Section I. Issues

The above stations have identified the following issues as significant issues facing our community in this quarter:

- A. **Personal Finance:** Inflation, increased home prices, high rental fees, and a shortage of available rentals has forced many residents in the Tri-Cities to find ways to cut expenses. The stations presented options on how to find bargains online – sometimes for free using the Buy Nothing Group, an alternative to second hand stores.
- B. **Culture:** With over 400 wineries surrounding the Tri-Cities area the stations presented a brief history of wine and information on how to select the correct wine for specific occasions and food. The wine industry in Eastern Washington is fast becoming renowned around the world.
- C. **Law Enforcement:** The Tri-Cities has had two officer involved shootings in 2022, one resulting in death. The departments have gone to great lengths with training and policy changes. The stations aired information on how policing initiatives have changed local policing policies and procedures.
- D. **Immigration:** The city of Pasco is now 70% Hispanic with a high population of new immigrants from Mexico and Venezuela. The stations detailed how many refugees coming to America suffered from conflict and persecution in their home countries and now, the struggles they face adjusting to the American way of life.
- E. **Renewable Energy:** Recent proposed legislation in Washington includes the study of eliminating hydroelectric power sources, including tearing down dams near the Tri-Cities. If this were to happen, energy prices would increase dramatically for Tri-City residents. The stations presented information on the cost and benefits of solar energy options. Tri-Cities enjoys over 300 days of sunshine annually.
