

K14LM-CA San Antonio, Texas

- 1) The street address and telephone number of the main studio of each station, and the hours the designated main studio location is regularly open to the public.

73.1125(b)(2)(c) states: "Alternatively, a Class A television station shall maintain a main studio at the site used by the station as of November 29, 1999." K14LM's main studio was at 3391 Charley Good Road, West Frankfort, IL 62896 since November 1998 and is open Monday through Thursday 7:30am to 5:30pm.

73.1125(e) states: "Each AM, FM, TV and Class A TV broadcast station shall maintain a local telephone number in its community of license or a toll-free number." The toll-free number (800) 752-3226 is maintained in the ID bug on the screen. Viewers can call this number and obtain access or copies of the public file.

K14LM maintains two local studios at:

Scenic Hills Seventh-day Adventist Church, 11223 Bandera Road San Antonio, TX 78250 (210) 684 8146 Tuesday through Friday 9:00am to 1:00pm, Saturday 8:30am to 2:00pm, other hours by appointment

and

Durango Seventh-day Adventist Church, 2321 W Durango Blvd, San Antonio, TX 78207 (210) 227 9653 Saturday 8:30am to 2:00pm, other hours by appointment

K14LM maintains two local studios shown in the photos below.

Scenic Hills:

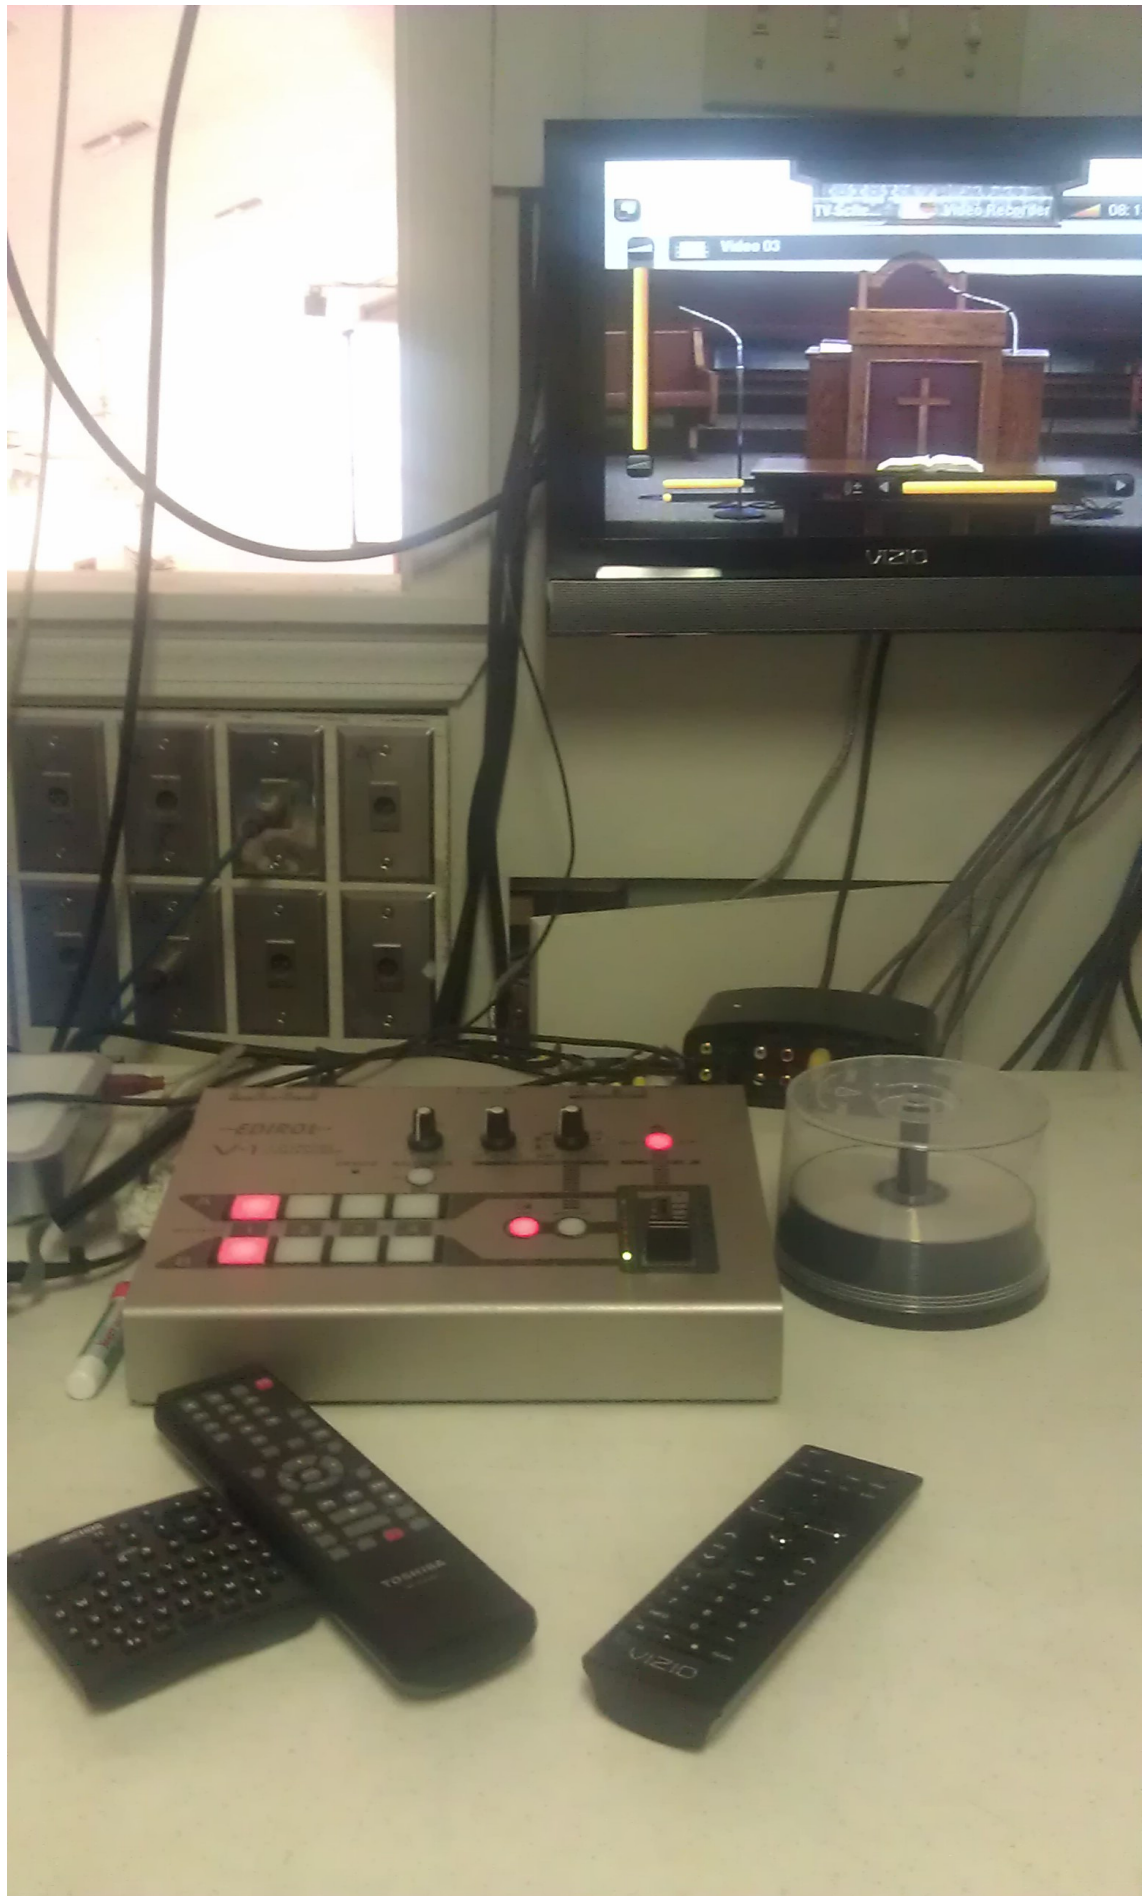

Three Sony video cameras, Videonix MX-1 video mixer, computer and video recorders

