

## KASU Quarterly Issues Quarterly Issues for the 2nd Quarter, 2023

This report was prepared by Brandon Tabor, News Director for KASU. These stories were aired through the day on our newscasts.

The News Department aired a live, interrupted broadcast of NPR's special coverage of the Special Council issuing a statement related to the indictment of former President Donald Trump on June 9, 2023. On June 13, NPR offered a broadcast for us to carry the court proceeding for the case. I declined to broadcast it live, but opted to have the special coverage stream on our website and used the mobile app to direct others to listen to the broadcast.

The News Department also provided live severe weather coverage at the end of the previous quarter. The department also performed live news coverage of a tornado touch-down on June 18, 2023.
