HEALTH	CLEARVIEW - PART 1 - LYME DISEASE	For years we've been hearing about the danger ticks present as carriers of Lyme disease, now we (tm)re learning about the extended threat ticks present as carriers of many different diseases. This special two part Clearview begins with an interview with Holly Ahern, a microbiologist at SUNY Adirondack who has become an expert on Lyme and other tick-borne illnesses after her own daughter contracted a debilitating strain of Lyme. Ahern makes a number of points about how she believes the medical community has fallen behind on recognizing the complexities tick-borne illnesses present. She makes a call for more research and a greater willingness to treat anyone bitten by a tick prophylactic dose of antibiotics.</p>			
HEALTH	CLEARVIEW - PART 2 - LYME DISEASE PART TWO	<p>Congressman Chris Gibson, is featured who has co-sponsored legislation designed to free up more money for research on tick borne illnesses. Congressman Gibson discusses the effect the diseases have had on many of his constituents and points out that the medical testing is unreliable. He suggests a first step is to get more scientific data culled together, since he says much of it has not been given proper attention. The Congressman notes that in addition to the human cost caused by these diseases, the tourism industry could be negatively affected if the threat of tick-borne illnesses dissuades tourists from visiting New York. Both Ahern and Gibson also discuss prevention as an important key to preventing illness.</p>	CHRIS GIBSON	10/04/2015 07:19 AM	011:59

The outreach component also includes help at a couple of after-school programs where young people are assisted with their homework and provided with someone to talk to. A project in the works would create a drop-in site, where young adults could come in, do their laundry, get job hunting tips and counseling if desired. Young people who have aged-out of foster care are among those most at-risk to become homeless.</p>			
YOUTH	CLEARVIEW - SHELTERS	<p>Nanette Sagastume is the author of <i>We Also Serve: A Family goes to War</i>. She discusses what it is like for parents of the deployed and what kind of support they need. Sagastume's son is a Marine who has served in Iraq; her husband is a Marine who saw combat in Vietnam. Post Traumatic Stress Disorder takes its toll on families, and she says parents also experience survivor guilt. She says few Americans know the experience of having a child deployed and many people make hurtful comments or try to discuss their views about war with them when it would be more appropriate for them to offer compassion. Is modern communication a boon or heartache? Sagastume also touches on the value of parents of deployed service members to support one another.</p>	CRYSTAL SWINTON	10/11/2015 07:17 AM	012:14

A movement is afoot to encourage people to be more vocal about their recovery to help reduce any perceived stigma and to help people who are struggling with addiction to be able to visualize and better understand what recovery looks like.
