Re: Request for Experimental Authority
Capstar TX Limited Partnership

Dear Counsel:

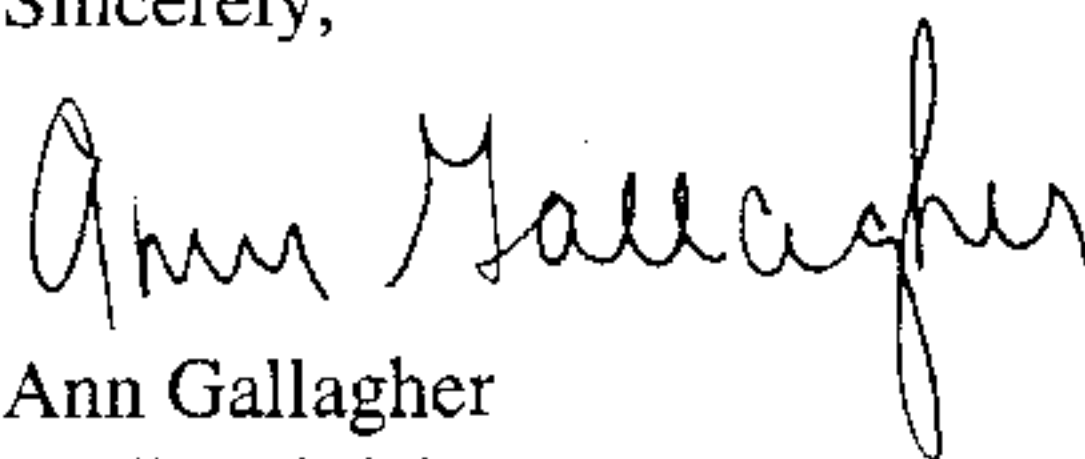

The staff has under consideration the requests received on May 3, 2006, for experimental authority to transmit a hybrid digital signal incorporating multiple digital channels. The licensee requests experimental authority pursuant to 47 C.F.R. § 73.1510 for the following stations:

Station	Location	Facility ID
WSNE-FM	Taunton, MA	74069
WAKS(FM)	Akron, OH	49952
WBTJ(FM)	Richmond, VA	74168
KALZ(FM)	Fowler, CA	2097
KWMT-FM	Tucson, AZ	53594
KGOT(FM)	Anchorage, AK	12515
KFSO-FM	Visalia, CA	2099
KDNN(FM)	Honolulu, HI	40144
KCDA(FM)	Post Falls, ID	57625
KBOS-FM	Tulare, CA	9748
KIKI-FM	Honolulu, HI	34592
WPYX(FM)	Albany, NY	73911
WSSL-FM	Gray Court, SC	59819
WTRY-FM	Rotterdam, NY	8563

The stations propose to test a modified version of the hybrid IBOC system which the Commission has authorized for interim use.¹ The IBOC system under test splits the digital bitstream into multiple digital channels in order to test digital audio and advanced application services. The occupied bandwidth of the digital sidebands will remain as specified in Appendix B of the IBOC Order. The hybrid signal will be transmitted via the station's authorized antenna, and will not require a change in the station's authorized ERP.

Accordingly, the requested experimental authority for the hybrid digital operation described above IS **HEREBY GRANTED**. This authority is specifically conditioned on the lack of objectionable interference. A report detailing the methodology employed and the results obtained must be submitted within **ninety** days following the conclusion of the experimental operation pursuant to 47 C.F.R. § 73.1510(d). This experimental authority expires on June 1, 2007. Any request for extension of this authority should be filed at least thirty days prior to this expiration date. **Additionally, such a request must include an interim version of the aforementioned report that details the progress of the experimental program as of the filing date.**

Sincerely,

Ann Gallagher
Audio Division
Media Bureau

¹ Radio stations do not require experimental authority for normal hybrid IBOC operations. See *Digital Audio Broadcasting Systems and Their Impact on the Terrestrial Radio Broadcast Service*, 17 FCC Rcd 19990 (2002) ("IBOC Order").

They no longer renew these anymore. The experimental portion was made "granted". The last one you got is still a valid grant.

Subject: HD Authorizations

Hi, Ben! I'm glad you brought this to my attention as, after quite a search, I cannot locate anything past the Experimental Authority which expired in 2007. How do I get the current documentation? Do you do this or, if I need to contact someone, who would that be?

Thanks!
Grum
