## Cox Radio 2<sup>nd</sup> Quarter 2017 Issues & Programs

### Issue- Health

#### **Radio Health Journal 4/9/17 at 5:00AM (13 minutes)**

Clinical trials drive medical advancement, but cancer clinical trials seldom meet their goals in recruiting patients. Experts discuss causes, consequences, and actions being taken to meet needs.

#### **Radio Health Journal 4/9/17 at 5:13AM (7 minutes)**

Sleep used to be natural, governed by darkness, light, and fatigue. Now it's highly processed and scheduled. An author discusses his research on the ways this has led to a poorer night's sleep.

#### **Radio Health Journal 4/16/17 at 5:00AM (13 minutes)**

Workers are currently protected from having to take genetic tests for employers. However, a bill under consideration in the US House—HR1313—would allow corporate wellness plans to ask workers for a test, and penalize them through markedly higher health insurance premiums if they refuse. The bill also provides no protections against how or to whom the information is distributed. Experts discuss.

#### **Radio Health Journal 4/23/17 at 5:13AM (8 minutes)**

Scientists are tapping the entire adult population of Iceland for a clinical test for treatments for multiple myeloma, a blood cancer. An expert explains the disease and how a whole country is pitching in to fight it.

#### **Radio Health Journal 4/30/17 at 5:00AM (12 minutes)**

Doctors can cure cancer in children better than ever, but decades later, many survivors suffer from serious, chronic disease as a result of powerful cancer treatments. Often those survivors don't get screening and treatment for late effects. Experts and survivors discuss how treatments influence life decades later, how survivors can get treatment they need, and new ways of treatment can lessen late effects.

#### **Radio Health Journal 4/30/17 at 5:13AM (8 minutes)**

Doctors often take extreme measures to save patients who are dying, and who might wish to die in peace. A critical care physician discusses how doctors are learning to resist their impulses to over-treat.

**Radio Health Journal 5/7/17 at 5:00AM (13 minutes)**

The proportion of severely obese teenagers continues to rise. Doctors increasingly understand that only weight loss surgery is likely to help them lose weight and avoid health consequences of obesity. But teens are often held back until they're so heavy that even bariatric surgery isn't enough to return them to normal weight. Experts discuss.

**Radio Health Journal 5/7/17 at 5:13AM (8 minutes)**

Cancer treatment has always focused on survival. Now doctors are increasingly focusing on side effects, including the effect of treatment on sexual function and satisfaction. However, many patients are shy about bringing up their difficulties, unaware there are ways to help. One of the nation's top experts discusses.

**Radio Health Journal 5/14/17 at 5:00AM (13 minutes)**

DNA mutations happen all the time in the body, but the immune system usually detects and deals with them. When the system fails, cancer results. Yet some animals, such as elephants, almost never get cancer, and scientists have learned that the elephant DNA repair system is 20 times more powerful than the human system. Experts explain how they hope to tap this knowledge.

**Radio Health Journal 5/14/17 at 5:13AM (7 minutes)**

Some retirement homes are offering local college students room and board in return for interaction with elderly residents. Students and experts involved discuss how it's a win/win for everyone.

**Radio Health Journal 5/21/17 at 5:00AM (12 minutes)**

Donated blood saves 4.5 million American lives each year, but has a short shelf life, low portability and must be available for all blood types. Researchers have sought safe and effective blood substitutes for 60 years, and a few viable alternatives are in animal testing. Experts involved in research discuss.

**Radio Health Journal 5/21/17 at 5:13AM (8 minutes)**

Experts have a lot of questions still unanswered about electronic cigarettes, but evidence is starting to accumulate that the effect on the oral cavity can be as significant as tobacco cigarettes. An expert discusses.

**Radio Health Journal 5/28/17 at 5:13AM (7 minutes)**

Epilepsy can show itself in many ways, including as episodes of giggling and laughing. An expert discusses the case of a nine-year old boy with such seizures, the danger they posed, and the novel way he was treated.

**Radio Health Journal 6/4/17 at 5:00AM (12 minutes)**

Loneliness affects far more than our mental health. Studies are now showing that loneliness and social isolation also have profound effects on our physical health, and increase the risk of death substantially. Experts discuss.

