

**QUARTERLY ISSUES/PROGRAMS LIST**

**STATION:** Idaho Public Television (KAID, KIPT, KISU, KUID, KCDT)  
**CITY OF LICENSE:** Boise, Twin Falls, Pocatello, Moscow, Coeur d’Alene ID  
**SIGNIFICANT TREATMENT OF COMMUNITY ISSUES:** July 1, 2020 – September 30, 2020

Issue	Title/Programming Description	Date/Time/Duration
1. Early Childhood Education	<p>Children’s and Ready to Learn Programming                      Programs include: Wild Kratts, Sesame Street, Curious George, Peg + Cat, Let’s Go Luna!, Xavier Riddle and the Secret Museum, Cyber Chase, Dinosaur Train, Daniel Tiger’s Neighborhood, Splash and Bubbles, Molly of Denali, etc. These programs are focused on helping young children build strong pre-reading and reading skills.</p>	<p>Weekdays                      6:30 a.m. – 5:30 p.m.                      11 hours each weekday                      and                      Sundays                      6 a.m. – 10:00 a.m.                      4 hours each Sunday</p>
2. Education	<p>Science Trek “Garbage”                      When you toss something into the trash, science takes over. Scientists find ways to dispose of trash and not ruin the environment. They can even turn garbage into electricity. Do you know where your trash goes and what happens to it? Ted Hutchinson, deputy solid waste director for the Ada County Solid Waste Management, and Megan Durrell, trash and recycling coordinator for the City of Boise, answer students’ question.</p> <p>Science Trek “Bats”                      Bats play an important role in our ecosystem. They help pollinate plants so we have food. They eat insects so bugs do not overwhelm us. But 25 percent of all bat species are threatened with extinction. Rita Dixon, state wildlife action plan coordinator for the Idaho Department of Fish and Game, and Jesse Barber, assistant professor of biology at Boise State University, answer students’ questions.</p> <p>Science Trek “States of Matter”                      Anything that takes up space and has weight is called matter. Matter can be as small as the tiniest cell in your skin or large as a whole galaxy. The study of matter and the changes it goes through is part of the science of physics. Kathryn Devine, assistant professor of physics, and Christopher Saunders, visiting professor of chemistry, both from the College of Idaho, answer students’ questions.</p> <p>Science Trek “Astronauts”                      What is it like to work in space and on the International Space Station? Astronauts have a challenging and fascinating job. It takes lots of different scientists to make it possible for astronauts to do their work. The Science Trek crew travel to the Johnson Space Center to answer students’ questions about what it takes to be an astronaut.</p>	<p>7/05/2020                      9:30 a.m.                      30 minutes</p> <p>7/12/2020                      9:30 a.m.                      30 minutes</p> <p>7/19/2020                      9:30 a.m.                      30 minutes</p> <p>7/26/2020                      9:30 a.m.                      30 minutes</p>

	<p>Science Trek “Earthquakes”  Every 30 seconds, somewhere in the world the ground shakes. Most earthquakes are too tiny to be felt, but some earthquakes can be devastating. Why do earthquakes happen? What should you do if the earth shakes? Can we predict when they will happen? Jeffrey Johnson, assistant research professor of geophysics at Boise State University, and Dennis Feeney, senior geologist with the Idaho Geographical Survey at the University of Idaho, answer students’ questions.</p> <p>Science Trek “Robotics”  We use robots everywhere, even on Mars, but how are robots developed? How will robots change things in the future? Josh Johnston, professor at Boise State University, and Dean Klein, vice president of Advanced Memory Solutions at Micron, answer students’ questions.</p> <p>Science Trek “Food Web”  The flow of the sun’s energy touches all living things on Earth. But how are plants and people connected? It is through the food web. All living things on Earth depend upon one another for food. Holly Holman, veterinarian at Zoo Boise and Adare Evans, wildlife educator for the Idaho Department of Fish and Game, answer students’ questions about the food web and its impact on all living things.</p> <p>Science Trek “Water”  Water is everywhere: in our bodies, the food we eat, and the ground upon which we walk. All living things need water to survive. It is the most valuable substance on Earth. Jan Boll, director of environmental science, water resources, and professional science masters programs and a professor in watershed hydrology and water quality at the University of Idaho, and Sarah Godsey, assistant professor in the Department of Geosciences at Idaho State University, answer students’ questions about water and its impact on all living things.</p> <p>Science Trek “Asteroids and Comets”  Asteroids are small, rocky objects left over from the formation of our solar system. Comets are leftovers too, made of dust, rock and ice. These small worlds can tell us what the early solar system was like.</p> <p>Science Trek “Insects”  Insects are the most numerous and diverse of all animal groups on Earth. There are nearly one million known species of insects, and more are being discovered each year. Guest scientists will answer students’ questions about insects.</p>	<p>8/2/2020  9:30 a.m.  30 minutes</p> <p>8/16/2020  9:30 a.m.  30 minutes</p> <p>8/23/2020  9:30 a.m.  30 minutes</p> <p>9/01/2020  4 p.m.  30 minutes</p> <p>9/13/2020  9:30 a.m.  30 minutes</p> <p>9/20/2020  9:30 a.m.  30 minutes</p>
--	---	---

