They say Virginia's constitution implies that the governor must restore voting rights on an individual, case by case basis- not with a blanket move. "It's individualized. It doesn't say so, but it's clear that the governor must individualize it. And why is that?	0:01:38

Tuesday- after more than a week, lawyers whittled down the panel from 28 to 12 jurors and 4 alternates.	0:01:50

Crime & Public Safety	7/19/2016	6:00 PM	CHIPPENHAM TREE	One of our photographers just happened to be driving through the area right after the tree came down. Two men were in the truck when the tree came crashing down -- the good news here, no one was hurt. We've seen reports of trees down across the area ... not just on Belmont Road -- but also on Powhite Parkway and on Interstate 64 in the Goochland area. We haven't heard any reports of injuries yet. We were able to talk to the driver of the truck right after the tree came down...Hatchett said the damage to his truck is minimal -- the tree scared him more than anything else. Politics	7/20/2016	5:30 PM	RNC DAY 3 VA BREAKOUT	Karla there was concern that delegate Ken Cuccinelli went rogue after Monday's disruption, with people asking if he left the convention early in protest. Well I just confirmed that he's still in Cleveland, staying until Friday, and was just spotted at a Ted Cruz appreciation event. Consumer & Economy & Employment	7/21/2016	5:00 PM	BUSINESS IMPACT	Curt/Sabrina- the good news tonight- the power's back on, but not all the stores are opened for business. But, that wasn't the case around noon- lunchtime favorite Chickfila was closed with a simple sign on the door saying: sorry, closed. No power. A refrigerated tractor trailer was in the back of the restaurant to keep inventory from spoiling. For the owner of Dickey's Barbeque Pit he was moving items by hand- to save what he could. We also check in at Target, there was a sign on the door saying it didn't have freezer or cooler items. But, the store was open for business even though it was dimly lit by emergency lighting. Power has been back now for a couple of hours, so good news for shopper, but also business owners. One restaurant owner told NBC12, insurance only covers so much in situations like this so there was no telling how much money he had lost during this storm.	0:01:50

The “Dateline NBC” special also features an interview with Bob Whitson, a retired detective sergeant at Boulder PD who was at the Ramsey house on the day the murder investigation began. 3rd QUARTER 2016 MEET THE PRESS TOPICS/GUESTS

Airs Sundays at 10:00am, unless otherwise noted

July 3, 2016

In a Sunday exclusive interview with moderator Chuck Todd, **Sen. Tom Cotton (R-Ark.)** refused to support Republican presumptive nominee Donald Trump, saying that “Donald Trump can ultimately make the case for himself.”

Cotton also told Todd that the tarmac meeting between Attorney General Lynch and former president Bill Clinton earlier this week “raises questions about political interference in this investigation.” Watch the full interview:

Democratic presumptive nominee Hillary Clinton exclusively spoke with Todd yesterday in her first interview since her voluntary interview with the FBI about her emails as Secretary of State, telling him that she’s “been eager” to speak with the FBI and that, in regard to the controversial tarmac meeting, “hindsight is 20/20.”.

Labor Sec. Tom Perez, who has widely been speculated as a possible VP pick for Clinton, also exclusively joined this morning’s program in his personal, political capacity, sharing that “we want to make sure that when we negotiate with Mexico and Vietnam and others that we have the strongest protections for workers that we’ve ever had....The President and Secretary Clinton have a disagreement on whether T.P.P. has gone that far.”.

The Atlantic’s Jonathan Rauch talked about his cover story “How American Politics Went Insane” with the show’s roundtable, which featured NBC News’ **Andrea Mitchell**, **Kelly O’Donnell** and **Katy Tur**; and MSNBC’s **Kasie Hunt**.

July 10, 2016

On a special edition of “Meet the Press with Chuck Todd” this morning, **Homeland Security Sec. Jeh Johnson** responded to former New York City Mayor Rudy Giuliani’s comments that Black Lives Matter makes “it seem like all police are against blacks,” telling Todd: “Let’s all dial back the overheated political rhetoric.”

Sec. Johnson also told Todd that, “yes,” he has had the talk with his son that many African-American fathers say they have; **New York City Police Commissioner Bill Bratton** added, “I’ve had conversations with my son, who’s now 45, as a police officer, about the importance of compliance.”

Bratton also addressed his department turning down a request from Republican presumptive nominee Donald Trump’s security personnel for Trump to address a roll call: “We turned down that request...We don’t allow the department to be used, if you will, as a backdrop to those types of campaigns.”

