food company in their native country of Britain. They vacationed on the idyllic barrier island of Anna Maria in South West Florida. They fell in love with the area, sold their business and used the proceeds to develop a real estate business in Anna Maria. Their showcase location is the Historic Green Village in the heart of the community. The village consists of two original remodeled buildings, one new building and two homes that were moved to the site from different parts of the island. The Thrashers had two major goals for the project: to become LEED Certified Platinum and to have a Net Zero Campus. What does all this mean? The buildings would use as little electricity as possible, generate their own electricity, adhere to strict environmental usage of water, and be part of a community that has a limited impact on the environment. They had many challenges along the way including having a bakery and a cafe on site which are both heavy power consumers.

#### POV

Call this old age, extreme edition: Eight players with 703 years among them compete in the Over 80 World Table Tennis Championships in China's Inner Mongolia. British players Terry, 81, who has been given a week to live, and Les, 91, a weightlifter and poet, are going for the gold. Inge, 89, from Germany, has used table tennis to paddle her way out of dementia. And Texan Lisa, 85, is playing for the first time. "Ping Pong" is a wonderfully unusual story of hope, regret, friendship, ambition, love - and sheer human tenacity in the face of aging and mortality. By Hugh Hartford and Anson Hartford.

#### SHIFTING SANDS: ON THE PATH TO SUSTAINABILITY

For more than a century, North America's giants in manufacturing (US Steel, Standard Oil and Bethlehem Steel) and preservationists battled over a 47-mile stretch of sandy shore along Lake Michigan that contains one of the most diverse ecosystems on the planet-the Indiana Dunes region. While the factories provided jobs and contributed to the community's economic growth, they also wiped out a tremendous amount of rare habitat, and polluted the waterways. In SHIFTING SANDS:ON THE PATH TO SUSTAINABILITY, the hour-long documentary takes a look at the decades-long effort to create the Indiana Dunes National Lakeshore amid the presence of heavy industry along Lake Michigan. It also highlights the collaborative effort to clean up and restore the region. The clash over the Indiana Dunes-considered to be the birthplace of ecological science in North America-would lead to the creation of public policy with worldwide impact, and it would give the United States one of its first urban National Parks. Today, that decades-old battle has transformed into a new model of cooperation, where industrialists and environmentalists, once bitter adversaries, are now working together to steer this community toward sustainability.

#### SUPER BRAIN WITH DR. RUDY TANZI

SUPER BRAIN is a program exploring new discoveries in neuroscience that maximize the potential of the human brain in practical and actionable ways. The field of neuroscience has been exploding with new findings by the day. Ever since it became possible to view the human brain as it lights up with activity, researchers have had to change long-held assumptions about an organ that has been called "the three-pound universe." Dr. Tanzi is introduced by his co-author Dr. Deepak Chopra. In his new program, SUPER BRAIN, Harvard Medical School professor Rudy Tanzi takes advantage of cutting-edge research to show the way we all can maximize our brain's potential. He crosses the next horizon in brain functioning where every person can reach a much higher level of fulfillment and achievement by harnessing the brain's hidden potential for change, creativity, and intelligence. "Super brain" isn't an exaggeration or a speculation by futurists. The program will dispel many long-held myths including that aging in the brain is irreversible and the brain's hard wiring cannot be changed - Dr. Tanzi explains and demonstrates new techniques for keeping the brain youthful and retaining mental acuity as we age.

#### SUZE ORMAN'S FINANCIAL SOLUTIONS FOR YOU

We all have financial issues and problems. Suze Orman's latest special sharply focuses on her helping individual viewers "find financial solutions for you." As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others.

#### FOR THE LOVE OF THEIR BROTHER

FOR THE LOVE OF THEIR BROTHER is the heroic story of New York firefighter Stephen Siller, who died on 9/11, and his loving family, who were determined to honor his life. As a way to trace Stephen's last steps through the Brooklyn Battery Tunnel to Ground Zero on that fateful day, his six older siblings created The Stephen Siller Tunnel to Towers Run, a 5K race that has grown exponentially since it first began in 2002. In that inaugural year, there were 1,500 runners. By 2013, there were 25,000 participants, with more than \$50 million raised and distributed to orphanages and firemen burn units. In addition, a portion of the funds raised was directed into building smart homes for wounded service members from the Iraq and Afghan wars via the Tunnel to Towers Foundation. Through archival footage and radio dispatches from 9/11, and interviews with Siller's family, Senator Chuck Schumer, former New York City mayor Rudy Giuliani, and retired New York police detective Daniel Rodriguez, FOR THE LOVE OF THEIR BROTHER chronicles Stephen's life, recounts the day his family's life changed forever, and highlights how they turned heartache into heroism.