<p>3. Outdoor Adventures</p>	<p>Outdoor Idaho “Idaho’s Scenic Byways” Cameras capture scenes from the state’s system of more than 2,400 miles of official Scenic, Historic or Backcountry byways. The routes crisscross the state to reveal natural wonders, geologic and historic sites, and the varied topography of Idaho.</p> <p>Outdoor Idaho “Almost Canada” The lush landscapes of north Idaho set it apart from the rest of the state. The Outdoor Idaho crew travels to the northernmost part of this area, the remote and wild country that borders Canada.</p> <p>Outdoor Idaho “Into the Pioneers” Positioned between glamorous Sun Valley and desolate Craters of the Moon, the Pioneer Mountains are, for many, just a blank spot on the map. The Outdoor Idaho crew set out to change that, exploring the valleys and the tallest peaks of Idaho’s second highest mountain range. This is not official wilderness, but it’s every bit as wild as the nearby Boulders and White Clouds, with a rich history and diverse landscape sure to inspire and intrigue.</p> <p>Outdoor Idaho “Land of the Lost River Range” They are Idaho’s tallest mountains, but many would be hard pressed to find them on a map. Geologists call it Basin and Range. We’ll meet some of the hardy individuals who work and play among these 12,000 foot peaks. This is a part of the state that in many ways still resembles the Old West.</p> <p>Outdoor Idaho “Where the Road Ends” Far from the population centers of the state, where the roads seemingly end, one can find stories of Idahoans who choose to be closer to nature than civilization. We profile a handful of these places where independence and self-sufficiency are embraced by the hearty souls who call these out-of-the-way places home.</p>	<p>7/02/2020 8 p.m. 30 minutes</p> <p>7/23/2020 8 p.m. 30 minutes</p> <p>8/06/2020 8 p.m. 1 hour</p> <p>8/13/2020 8 p.m. 30 minutes</p> <p>9/24/2020 8 p.m. 30 minutes</p>
<p>4. History</p>	<p>Idaho Experience “Through Youthful Eyes” The impact that Idaho had on World War II is greater than most people know. To commemorate the 75th anniversary of the end of the war, some Idaho State University honors students have written a history book titled “Idaho in World War II.” Idaho Experience takes a fresh look at the war through the eyes of four millennials and the associate professor who guided them through the process.</p> <p>Statecraft: The Bush 41 Team This program examines the presidency of George H.W. Bush and his foreign policy team’s expertise as they navigated international crises like the fall of the Berlin Wall, reunification of Germany, collapse of Russia, the Panama invasion, and the invasion of Kuwait.</p>	<p>7/16/2020 8:30 p.m. 30 minutes</p> <p>8/04/2020 10 p.m. 1 hour</p>