“We’re in a very, very critical point in the history of this country,” **Charles Ramsey**, former commissioner of the Philadelphia Police Department, told Todd. “You’ve got two conventions coming up that are going to be very, very challenging to handle. And I don’t think they are going to go without some incident taking place.”

For the first time in nearly two years, a Republican senator and Democratic senator appeared on the network broadcast together. This morning, **Sen. Cory Booker (D-N.J.)** and **Sen. Bob Corker (R-Tenn.)** - both former mayors -- discussed the deadly shooting in Dallas.

Sen. Booker called on the nation to do more to support police officers, adding: "There's few groups as I've ever seen in America that show the daily courage, especially urban police officers, where there's a lot of gun violence."

"Millennials in our country today probably are more embracing of diversity than any generation we've had," argued Sen. Corker. "It's my hope, again, after this tremendous crisis that's occurred, this tragedy, that our country will focus more on unity and not division. And I hope both campaigns will take advantage of that."

Also joining this morning's show for insight and analysis were **Michael Gerson** and **Eugene Robinson** of The Washington Post, Republican strategist **Mary Matalin** and Georgetown University professor **Michael Eric Dyson**.

July 17, 2016 (aired at 2:00pm)

In a special edition of "Meet the Press with Chuck Todd" in Cleveland ahead of the Republican National Convention, **Republican National Committee Chair Reince Priebus** discussed the party's 2013 autopsy report after former Gov. Romney's presidential loss: "The autopsy really is about engaging in black, Hispanic, Asian communities, being a full-time party, investing in data and also, watching your mouth" which Republican presumptive nominee Donald Trump has "done much better at."

Priebus also responded to the inclusion of conversion therapy on the party platform, telling Todd that "there was an amendment on that issue" and that "it is not in the final platform."

The Blaze's Glenn Beck also joined the program, noting that "both parties are so out of touch with the American people" and questioning "Why all of a sudden are these people who were so strongly against Clinton or so strongly against Trump now suddenly on the Clinton train, on the Trump train?"

New NBC News/Wall Street Journal poll numbers debuted on the program, showing Democratic presumptive nominee Hillary Clinton with a five-point national lead over Trump: Another poll result, in partnership with Telemundo, marks Trump's lack of popularity with Latino voters with just 14 percent support:

The show then pivoted to the tumultuous week abroad with incidents in Nice and Turkey with **Secretary of State John Kerry**, who joined the show from Luxembourg. He responded to recent domestic and international events like Orlando and Nice, telling Todd: "Those events, actually, are efforts by ISIL to try to prove relevance and to try to frighten people more." He added: "We've taken 130 of their major leaders off the battlefield. We are making progress."

Also joining the roundtable for insight and analysis was NBC News' **Tom Brokaw**, radio talk show host **Hugh Hewitt**, MSNBC's **Joy Reid**, and **Sara Fagen**, formerly of the Bush administration.

July 24, 2016

In a Sunday exclusive interview, **Republican presidential nominee Donald Trump** commented on the latest on proposed Muslim ban, telling moderator Chuck Todd: "You could say it's an expansion. I'm looking now at territories. People were so upset when I used the word Muslim. 'Oh, you can't use the word Muslim.' Remember this. And I'm okay with that, because I'm talking territory instead of Muslim."

The wide-ranging interview also touched on former Sec. Hillary Clinton's choice of Virginia Sen. Tim Kaine on her ticket, of which Trump told Todd he was "shocked" and that when it comes to Sen. Bernie Sanders (I-Vt.), "it's a rigged system against him." He continued: "What happened with the choice of Tim Kaine was a slap in the face to Bernie Sanders and everybody."

Sen. Sanders also joined the network broadcast, reflecting on Sen. Kaine as the vice presidential candidate: "He is more conservative than I am. Would I have preferred to see somebody like an Elizabeth Warren selected by Secretary Clinton? Yes, I would have."

Chuck also addressed the recent **DNC email leaks**: "I'm in one of the emails just-- I'm the complaint department here sometimes at NBC. Somebody was complaining about coverage. And I said, "Okay, let's talk on the phone," or whatever. But we didn't do anything about it, because I get complaints about coverage every hour, every day."

Also joining the show this morning for insight and analysis were NBC News' **Andrea Mitchell**; MSNBC's **Chris Matthews** and **Rachel Maddow**; and **Michael Steele**, former RNC chair and NBC News political analyst.

July 31, 2016

Paul Manafort, chair and chief strategist for Donald Trump's presidential campaign, told moderator Chuck Todd that it is "the Clinton narrative" to say that Trump went hard after **Khizr Khan, the father of fallen U.S. Army Capt. Humayun Khan who spoke at the DNC earlier this week**. He continued: "It's not about temperament."