#### IN OUR SON'S NAME

Phyllis and Orlando Rodriguez's lives shatter with the death of their son, Greg, who dies with thousands of others at the World Trade Center on September 11, 2001. Instead of seeking revenge, the grieving couple begin a journey of reconciliation that transforms their lives. Their odyssey thrusts them reluctantly into the public eye as they speak out against war in Iraq and Afghanistan, oppose the death penalty for 9/11 conspirator Zacarias Moussaoui, and befriend his mother. Seeking to understand the nature of violence, Phyllis and Orlando engage in an emotional dialog with men incarcerated at Sing Sing prison for violent crimes, who themselves seek reconciliation. Over time they reach a new understanding of their rebellious son. Interviews, verite footage, and striking archival images create a subtle, profound story told with disarming candor -- a response to violence that challenges conventional concepts of justice and healing. Shadd Maruna, Dean of the Rutgers University School of Criminal Justice said about the film: "I watched this powerful and healing documentary in a lecture theater filled with utterly transfixed undergraduates - literally the 9/11 generation - and you could have heard a pin drop in the room. None of us could help but be moved, even transformed, by Phyllis and Orlando's remarkable courage and dignity."

AMERICAN GRADUATE DAY

AMERICAN GRADUATE DAY 2016 is a four-hour, live broadcast and outreach event dedicated to engaging our country around the dropout crisis with special celebrity guests, relevant spokespeople and compelling stories from the students themselves. At its core, it will preserve the same broadcast themes as last year's AMERICAN GRADUATE DAY, leveraging a unique production and community engagement model both locally and nationally. AMERICAN GRADUATE DAY 2016 will once again be broadcast from the Tisch WNET Studios at Lincoln Center in New York City. The broadcast is scheduled for September 17, 2016 to coincide with SPOTLIGHT EDUCATION week on PBS -- a special week of programming on education issues (complete schedule to be announced). The broadcast's primary theme will be mentorship -- telling the story of Community Partners and how they provide support, advice, and intervention services to at-risk students, families, and schools. As in years past, the most important element of AMERICAN GRADUATE DAY 2016 is the participation of community-based organizations (Community Partners) doing exceptional work to combat the dropout problem. The theme of mentorship will be applied to a variety of pertinent topic strands related to addressing this crisis including Early Education, More & Better Learning, Special Needs, STEAM, Dropout Prevention and Re-engagement, and Career Readiness & College Completion. The topic strands will thematically link stand-alone segments, which will feature a dynamic mix of long-form programming, live interviews and pre-taped features that tell the story of Community Partners and how they provide support, advice, and intervention services to at-risk students, families, and schools. Additionally, celebrity guests involved in education advocacy will be featured throughout the broadcast encouraging viewers to help close the graduation gaps and become mentors and American Graduate Champions themselves.

#### AMERICAN UMPIRE

AMERICAN UMPIRE, a thought-provoking documentary about U.S. foreign policy, chronicles how the United States became the world's policeman and questions how long the U.S. must continue to play this role. Narrated by Jim Lehrer, formerly of The MacNeil/Lehrer News Hour, and written by award-winning historian Elizabeth Cobbs, the film explores the history of American military intervention and the future of America's military commitment abroad. After detailing the principles that guided U.S. foreign policy for 150 years and the sea change that followed WWII, the latter half of the one-hour documentary examines America's contemporary role on the international stage. The film concludes by asking whether it's time to rethink our current policies, scale down military spending, and bring our allies back into the game as fellow umpires. AMERICAN UMPIRE combines archival footage with candid interviews from former secretaries of state George Shultz, Madeleine Albright and Condoleezza Rice; General Jim Mattis and Lt. General Karl Eikenberry, former U.S. Ambassador to Afghanistan; Nobel Prize winner Michael Spence; Pulitzer Prize winner David Kennedy; and eight scholars from around the world.

BEYOND BORDERS: UNDOCUMENTED MEXICAN AMERICANS

BEYOND BORDERS: Undocumented Mexican-Americans examines US policy decisions that triggered the rise of undocumented immigration in a deeply moving documentary program that explores the under-reported lives of Mexicans living and raising families in the United States. The film carefully explains the history of the relationship between the two countries - Mexico and America - some of which may be unfamiliar to viewers. In telling the stories of several undocumented Mexican-Americans, BEYOND BORDERS reveals the reasons why millions of Mexican workers have settled in the US over the past four decades instead of returning home. It also illuminates the remarkable networks that connect the film's characters with the families they left behind, and the very real human impact of the anti-immigration backlash now sweeping the country.