**Radio Health Journal 6/11/17 at 5:00AM (11 minutes)**

Only children have been vilified for more than a century as inevitably selfish, spoiled and lonely. Yet research finds that children without siblings are psychologically quite similar to those with brothers and/or sisters. Today the proportion of only children is increasing. Experts refute the myths about only children and discuss how parents can help children navigate life with no siblings.

**Radio Health Journal 6/11/17 at 5:13AM (9 minutes)**

The sense of touch is often taken lightly, yet it conveys more emotion than any other sense because it literally has a separate emotional wiring system. A neuroscientist explains the sense of touch, how it works, the power it has over everyday decisions, and what can happen when it's not working as it should.

**Radio Health Journal 6/25/17 at 5:13AM (7 minutes)**

Social anxiety disorder is more than just shyness. It can be crippling and keep people completely inside the house. An expert whose daughter was afflicted discusses social anxiety warning signs in children and how the disorder can be treated.

---

**Issue – Public Safety**

**Radio Health Journal 4/2/17 at 5:13AM (7 minutes)**

Plagues can wipe out entire populations and create fear and great mystery in how they spread. An author who has explored plagues and dangerous diseases explains.

**Radio Health Journal 4/16/17 at 5:13AM (7 minutes)**

Studies are showing that people who train hard and long at running have death rates similar to couch potatoes, while those who exercise moderately or even lightly are likely to live much longer. Experts discuss how much exercise is enough and how to make the most of light exercise.

**Radio Health Journal 4/23/17 at 5:00AM (11 minutes)**

Millions of Americans believe they are allergic to penicillin. However, most of them are wrong. Experts discuss how these misdiagnoses happen and what results when so many of us avoid the most effective, yet cheapest antibiotic.

**The Legislative Gazette 5/21/17 at 5:30-6am (25 minutes)**

Senate Independent Democratic Conference Leader Senator Jeff Klein publically response to news reports that some of his members received stipends for committee chair positions that they didn't hold, our political observer Alan Chartock speaks with Daily News Albany Bureau Chief Ken Lovett about the controversy over Lu Lu's, and supporters from across NY gather to ask lawmakers to pass the Medical Aid in Dying Act.

**Radio Health Journal 5/28/17 at 5:00AM (13 minutes)**

Americans consume 80 percent of the opioid painkillers prescribed worldwide, ultimately resulting in the deaths of more than 20,000 Americans each year of overdoses of these drugs. The crisis is making doctors look at alternative medicine therapies for a substitute for these drugs. Experts discuss modalities that have shown success.

**The Legislative Gazette 5/28/17 at 5:30-6am (25 minutes)**

After an embarrassing controversy over stipend payments, the group of breakaway Democrats in the state Senate tries to change the subject, our political Observer Alan Chartock shares his thoughts on Governor Cuomo's letter to President Trump for Federal help with the City's transportation infrastructure, and, in the wake of the terrorist attack on Manchester, New York City Police have stepped up counter-terrorism efforts around Madison Square Garden and other high-profile locations, including the state's capitol region.

**Radio Health Journal 6/4/17 at 5:13AM (7 minutes)**

More than two million youth may run away from home each year. More than 100,000 of them are forced into the sex trade each year to survive. One young woman who overcame such a life describes how she beat the odds and what runaways need to have a chance to succeed.

**Radio Health Journal 6/18/17 at 5:00AM (13 minutes)**

After 40 years of declining traffic deaths, American roads have become more dangerous the past two years. Police blame texting. Now activists are seeking to put teeth into anti-texting-while-driving laws with the legalization of a device that police can use to instantly determine if a driver was texting at a given time. Experts discuss the "textalyzer," how it would work, and its pros and cons.

**Radio Health Journal 6/18/17 at 5:13AM (7 minutes)**

The average American is exposed to more than 100 potentially toxic synthetic chemicals every day, and there is little oversight of their safety. A noted expert discusses the vast amount that we don't know about these chemicals and how tougher regulation in other countries could help keep Americans safer.

## **Issue- Education**

### **The Legislative Gazette 4/23/17 at 5:30-6am (25 minutes)**

We look at whether the passage of the state budget means the end of the legislative session, our political observer Alan Chartock shares his thoughts on the Governor's reaction to a NY Times editorial criticizing his free college tuition plan, and as some communities around the state become sanctuary cities, Schenectady appears to be distancing itself from that label.