Khan joined Todd on set earlier this morning, sharing that he appreciates Trump calling his son a hero, but that "it sounds so disingenuous because of his policies, because of his rhetoric of hatred, of derision, of dividing us."

When it comes to Russia's relationships with the Trump campaign and WikiLeaks, Manafort claimed that the language change on Ukraine in the Republican Party platform "absolutely did not come from the Trump campaign," and **WikiLeaks founder Julian Assange** commented on the potential involvement of a foreign government like Russia, telling Todd: "It's an interesting speculative question....We don't give any material away as to who our sources are."

Robby Mook, campaign manager for Hillary Clinton's presidential campaign, repeatedly refused to take a position on whether the campaign would release the 33,000 deleted State Department emails if possible: "It's just not a relevant question anymore because this matter has been concluded and you're asking about hypothetical emails that may or may not be there."

The New York Times' **David Brooks**, Republican strategist **Alex Castellanos**, NBC News' **Hallie Jackson**, and presidential historian **Doris Kearns Goodwin** also joined this morning's program for insight and analysis.

August 7, 2016 (aired at 9:00am)

In his first Sunday show interview since becoming the Democratic vice presidential candidate, **Virginia Sen. Tim Kaine** told moderator Chuck Todd, "I know that this is something that she's learned from, and we're going to be real transparent, absolutely," when it comes to his running mate former Sec. Hillary Clinton's email controversy.

Sen. Kaine also addressed the future of Supreme Court nominee Merrick Garland, telling Todd that it “will be for the president and the president-elect to decide.” **Florida Gov. Rick Scott**, the national chair for a pro-Trump super PAC, didn’t defend Republican presidential nominee Donald Trump not releasing his tax returns, telling Todd: “My view is give everybody all the information.... Every candidate does things differently.” Gov. Scott added: “I released my tax returns.... I want to make sure no one knows I have a conflict.”

“Meet the Press” also had an **exclusive first look at the new ad from Gov. Scott’s super PAC** that will begin airing tomorrow:

Trump adviser Lt. Gen. Michael Flynn (Ret.) discussed the candidate’s views on Russia and told Todd: “I do believe Russia has an anti-U.S. view of the world. You have to read Russia’s national security strategy. And I’m not even sure what ours is. But I know what Russia’s is. And they have a view of the United States that is not in our best interests.”

The New York Times’ **Yamiche Alcindor**, Bloomberg Politics’ **Mark Halperin**, radio talk show host **Hugh Hewitt** and MSNBC’s **Joy Reid** also joined this morning’s show for insight and analysis.

August 14 & 21, 2016

MEET THE PRESS was pre-empted due to NBC Sports coverage of the 2016 Olympic Summer Games.

August 28, 2016

In an exclusive sit-down interview, **Reince Priebus, chair of the Republican National Committee**, acknowledged he doesn’t know the new chief of nominee Donald Trump’s campaign, telling Chuck Todd: “I go with the flow based on what the campaign wants to do,” and in regard to new details on Bannon’s background: “I don’t know how much of it is true.”

When asked what the candidate’s position specifically is on undocumented immigrants, Priebus told Todd, “You’re going to find out from Donald Trump very shortly....I just don’t speak for Donald Trump.”

David Plouffe, former campaign architect to President Obama in 2008 and 2012, also joined the network program live, telling Todd: “I think there’s legitimate questions about the Clinton Foundation,” but pointing to its work, saying “I’m glad they’re not falling into the trap of shutting [it] down.”

After Plouffe declared “we have a psychopath running for president,” Todd challenged his capacity to diagnose and responded to Plouffe that “this is what gets voters a little frustrated with this campaign.”

“Meet the Press” featured insight this morning from **NBC News’ Andrea Mitchell** and **MSNBC’s Joy-Ann Reid**, **radio talk show host Hugh Hewitt** and **The Washington Post’s Robert Costa**.

September 4, 2016

Republican vice presidential nominee Mike Pence said his running mate Donald Trump has been “completely consistent” on his immigration positions when it comes to the 11 to 15 million undocumented individuals in the U.S., after “Meet the Press” moderator Chuck Todd pressed him more than ten times on what would happen to them in a Trump administration.

When asked about the leadership of the Trump campaign, the Indiana governor promised that “the person leading Donald Trump’s campaign is Donald Trump,” and when it comes to the appropriateness of former Fox News CEO Roger Ailes’ involvement with the campaign, he said he trusts Trump’s “judgment.”

