

Both Stations are
Such a blessing. Thank-You

Thanks for the good
music you play and the
messages. I listen almost
daily.

I have struggled getting your signal at our house (we're in a valley). It is probably more the quality of our radios. Our radios have been dying over the years, even in our 21 year old car, where we had lost out listening to you all for sometime. Well, we got a new car last fall and the first thing I started doing was listening again while in the car.

The other day I heard you say how you won't play certain Christmas songs, which I so appreciate. I had noticed that in the past, but to hear you "proclaim it" over the air waves was very encouraging.

I have led a Christian life of doing what others don't want to do. (I was even a bit that way prior to Jesus saving me...) It fell to me to sing a song every now and then at church. (Most of the talent had left.) I have such a little range that the piano player wouldn't play for me and recommended I sing a cappella. You channel was the place where I discovered a number of the songs that I sang. I give credit to you all when I'm asked - I trust I did not break any copyright laws while singing.... *The meaning of a song is 100X more important than the quality.*

Enclosed is some much deserved appreciation,

Thank you for your excellent music and testimony going out for the glory of God. As God enables I will continue my small \$30.00 contribution:

This is an extra donation.

Listening to the radio while I write this check.

God Bless You,
Va. Webb

I am thankful for the old fashioned Gospel songs you play. May God continue to bless you and your Ministry and provide for all your needs

Sincerely Mary

Dear James Jenkins,

Thank you for your work on the radio station. I enjoy your music every night. It is a blessing -

Mr. + Mrs. Jenkins,

10-29-23

I just want to tell you how greatly appreciated you are as servants of The Most High God and instrumental playing music that so brings the Presence of The Lord to the radio audience so powerfully.

Hopefully in the near future I can send more than \$25.00 and more often.
