Hi Diane,

I have submitted an email to the Audio Division staff reporting that WFRC has resumed full power operation. The FCC staff previously has advised me that such an email is sufficient in cases in which the station has been operating with reduced power or pursuant to an STA with temporary facilities and that it is not necessary to file a letter regarding such a resumption through the FCC Secretary's office.

Please note, however, that if the station in question is silent (rather than operating at reduced power), it is necessary to file a Resumption Notice through CDBS and to send a copy of that resumption notice to Denise Williams at the FCC.

Let me know if you have any questions.

Best regards,  
Matt McCormick

Dear Dale,

On behalf of my client Family Stations, Inc. ("FSI"), this email is to advise the Commission that FSI's Station WFRC, Facility ID No. 20810, Columbus, GA, has returned to full power operations. Accordingly, the station's STA for reduced power operation (BSTA-20180906ABZ) may now be cancelled.

Please let me know if any additional information is necessary or if it will be necessary to file a more formal resumption notice through the Secretary's office.

Cordially,  
Matt McCormick