	<p>Idaho Experience “Ahead of Her Time, Women’s Suffrage in Idaho” By 1920, women in Idaho had already been voting in and winning elections for 24 years. How Idaho became the fourth state to grant women voting rights is the subject of his documentary.</p> <p>The Roosevelts: An Intimate History This film interweaves the stories of three deeply flawed but hugely heroic individuals – Theodore, Franklin and Eleanor Roosevelt – and the history they helped to shape: the expansion of national parks, the digging of the Panama Canal, the passage of innovative New Deal programs, and the defeat of Adolf Hitler.</p> <p>One Woman, One Vote This program is a sweeping look at the women’s suffrage movement, from Elizabeth Cady Stanton’s Seneca Falls call to arms to the passage and ratification of the 19<sup>th</sup> Amendment, which granted women voting rights. The documentary features historical photos and video clips of the suffrage movement.</p> <p>Outdoor Idaho “A Sawtooth Celebration” Outdoor Idaho takes a trip through time and space to examine the Sawtooth National Recreation Area as it celebrates its 40th anniversary. The show profiles how it came to be established, controversies surrounding its designation and the people involved, plus people and projects that contribute to its success.</p> <p>Idaho Experience “Taking the Reins” This program traces the remarkable paths of two Idaho women: Katherine Caroline Wilkins, born to fortune-seeking pioneers in Oregon Territory, was one of the most successful horse-sellers in the United States. And May Arkwright Hutton became one of the richest women in the American West, using her newfound wealth to promote suffrage and later running for the Idaho Legislature.</p> <p>Idaho Experience “Forgotten Neighbors: Idaho’s Chinese Immigrants” In 1870 nearly one-third of the Idaho Territory’s population was Chinese. Most of these individuals were men who worked in mines, though a handful of Chinese women found their way to Idaho. Although the majority of the workers ultimately returned to China, they left a substantial impact on the American West, through the infrastructure they built and the Western culture they influenced.</p>	<p>8/13/2020 8:30 p.m. 30 minutes</p> <p>8/17-19, 24-25, 31/2020 9 p.m. 2 hours each night 12 hours total</p> <p>8/26/2020 9:30 p.m. 2 hours</p> <p>9/10/2020 8 p.m. 30 minutes</p> <p>9/10/2020 8:30 p.m. 30 minutes</p> <p>9/17/2020 8:30 p.m. 30 minutes</p>
5. Local Community Interest	<p>Outdoor Idaho “Urban Wildlife” As Idaho’s population increases, the space that separates humans from animals continues to shrink, and that has led to problems for wildlife managers as well as moments of wonder. To capture some of these moments, Outdoor Idaho reached out to people across the</p>	<p>7/16/2020 8 p.m. 30 minutes</p>

	<p>state for footage of their brief encounters.</p> <p>Dialogue “Rep. John Lewis: Conversations from the Sun Valley Writers’ Conference (2014)” Rep. John Lewis (D-GA), the last of the so-called “Big Six” leaders of the African-American civil rights movement. Lewis, who spoke at the 2014 Sun Valley Writers’ Conference, talks about some of the major civil rights events in which he participated, his passion for the movement, and what he sees as the current challenges to his and Dr. Martin Luther King Jr.’s dream of a “beloved community.”</p> <p>Outdoor Idaho “Crafting a Living” Meet three Idaho artisans who make a living using their artistic vision and craftsmanship to make unique creations.</p> <p>Outdoor Idaho “Living With Wildfire” Wildfire is now a fact of life, both in the mountains and on the prairie. How are we adjusting, as wildfires seem to grow bigger, hotter, and more numerous?</p> <p>Outdoor Idaho “Idaho Headwaters” We are a state rich in rivers. And the waters that feed those rivers – Idaho’s headwaters – are truly some of the West’s sacred places. In this program, we pay tribute to the hundreds of miles of small streams that transport water from the upper reaches of the watershed to the main part of a river. Headwaters help determine the character of major rivers, like the Snake, the Salmon, the Selway, the Boise, the Owyhee, the St. Joe; and in turn those rivers help define Idaho and the West. Located in some of the state’s most beautiful, hard-to-reach places, “Idaho Headwaters” reminds us what it is that’s worth protecting in this world of ours.</p> <p>Idaho Reports “A Controversial Climate” Author and environmental journalist Rocky Barker talks about fires, climate change, and what the future may hold for Idaho. Then, Betsy Russell of the Idaho Press discusses recent CARES Act appropriations in Idaho.</p>	<p>7/23/2020 8:30 p.m. 30 minutes</p> <p>7/30/2020 8 p.m. 30 minutes</p> <p>9/03/2020 8 p.m. 30 minutes</p> <p>9/17/2020 8 p.m. 30 minutes</p> <p>9/18/2020 8 p.m. 30 minutes</p>
<p>6. Local/National Government</p>	<p>PBS NewsHour “Democratic National Convention” Coverage of the Democratic National Convention.</p> <p>Idaho Reports “Gearing Up for a Special Session” Rep. Greg Chaney, chairman of the House Judiciary and Rules Committee, discusses liability legislation lawmakers will consider at the upcoming special legislative session. Sen. Lori Den Hartog tells us about education-related issues she wishes lawmakers could</p>	<p>8/17-20/2020 6 p.m./5 p.m. MT/PT 3 hours each day 12 hours total</p> <p>8/21/2020 8 p.m. 30 minutes</p>

