Jeff Birch  
VP Engineering - CBS TV Stations  
530 W 57th St,  
New York, NY 10019

June 27, 2019

Dear Jeff,

The letters announcing the intention of WBXI-CD to begin testing and/or broadcasting on it's new channel were mailed on June 21, 2019 to 268 medical facilities within WBXI-CD's predicted coverage area.

Enclosed is a copy of the Medical Notification Letter, a list of the addresses, and proof of mailing stamped by the US Post Office in Orlando, Florida.

RF Notifications will store the undeliverable letters returned by the USPS until 6 months after Phase 6 is complete. If at any point they are required please let us know and we will send them to you ASAP. Please note that the average return rate is generally eight to ten percent and letters are typically returned due to: the facility relocating and forwarding has expired, the name was changed, the facility refused to accept the letter, or the operation merged with, or was acquired by another company.

The returned letters along with the total list of facilities notified and the proof of mailing will be evidence of your sincere attempt and good faith effort to identify and notify health care operations in your coverage area. Please place these documents in your Public File.

In closing, it has been a pleasure to serve you and your station, and I look forward to helping you with any other notification needs as they arise in the future.

Sincerely,

Lisa Sockett  
COO – RF Notifications

**THIS LETTER CONCERNS TELEMETRY OPERATION. THE RESPONSIBLE PARTY FOR OVERSEEING AND/OR MAINTAINING CLINICAL OR BIOMEDICAL ENGINEERING EQUIPMENT AT THIS FACILITY MUST RECEIVE THIS LETTER.**

Dear Administrator or Biomedical Engineer,

WBXI has retained RF Notifications, a broadcast TV consultant, to notify you of two impending changes of the Station's digital television channel in your area.

We are notifying you of these channel changes because patients at your facility may use biomedical telemetry devices that operate in the television broadcast band and may be affected when these changes take place.

Television station WBXI, located in Indianapolis, will soon be moving its transmitter facilities from the roof of the Salesforce Tower building in downtown Indianapolis to a tall tower on Walnut Drive in northern Indianapolis. WBXI presently operates on television Channel 47 (668 to 674 MHz). On or about October 18, 2019, WBXI will change its over-the-air frequency from television Channel 47 to television Channel 36 (602 to 608 MHz).

Certain biomedical telemetry devices have been allowed to use unoccupied TV channels in their area on a **secondary basis**, according to the rules of the Federal Communications Commission (codified at 47 CFR 15.242 (a)(1)). If interference to or from these devices arises with regard to the TV broadcast service, the devices must cease operation on that channel. It is the responsibility of the medical facility or operator of the device to identify and retune its equipment to an alternative non-interfering channel.

The purpose of this letter is to provide you information and give you reasonable opportunity to resolve any issues. It will be important for you to discuss these changes with your technology supplier, especially if there is a possibility that biomedical devices used in your facility are likely to malfunction when WBXI-CD changes TV channel operations. **If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.**

The contact information for the broadcast executive in charge of the TV station, along with the commencement date, TV channel and frequency band for each station are listed on the attached page(s). Please contact the individual listed on the attached page who is associated with the specific channel, if you wish for more information or want to report anticipated or actual interference problems.

Kind Regards,

*Lisa Sockett*

## Relevant Technical Information

In order to prevent interruption in patient care, please review the following pertinent information for the new facilities and compare to your telemetry equipment immediately. This is the only notice you will receive.

### WBXI-CD – Transmitter Location Change:

DTV Channel	47 (the actual broadcast channel)
Frequency	668-674 MHz
Scheduled operations on or about	7/1/2019
Effective Radiated Power:	4.5 kW
Antenna Location:	39-53-39.2 N 86-12-20.5 W
Antenna Height	Above Ground 235.6 meters
(center of radiation)	Above Mean Sea Level 488.3 meters
	Above Average Terrain 238 meters

### WBXI-CD – New Channel Change

New DTV Channel	36 (the actual broadcast channel)
Frequency	602-608 MHz
Earliest Testing date:	09/07/2019
Scheduled full time operations no later than:	10/18/2019
Effective Radiated Power:	15 kW
Antenna Location:	39-53-39.2 N 86-12-20.5 W
Antenna Height	Above Ground 266.1 meters
(center of radiation)	Above Mean Sea Level 518.8 meters
	Above Average Terrain 268 meters