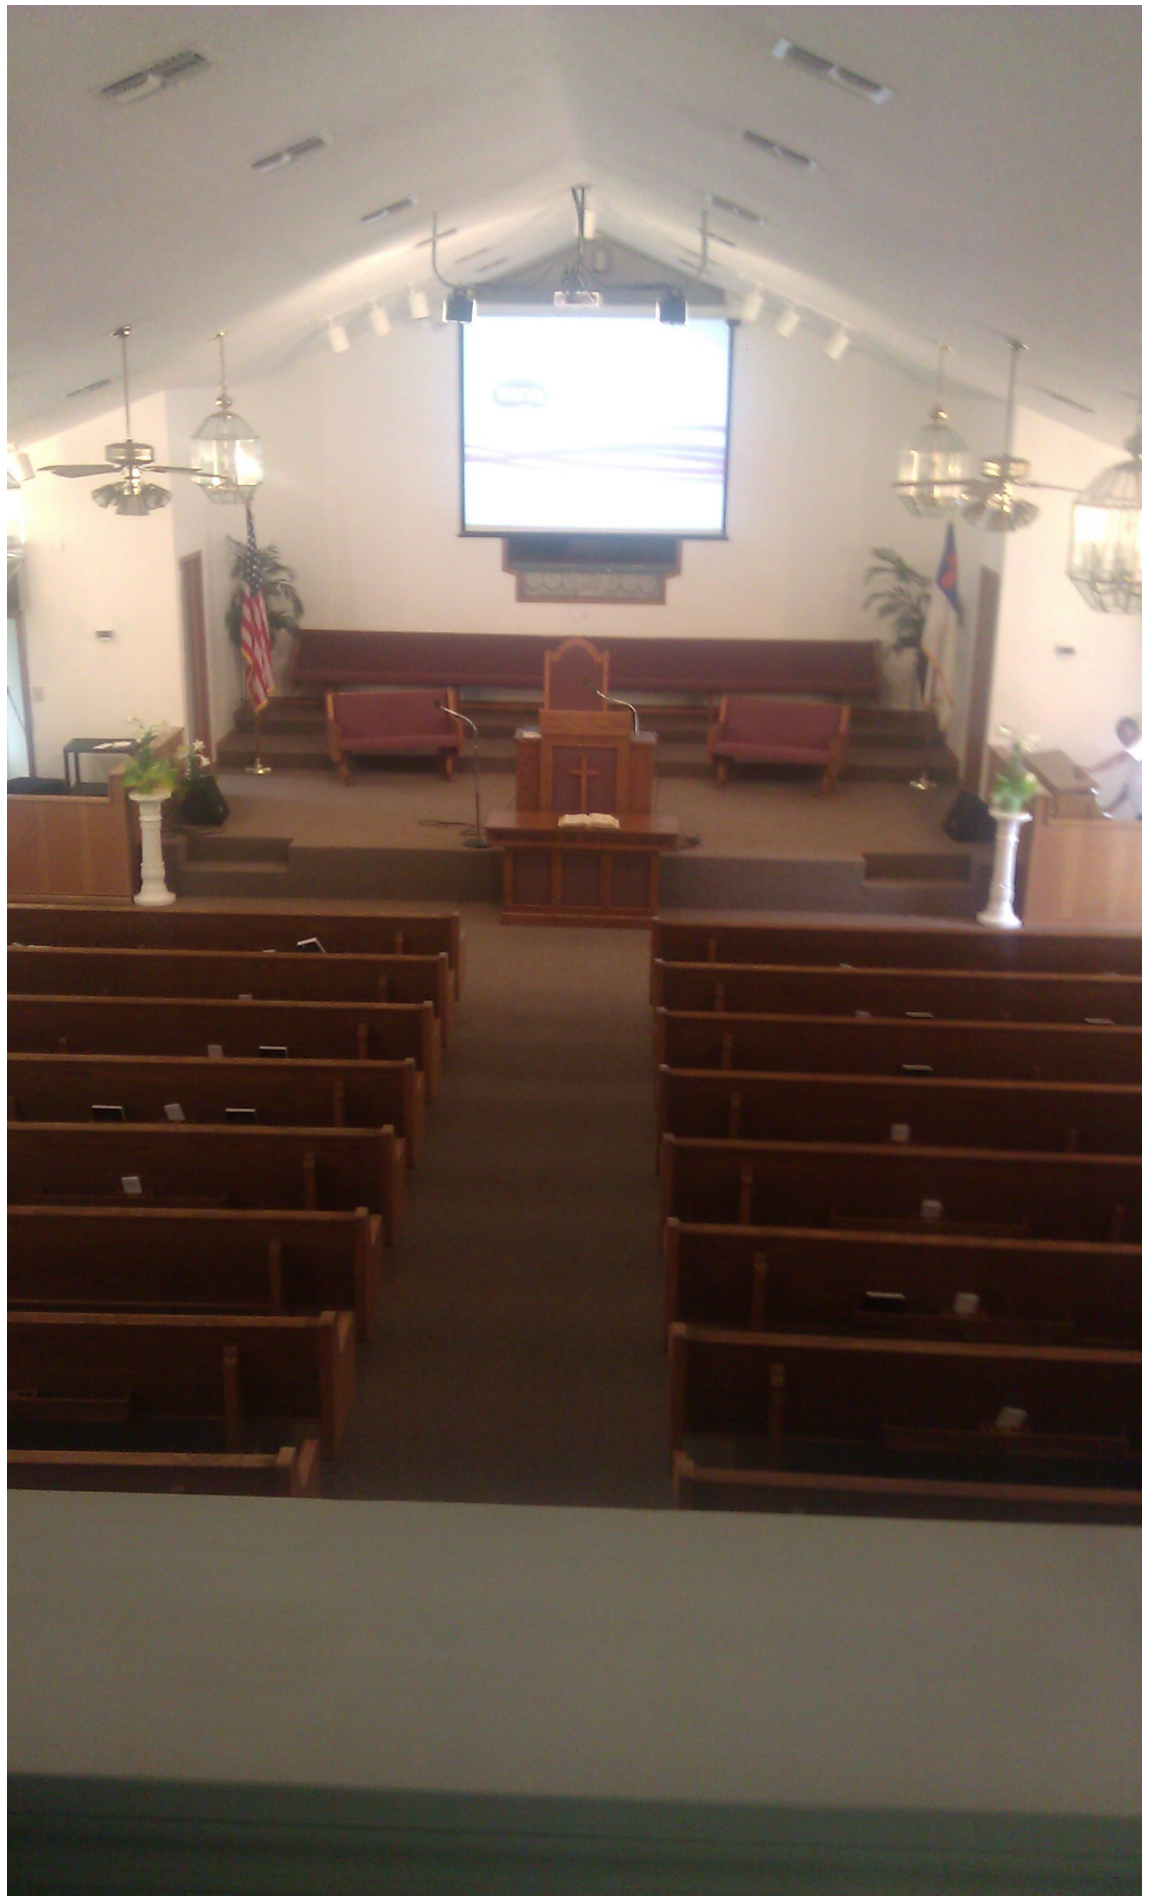

Durango:

Three Sony EVI-D70 robotic cameras, Edirol video mixer, Computer with VidBlaster video mixer software video recorders

- 3) The names of the persons employed at the designated main studio location as station personnel since January 1, 2010, and their typical daily work schedule.

Moses Primo—Director of Broadcasting. Supervise the operations of each TV station. Answer emails and phone calls, assign personnel to daily tasks. Implement operating and capital budgets for each station, make maintenance and upgrade to DTV expenditures. Act as liaison between 3ABN and the FCC. Monday through Thursday 7:30am to 5:30pm

Cindy Clark—Administrative Assistant responsible for seeing that applications are filed as well as interfacing with viewers. Monday through Thursday 7:30am to 5:30pm

Dan Peek—Field Engineer responsible for making sure the station stays on the air and that the local studios are able to continue producing programming and making sure the public file is maintained. Monday through Thursday 7:30am to 5:30pm

Sid Lifschultz—Local Producer responsible for producing programming for Scenic Hills church Saturday 9:00am to 1:00pm

Brenda Aguilar—Local programming assistant responsible for scheduling talent and interfacing with the public. Tuesday through Friday 9:00am to 1:00pm

John Alvarado—Local Producer responsible for producing programming for Durango church Saturday 9:00am to 1:00pm

- 4) The street address of the location of each station's public inspection file; the hours during which the file is available for public inspection; and the name of the person with responsibility for providing access to the public inspection file.

