It's About Evidence part 2

The Bible says Noah lived for 950 years! Adam, 930 years! Did people really live that long? If so, where's the evidence? Well, here it is. Dr **Jack Cuozzo**, author of *Buried Alive - The Starting Truth About Neanderthal Man*, says the people who lived before the Flood were so different from us that scientists call them a different species. Of course their genetic make-up was different. They lived over 900+ years. Dr Cuozzo describes the huge bones of these ancient patriarchs. Before sin, there was no death. The proof is the teeth of lions and crocodiles had molars for grinding vegetation not pointed for tearing flesh.

The amazing universe shows God's awesome creativity. The omnipotent Creator simply spoke and galaxies whirled into space and the universe was created.
