

The 4th Quarter program/issues report was uploaded yesterday (Monday January 28, 2019) for the quarter October 1, 2018 to December 31, 2018 for this station. While the report was completed and placed in a paper file at the station on January 9, 2019, the Government partial shutdown took place in January 2019 and the FCC web site was not accepting documents because the FCC online public file system was shut down when the report was originally due to be filed. Once the government re-opened, the reports were posted.
