WMCA RADIO

ISSUE / PROGRAM LIST

WMCA radio on a continuing basis seeks to stay informed regarding the issues, problems and needs of its service area. This is accomplished in part through meetings with prominent and informed leaders in the community. WMCA also utilizes informal contacts with community leaders and general media sources outside of our organization (i.e. TV, radio and print media), WMCA management, through membership in civic and charitable organizations maintains active involvement dealing with problems and issues confronting our community. Information is also obtained through general issue-oriented material sent to the station and to station personnel. In this report, WMCA will list the issues it has determined to be of major local concern and will list some of the programming avenues taken to address those issues.

In an effort to prove this point, Biden launched an expensive network of 21 federal vaccination centers that tied up millions of doses of vaccines. Biden promised that this would quickly accelerate a supposedly stalled vaccination system.

04/16/2021	07:25:34	First, think about how far we've allowed our most basic freedoms to erode. In a state with only a 1.6% covid positivity rate, people had to go to the Supreme Court of the United States—just to reassert the right to hold private prayer meetings in their own homes . . . something that has always been understood to be a foundational freedom here. Second, consider that this liberty was secured by only a single justice's vote.