73.3526(b) states: "The public inspection file shall be maintained at the main studio of the station. An applicant for a new station or change of community shall maintain its file at an accessible place in the proposed community of license or at its proposed main studio." The main studio per 73.1125 cited above is located at 3391 Charley Good Road, West Frankfort, IL 62896, toll free telephone (800)752 3226 x 3083.

The public inspection file is available on line at:

<http://mail.3abn.org/PublicFiles/Texas/K14LM%20Public%20File%20%28San%20Antonio%29/>

Access to the file can be obtained by calling Cindy Clark at (800)752 3226 x 3083 or emailing publicfile@3abn.org. To anyone who does not have personal access to the internet, 3ABN is willing to print and mail portions of the public file. Computers are also available for free at public libraries where viewers can look at the public file.

- 5) For all four quarters of 2010 and 2011, a copy of the station's quarterly issues/programs list with a statement giving the dates on which the lists were prepared and placed in the public inspection file.

Please see the link below.

<http://mail.3abn.org/PublicFiles/Texas/K14LM%20Public%20File%20%28San%20Antonio%29/Program%20Issues/>

- 6) A copy of the required public inspection file documentation demonstrating that the station broadcast a minimum of 18 hours of programming per day and an average of at least three hours per week of locally produced programming for all four quarters of 2010 and 2011, with a statement giving the dates on which the documentation was prepared and placed in the public inspection file.

K14LM has maintained 24 hour per day broadcasting during this period and produced local programming. A statement of compliance was not included in the public inspection file until we realized the requirement brought to our attention by this FCC inquiry. This deficiency has been corrected.
