

Vermont Public Issues and Programs

2023 3rd quarter

The Issues and programs documentation for the television stations WETK, WVER, and WVTB for the 3rd quarter of 2023 were uploaded past the deadline.

The staff person who is responsible for the preparation of this document was unable to meet the deadline due to a family emergency. They completed the work as soon as they were able.

Vermont Public operations, programming, and technical staff will be working on a staffing backup plan that should prevent this from happening again.

Respectfully submitted,

Joseph Tymecki, Sr. VP of Technology
