

**WHAM D2 (CW Rochester)
ISSUES AND PROGRAMMING REPORT
SECOND QUARTER 2020**

Attached is a description of significant community concerns and examples of the kind of responsive programming WHAM D2 (CW Rochester) aired during the period of April 1, 2020 through June 30, 2020, that addressed those issues. The following topics were identified as areas of concern for area residents:

Health
Government
Economy
Public Safety
Education
Cultural Diversity/Minority Affairs

AMERICAN ABILITIES TELEVISION NETWORK

WHAM D2 airs a weekly program distributed by American Abilities Television Network that airs on Sunday mornings. American Abilities Television is devoted to creating, producing, and distributing quality programming for and about the Deaf and Hard of Hearing, which is particularly significant to Rochester's population.

The Knowledge Bank – Part 1

This film shows how the tools of research in near-earth space have progressed since Benjamin Franklin's time to the sounding rockets and unmanned earth-orbiting satellites of today. It pictures the type of data that was being collected by National Aeronautics and Space Administration (NASA) from its space excursions and its solar, astronomical, and geophysical observatories. It also includes animated sequences. This film takes a broad look at physics and astronomy research performed in the laboratory of space, a laboratory teeming with particles, fields, streams, flares, quasars, and pulsars.