### **The Legislative Gazette 5/7/17 at 5:30-6am (25 minutes)**

Millions rally nationwide for worker and immigrant rights on May Day, we'll take you to a rally in Albany, NY's education commissioner releases a new report on state-specific learning standards, and our political observer Alan Chartock will share his thoughts on Governor Cuomo suggesting that an all Democratic legislature doesn't work well together.

### **The Legislative Gazette 6/11/17 at 5:30-6am (25 minutes)**

At a rally with House Democratic Minority Leader Nancy Pelosi, Governor Cuomo vows to help defeat the state's eight republican members of the House of Representatives in next year's election, Our political observer Alan Chartock shares his thoughts on that and we'll take you to a public hearing with state education commissioner Elia.

### **Radio Health Journal 6/25/17 at 5:00AM (13 minutes)**

The ability to "know" the musical pitch of any sound has traditionally been thought to be learnable only at a very early age through musical training. But new research shows perfect pitch is teachable to adults as well. Experts discuss the implications on all forms of learning.

## **Issue- Economy/Economic Development**

### **The Legislative Gazette 4/9/17 at 5:30-6am (25 minutes)**

State budget negotiations collapse and Governor Cuomo explains why, our political observer Alan Chartock will share his thoughts on the politics of the late budget, and activists rally in Albany in support of a bill to create a universal, publicly funded health insurance plan for the state.

**The Legislative Gazette 4/16/17 at 5:30-6am (25 minutes)**

The 153 \$Billion New York State Budget passed this week and good government groups are weighing in, we'll take you to Buffalo where Governor Cuomo touted the state budget and more investment in Western New York, and our political observer Alan Chartock shares his thoughts on why Ethics Reform did not make the budget.

**The Legislative Gazette 4/30/17 at 5:30-6am (25 minutes)**

State lawmakers and lobby groups say Governor Cuomo was wrong when he said that there was no political will to enact reforms in 2017, our political observer Alan Chartock shares his thoughts on a proposal to make any President from New York turn over their tax returns to the state, and the State University has a new chancellor.

**The Legislative Gazette 5/14/17 at 5:30-6am (25 minutes)**

Fixing problems with economic development contracts remains as one of the top issues left before the legislature's summer adjournment, our political observer Alan Chartock shares his thoughts on his conversation with State Comptroller Dinapoli, and two NY House Republicans face questions from constituents over their votes on the American Health Care Act.

**Plugged Into Long Island 5/21/17 at 6-6:30AM (25 minutes)**

- Summary: Sandy Brewster speaks with Terri Alessi-Miceli from the Hauppauge Industrial Association of Long Island. **The Legislative Gazette 6/18/17 at 5:30-6am (25 minutes)**

Accusations fly as legislative leaders dig in on the remaining issues in the 2017 leg session, our political observer Alan Chartock will share his thoughts on his conversation with Republican Assembly Minority Leader Kolb, and A group that counts seven Hudson Valley counties at its members receives funding to continue its work in food rescue and combating food insecurity.

**Issue- Environment**

**Radio Health Journal 4/2/17 at 5:00AM (13 minutes)**

The President's proposed 31 percent budget cut for the Environmental Protection Agency and the appointment of a prominent EPA critic as the agency's head have raised fears that the nation's air and water quality will be ignored. EPA critics say the agency needs cutting, as it's been activist in pursuing "worthless" strategies to reduce unproven global warming. Experts on each side discuss pro's and con's of EPA cuts.

**The Legislative Gazette 4/2/17 at 5:30-6am (25 minutes)**

The state budget is due but it's the federal budget in Washington that Governor Cuomo warns might impact money for schools in NY, our political observer Alan Chartock shares his thoughts on the budget wrangling this week, and New York State Attorney General Eric Schneiderman responds to President Trump's Executive Order to roll back the Clean Power Plan.

**The Legislative Gazette 6/4/17 at 5:30-6am (25 minutes)**

A simple yellow ribbon is a small, yet powerful symbol for the more than 50,000 Americans diagnosed with sarcoma – a rare cancer of soft tissue and bone. July is sarcoma awareness month. When you see the yellow ribbon, think of those who struggle daily with this little-known cancer that has few treatment options. Through awareness, advocacy, and research, the Sarcoma Foundation of America is working to find the cure for sarcoma in our time. For more information go to [cure.sarcoma.org](http://cure.sarcoma.org).