	<p>consider, and Rep. Melissa Wintrow tells us why she doesn't think a special session is necessary right now at all.</p> <p>PBS NewsHour "Republican National Convention" Coverage of the Republican National Convention.</p> <p>Frontline "The Choice 2020: Trump vs. Biden" "The Choice 2020: Trump Vs. Biden" Investigating the lives and characters of Joe Biden and Donald Trump as they compete to be president. Those who know them best reveal key moments that made both men and shape how they would lead America through a time of crisis.</p> <p>PBS NewsHour Debates: A Special Report "2020 Presidential Debate" PBS NewsHour coverage of the first 2020 Presidential debate.</p>	<p>8/24-27/2020 6 p.m./5 p.m. MT/PT 3 hours each day 8/27/2020 6 p.m./5 p.m. MT/PT 4 hours 13 hours total</p> <p>9/22/2020 9 p.m. 2 hours</p> <p>9/29/2020 7 p.m./6 p.m. MT/PT 2 hours</p>
7. Pandemic	<p>Idaho Reports "Open to Local Control" James Dawson of Boise State Public Radio joins us to discuss how different local public health districts are responding to the COVID-19 public health crisis. Then, Clark Corbin of Idaho Education explains the state's new school reopening guidelines, and the uncertainty surrounding that framework.</p> <p>Idaho Reports "Mask Up" Dr. Steven Nemerson of St. Alphonsus joins us to discuss the science behind mask use in combating the spread of COVID-19, and whether it's too late for us to stop the momentum of rising cases. Then, Audrey Dutton of the Idaho Statesman joins us to talk about hospital capacity, and how the state's ability to track that has changed.</p> <p>Idaho Reports "Childcare Uncertainty" Beth Oppenheimer, executive director for the Idaho Association for the Education of Young Children and Boise School District trustee, joins us to discuss the current landscape for childcare providers and educators in Idaho. Then, Senate President Pro Tem Brent Hill discusses legislative working groups created in response to Gov. Brad Little's COVID-19 emergency declaration.</p> <p>Idaho Reports "Education Plans" High school English teacher Sally Mitchell discusses preparations some teachers are making for the chance they'll start this semester</p>	<p>7/10/2020 8 p.m. 30 minutes</p> <p>7/17/2020 8 p.m. 30 minutes</p> <p>7/24/2020 8 p.m. 30 minutes</p> <p>7/31/2020 8 p.m. 30 minutes</p>

	<p>online. Blaine Eckles, dean of students and vice provost of student affairs for University of Idaho, shares the university’s strategies for opening the campus for in-person instruction.</p> <p>Idaho Reports “Back to School Balance” Kevin Richert of Idaho Education News gives us an update on how school districts and higher education institutions are planning to start the school year. Shiva Rajbhandari gives us a student’s perspective on distance learning, and Rachel Roberts of the Idaho Statesman discusses her COVID-19 data tracking.</p> <p>Idaho Reports “Pandemic Policies” Kyle Pfannenstiel of The Post Register and Report for America discusses the coronavirus outbreak in rural eastern Idaho, and East Idaho Public Health District’s approach to controlling the spread. Then, Dr. David Pate, retired CEO of St. Luke’s Health System and a member of Gov. Brad Little’s coronavirus working group, gives us his take on policy discussions surrounding COVID-19 in Idaho.</p> <p>Idaho Reports “Behind Closed Doors” Tamara Prisock, administrator for the Division of Licensing and Certification at the Idaho Department of Health and Welfare, talks about efforts to keep long term care facilities safe from COVID-19 outbreaks. Then, Ruth Brown of the Idaho Statesman discusses outbreaks at jails and Idaho Department of Corrections facilities.</p> <p>Idaho Reports “Support Systems” Robin Findl, owner of Kids Choice Childcare Center and Preschool, talks about how school closures and homeschool pods are affecting daycares. Then, Chauntelle Lieske, executive director of Safe Passage in Coeur d’Alene, discusses the rise in severity of domestic violence and child abuse cases.</p> <p>Idaho Reports “Applying Lessons Learned” St. Alphonsus pulmonologist Dr. Meghan McInerney talks about long-term effects of the virus, and what we still don’t know.</p>	<p>8/07/2020 8 p.m. 30 minutes</p> <p>8/14/2020 8 p.m. 30 minutes</p> <p>9/04/2020 8 p.m. 30 minutes</p> <p>9/11/2020 8 p.m. 30 minutes</p> <p>9/25/2020 8 p.m. 30 minutes</p>
