Discover the true story of America's "Great Experiment." Go beyond the oft-told tales of gangsters, rum-runners, flappers and speakeasies to experience the rise, rule and fall of the 18th Amendment to the U.S. Constitution in Ken Burns and Lynn Novick's PROHIBITION. Since the early years of the American Republic, alcohol has been embedded in the

fabric of American culture. But by 1830, the average American over 15 years old consumes nearly seven gallons of pure alcohol a year, three times as much as we drink today. Alcohol abuse wreaks havoc on the lives of many families. As a wave of spiritual fervor for reform sweeps the country, many women and men begin to see alcohol as a scourge. After the Civil War, the country's population swells with immigrants, who bring their drinking customs with them from Ireland, Germany, Italy and other European countries. The temperance campaign ignites, spearheaded by the Woman's Christian Temperance Union. Carrie Nation and her Home Defenders Army bring publicity by attacking Kansas bars with stones and hatchets, and the Anti-Saloon League (ASL) forms to push for an amendment to the Constitution outlawing alcohol nationally. Most politicians dare not defy the ASL, and in 1917 the 18th Amendment sails through both Houses of Congress; it is ratified by the states in just 13 months. When the Amendment is signed into law, Prohibitionists rejoice that America has become officially dry. But Americans are about to discover that making Prohibition the law of the land has been one thing; enforcing it will be another.

Discover the true story of America's "Great Experiment" – the 18th Amendment to the U.S. Constitution outlawing alcohol – in Ken Burns and Lynn Novick's PROHIBITION. In 1920, Prohibition goes into effect, making it illegal to manufacture, transport or sell intoxicating liquor. This episode examines the problems of enforcement, as millions of law-abiding Americans become lawbreakers overnight. While a significant portion of the country is willing to adapt to the new law, others are shocked at how inconsistent the Volstead Act actually is. As weaknesses in the law and its enforcement become clear, millions find ways to exploit it. Drys had hoped Prohibition would make the country a safer place, but the law has many victims. Honest policemen are killed on the job, unlucky drinkers are poisoned by adulterated liquor and overzealous federal agents violate civil rights just to make a bust. Alcoholism still exists, and may even be increasing, as women begin to drink in the speakeasies that replace the male-only saloon. Despite the growing discontent with Prohibition and its consequences, few politicians dare to speak out against the law, fearful of its powerful protector, the Anti-Saloon League.

Episode Title: A Nation of Hypocrites  
Length: 120 minutes  
Airdate: 10/4/2011 6:00:00 PM  
Service: PBS  
Format: Documentary

Discover the true story of America's "Great Experiment" – the 18th Amendment to the U.S. Constitution outlawing alcohol – in Ken Burns and Lynn Novick's PROHIBITION. Support for Prohibition diminishes in the mid-1920s as the playfulness of sneaking around for a drink gives way to disenchantment with its glaring unintended consequences. By criminalizing one of the nation's largest industries, the law has given savvy gangsters a way to make huge profits, and as they grow in power, rival outfits wreak havoc in cities across the country. The burgeoning tabloid newspaper industry fans the frenzy with sensational headlines and front-page photographs of murder scenes, while Al Capone holds press conferences and signs autographs. The wealthy Pauline Sabin begins publicly decrying that Prohibition has divided the nation into "wets, drys, and hypocrites." Nearly a century before, women had hoped Prohibition would make the country a safer place for their children. But by the late 1920s many American women believe that the "Noble Experiment" has failed. Sabin unifies women of all classes, refuting the notion that all women support Prohibition and denouncing the law itself as the greatest threat to their families. Sabin and others argue that repeal will bring in tax revenue and provide desperately needed jobs. After the election of Franklin D. Roosevelt in 1932, Congress easily passes the 21st Amendment, which repeals the 18th, and the states quickly ratify it. In December of 1933, Americans can legally buy a drink for the first time in 13 years.

In our latest edition of Help Wanted, coinciding with the release of the monthly jobs report, Need to Know revisits northern Ohio for an updated look at how many Americans with jobs are struggling to make ends meet because of the difficult economy. We follow up with:

- A teacher who was fired, then rehired at half-pay, and is now trying to avoid foreclosure;
- A factory worker with health problems who spent nearly a year and half without work before being rehired without benefits and for significantly less money; and
- A married couple who started their own contracting business but have little work and can't secure loans despite a very high credit rating. The couple suffered an additional setback recently when the wife had to undergo back surgery, further depleting their savings.