Sen. Bernie Sanders (I-Vt.) also exclusively joined this morning’s program, commenting that the 15 percent threshold for presidential debates is “probably too high.” It “probably should be lower than that,” he said. The former Democratic presidential candidate also noted that if party nominee Hillary Clinton becomes president, “she should cease all operations, all contact with the Clinton Foundation.”

The “Meet the Press” roundtable this morning featured Republican strategist **Alex Castellanos**, The Washington Post’s **Chris Cillizza**, VotoLatino’s **Maria Teresa Kumar** and NBC News’ **Kristen Welker**.

September 11, 2016

On a special edition of “Meet The Press” this morning, commemorating 9/11 fifteen years later, **Homeland Security Sec. Jeh Johnson** told moderator Chuck Todd: “We’ve got people devoted to all manner of threats out there. Invariably, the high probability, higher probability type of threat, another San Bernardino, another Orlando, is uppermost on our minds. It is the thing that keeps me up at night the most.”

Secretary Johnson also responded to threats to the U.S. election system and reports of possible Russian infiltration: “It’d be very hard to alter a ballot count in a national election, to change the vote tallies, just because our election system is so decentralized.” He added, “I’ve been sending the message to state and local officials that we ought to do our utmost to protect their online presence.”

Former Deputy Defense Secretary Paul Wolfowitz, who served during the George W. Bush administration, responded to being known as the “architect of the Iraq War,” telling Todd that he takes issue because “Because I was not in charge, I was not the Commander-in-Chief or even the Secretary of State or the Secretary of Defense or National Security Advisor. And more importantly, because I think and I thought at the time there were a lot of things that should have been done differently.”

Presidential nominees Hillary Clinton and Donald Trump are deadlocked in four battleground states – Arizona, Georgia, Nevada and New Hampshire – according to **new NBC News/Wall Street Journal/Marist polls released this morning**:

Also joining the show this morning for insight and analysis were **Tom Brokaw** of NBC News, **David Brooks** of The New York Times, **Audie Cornish** of NPR, and Democratic strategist **Stephanie Cutter**.

September 18, 2016

After meeting with President Obama today in the Oval Office to discuss TPP, Gov. John Kasich (R-Ohio) sat down with “Meet the Press” moderator Chuck Todd, telling him “the chances are miniscule” that he will be voting for Republican presidential nominee Donald Trump.

“It’s very, very likely I will not” vote for Trump, said former presidential candidate Gov. Kasich. “It is country first, and I am unlikely to cast that vote.”

Also appearing on the program: Democratic vice presidential nominee **Sen. Tim Kaine (Va.)**, Donald Trump Campaign Manager **Kellyanne Conway**, and a roundtable featuring Democratic pollster **Cornell Belcher**, Republican strategist **Alex Castellanos**, *New York Times* columnist **Maureen Dowd**, and NBC News Correspondent **Katy Tur**.

September 25, 2016

John Podesta, chair of Democratic nominee Hillary Clinton's presidential campaign, exclusively joined "Meet the Press" this morning, calling Republican nominee Donald Trump's debate invitation to Gennifer Flowers a reaction "to dive in the sewer and go for a swim."

Podesta defended the campaign's invitation to entrepreneur Mark Cuban to sit in the front row at tomorrow evening's debate -- which prompted Trump's Twitter invitation to Flowers -- telling Todd: "Mark Cuban is one of the business leaders who was never involved in partisan politics who's endorsed Hillary because he thinks she'll do better for the economy."

When asked to confirm the attendance of Flowers at the debate, **Trump campaign surrogate Lt. Gen. Michael Flynn (Ret.)** told moderator Chuck Todd this morning that "we'll wait to see what happens tomorrow night." He added: "Was it appropriate to invite Mark Cuban?... He's not a legitimate person."

Stephanie Cutter, former deputy campaign manager for President Obama, and **Steve Schmidt, former strategist for the 2008 McCain presidential campaign**, recounted their experiences in debate preparation on the program.

Cutter commented on longtime Clinton aide Philippe Reines playing the role of Trump in her debate prep, sharing: "Phillippe testing Secretary Clinton's limits is very important... No one's ever debated somebody like Donald Trump on a presidential debate stage. We don't know exactly who's showing up."

Schmidt predicted that "the verdict of what happened in this debate will be rendered by the middle of the debate, certainly by the end, by social media and the ability of, you know, campaign teams to come out to be able to tell the American people, 'Here's what really happened when 80 million plus people just saw it.'"

Radio talk show host **Hugh Hewitt**, PBS' **Gwen Ifill**, presidential historian **Doris Kearns Goodwin** and Republican strategist **Mike Murphy** joined this morning's show for insight and analysis.
