Request for STA

KEZW (AM), Aurora, CO

Fac ID 67843

Entercom License, LLC requests Special Temporary Authorization (STA) to continue operation of KEZW (AM), Fac ID 67843, Aurora, CO. while repairs are made to the station's antenna system. KEZW is authorized to operate at a power of 10 kW during daytime hours using a non-directional antenna, and 5 kW at night using a five tower directional antenna system. The antenna switching system has failed, leaving Entercom unable to switch the antenna system between its directional and non-directional modes.

Entercom therefore requests STA, for a period of 180 days, to authorize non-directional nighttime operation at a power of 1.25 kW using the licensed daytime antenna system while repairs are made to the switching system. Daytime operation will continue with licensed facilities.
