7/3/2020	3:29:23 PM	SNN Editorial	Friday	America seeks to be free from the interference of other countries, from undue interference even from our own government. Of course we'd like to be free from viruses and face masks and racial injustice.  But to accomplish that, we must accept the responsibilities of freedom. We must be free for living as responsible citizens every day.

7/10/2020	4:28:03 AM	SNN Editorial	Friday	This has been an incredibly important session of the Supreme Court and it has come with big wins for religious liberty. In a series of three decisions, the nation's highest court ruled, first, that a state that offers financial support to private schools cannot exclude religious schools, second, that religious schools are free to employ teachers consistent with their religious beliefs, and third, that employers cannot be forced to provide contraceptive coverage if it would violate their religious or moral conscience.

Joe Biden has already expressed support for a commission to evaluate slavery reparations. If this ill-advised effort becomes a major issue in the campaign, the American people will rightly reject a program designed to accentuate, not narrow, racial differences.

This piece of legislation erodes a key legal reality that the country still overwhelmingly supports: Our kids deserve protection. A 14-year-old does not, and should not, grant consent.
