Subject: EAS Multi Lingual Questionnaire Respondents

Greetings,

All broadcasters were requested to submit a response in reference to the re-broadcasting of multi lingual EAS messages to your state's SECC chairman by November 6 of this year. The Missouri Broadcasters Association constructed an online questionnaire form enabling all Missouri participants a simple method of answering the 3 questions from the FCC's Code of Federal Regulations 11.21(d). At the end of the questionnaire an email address was requested. Those that listed an email address are receiving this email.

This email is confirmation that you did comply by November 6, 2017.

No further action is required on your part. A summary of this questionnaire is to be compiled and will be placed as an addendum in Missouri's State EAS Plan in 2018. You may print this email out and make a part of your public file as a matter of record that you are compliant with section 11.21(d) and have responded to your state's SECC chairman.

Bob Moore
Missouri SECC Chairman
