#### **Issues Programs List**

### **Quarterly Issues Programs List**

Station: WQUS, WCRZ, WWBN, WRCL, WFNT January 1, 2023, through March 31, 2023

#### Section I – Issues

The stations have identified the following topics as significant issues facing our community in this quarter:

- A. **HOW AIR TRAVEL BECOMES A NIGHTMARE FOR PEOPLE WITH DISABILITIES:** Flint's Bishop International Airport is wheelchair accessible, but is that enough? The Air Carrier Access Act was passed more than 30 years ago to prohibit airlines from discriminating against people with disabilities. And though it was an essential step for equality, it has not been enough.
- B. **DRUNKOREXIA:** A **POPULAR PRACTICE THAT LEADS TO MALNOURISHMENT:** Genesee County has a number of programs and treatment centers to help those suffering with alcoholism, including "Drunkorexia." "Drunkorexia" is a habit that is popular among young people where they refuse to eat before a night of drinking. This practice can lead to weight gain and other health risks.
- C. **HELPING FIRST RESPONDERS HEAL THEIR PTSD:** There are hundreds of first responders working in Genesee County, many of whom struggle with PTSD.
- D. **HOW YOU CAN MAKE ANXIETY YOUR BEST FRIEND:** 19% of adults were found to be suffering from an anxiety disorder in Genesee County. Can feeling anxious be a good thing?
- E. **IS YOUR DIET SLOWLY KILLING YOU?** Genesee County is ranked one of the unhealthiest counties in Michigan. This topic explains how you can supplement your diet with less pills and more natural ingredients to get your health back on track.

### **Section II - Responsive Programs**

Radio Health Journal covers a full range of community issues and airs every Sunday morning on all six stations at 6:30am. The program is 30 minutes in length. See attached program log.

1:50	SEGMENT 1: HOW SCIENTISTS ARE SPEEDING UP EVOLUTION USING GENOME EDITING	11:06
	Synopsis: The field of genome editing goes all the way back to the 1970s when researchers discovered how to clone DNA. Now, scientists can genetically modify DNA to eliminate genetic diseases and even create entirely new species of organisms. Experts discuss how gene editing technology can fit millions of years of evolution into mere months.  Host: Elizabeth Westfield. Producer: Kristen Farrah. Guests: Dr. Raj Awatramani, Professor of Neurology and Scientific Director of the Transgenic and Targeted Mutagenesis Laboratory, Northwestern University; Dr. George Church, Professor of Genetics, Harvard Medical School, Director, US Department of Energy Technology Center, Founding Father of Genomics  Compliancy issues covered: genetics; gene editing; genomics; evolution; DNA; genetic diseases; consumerism; patient safety; vaccines;  Links for information: <a href="https://wyss.harvard.edu/team/core-faculty/george-church/">https://wyss.harvard.edu/team/core-faculty/george-church/</a> <a href="https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253">https://www.genome.gov/about-genomics/policy-https://www.genome.gov/about-genomics/policy-</a>

13:57	SEGMENT 2: FINDING PAIN MANAGEMENT STRATEGIES THAT DON'T INVOLVE OPIOIDS	8:25
	Synopsis: We have coaches for nearly every aspect of our lives, so why not have one to help patients work through their health crises? Life Care Coaches are being integrated into hospitals to help patients safely use prescription opioids and even offer pain management strategies that don't involve drugs. Experts explain how this new position is helping decrease rates of addiction and opioid overdoses.  Host: Nancy Benson. Producer: Kristen Farrah. Guests: Cammie Wolf Rice, Author, <i>The Flight</i> , Founder, Christopher Wolf Crusade; Dr. Mara Schenker, Chief of Orthopedics, Grady Memorial Hospital Compliancy issues covered: opioids; drug abuse; pain management; addiction; drug overdose; pain medication; vulnerable populations; consumerism  Links for information: <a href="https://www.gradyhealth.org/doctors/mara-schenker/https://cammiewolfrice.com/the-author/https://www.instagram.com/cammierice/?hl=enhttps://www.instagram.com/christopherwolfcrusade/?hl=enhttps://www.instagram.com/christopherw&lt;/td&gt;&lt;td&gt;&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;22:22&lt;/td&gt;&lt;td&gt;SPOTBREAK 3: Pfizer Consumer Healthcare " prevnar20"<="" td=""><td>:60</td></a>	:60

Program	23-09	Written & Produced	Kristen Farrah
Air Week	2/26/23	Production Manager	Jason Dickey

Synopsis: Last week we discussed the history of gene editing and the opportunities this technology offers. In this second edition, our experts explain the ethical debate surrounding gene editing in humans. Where do we draw the moral line and have we already crossed it?  Host: Elizabeth Westfield. Producer: Kristen Farrah. Guests: Dr. Raj Awatramani, Professor of Neurology and Scientific Director of the Transgenic and Targeted Mutagenesis Laboratory, Northwestern University; Dr. George Church, Professor of Genetics, Harvard Medical School, Director, US Department of Energy Technology Center; Dr. Elizabeth McNally, Director, Center for Genetic Medicine, Professor of Medicine and Biochemistry and Molecular Genetics, Northwestern University  Compliancy issues covered: genetics; gene editing; genomics; evolution; DNA; genetic diseases; consumerism; patient safety; ethics; federal regulations; scientific innovation  Links for information: <a href="https://wwws.harvard.edu/team/core-faculty/george-church/">https://wwws.harvard.edu/team/core-faculty/george-church/</a> <a href="https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253">https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253</a> https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northwestern.edu/faculty-profiles/az/profile.html?xid=16253 https://www.feinberg.northw	:30 :29
